Wayne Psek, MD, MBA, PhD

Wednesday, November 11th
12:00-1:00PM    (Lunch will be provided)
K307 Auditorium (3-6408)

In this seminar, Dr. Psek will discuss his current work on managing learning and innovation within and between health care delivery systems. In particular, he will discuss the operationalization of learning health systems and the role of clinical innovation in a learning health system context. Dr. Psek will also discuss a strategic partnership model focused on the knowledge transfer and learning between health care organizations.

Dr. Wayne Psek is an Assistant Professor in the Department of Health Policy and Management at the Milken Institute School of Public Health at The George Washington University in Washington DC. His current research and teaching interests cover theoretical and applied fields including organization theory, design and learning; health service and system management; quality improvement; clinical innovation; and delivery system and implementation science.

Prior to joining The George Washington University, Dr. Psek was an AcademyHealth Delivery System Science Fellow at Geisinger Health System in Danville PA. He received his PhD from the Department of Health Policy and Management at the University of North Carolina at Chapel Hill and his medical degree (family practice) from the University of Pretoria, South Africa. He holds an M.B.A. from York University (Toronto, Canada) and has 10 years of business experience managing his own company.
