Serum/Plasma Drug Screening

To: Clients of UR Medicine Labs

From: Y. Victoria Zhang, PhD

Director, Clinical Mass Spectrometry and Toxicology Laboratory

Phone: (585)276-4192 Email: Victoria_zhang@urmc.rochester.edu

Date: April 27, 2015

As of 6/24/2015 UR Medicine Labs will be replacing the following Serum/Plasma Drug screening tests that are currently sent out to ARUP Laboratories and NMS Laboratories.

Drug Screen 9 Panel - <http://ltd.aruplab.com/Tests/Pub/0092420>

Drug Screen to NMS - <https://www.testmenu.com/rochester/Tests/67759>

These two tests will be replaced with one single test which will be sent to ARUP Laboratories.

Drug Detection Panel by High-Resolution Time-of-Flight Mass Spectrometry, Serum or Plasma - <http://ltd.aruplab.com/Tests/Pub/2003254>

This test from ARUP covers both previous screening tests. It benefits from the high specificity provided by mass spectrometry technology and additional confirmation is not required.

If you have any questions or need assistance with this information, please contact Dr. Victoria Zhang via the methods listed above. Thanks for your assistance in implementing this change.
