Dr. Henry Rodriguez, Ph. D., M.B.A.
Director, Office of Cancer Clinical Proteomics Research
National Cancer Institute
National Institutes of Health

Presents

“Redefining Cancer Subtypes through Proteogenomics”

Wednesday May 7th, 2014
10:00 a.m. – 11:00 a.m.
Room K-207 (URMC 2-6408)

Dr. Rodriguez's research has focused on the utilization of molecular-based high throughput technologies to enhance the understanding of cancer biology and improve the ability to diagnose, treat and prevent cancer. The seminar will discuss the Clinical Proteomic Tumor Analysis Consortium (CPTAC) and other NCI initiatives such as The Cancer Genome Atlas (TCGA) to comprehensively characterize tumors.

This event is hosted by the Department of Pathology and Laboratory Medicine and the Clinical and Translational Science Institute. For more information, please contact Yan Zhang, Ph.D., at Yan1_Zhang@URMC.Rochester.edu.
