

UR MEDICINE

One number for UR Medicine.

(585) 275-URMD (8763)

Toll Free (844) 500-8763

An exclusive number for doctors and their staff, giving them easy access to the UR Medicine services they need most:

SPECIALIST REFERRALS

Set up an appointment with any UR Medicine specialist.

URGENT REFERRALS

Connect with the UR Medicine Transfer Center to facilitate urgent referrals.

PATIENT INFORMATION TRANSFER

Get instructions for transferring critical patient information to the UR Medicine care team.

PATIENT STATUS UPDATES

Connect with your patient's attending physician for updates on procedures or outcomes.

CARE COORDINATION

Get information on post-discharge care and relevant support services for your patients.

GENERAL QUESTIONS

Get answers to any questions you have about UR Medicine.

CONSULT SERVICES

Get advice from UR Medicine specialists 24/7 or facilitate transfer of your patients when needed.

For your convenience, our Access Guide is available on line – simply visit **Physicians.URMC.edu** for an electronic version. You'll also get quick links to eRecord and ePartner, as well as learn about CME offerings, our new physicians and much more!

UR MEDICINE EPARTNER

(585) 275-3200

UR Medicine's Electronic Health Record system is called eRecord. Community providers who work with UR Medicine may be eligible for ePartner access, a web-based portal into eRecord. ePartner enables community partners and their staff members to view notes, labs, radiology results, among other documents. It also allows for orders and referrals to be placed electronically for our UR Medicine locations, removing the need for faxing.

WHAT TO EXPECT WITH EPARTNER

ePartner is a secure, web-based portal that allows community physicians and their office staff to view real-time information about their patients' hospital, ED and ambulatory visits. ePartner can be viewed on both PCs and Macs.

WHAT'S INVOLVED IN USING EPARTNER?

We've made access to ePartner streamlined for our community physicians and their office staff, while ensuring the security and appropriate use of medical records for our patients. To gain access to this system, you can go to our ePartner site at <https://epartner.urmc.rochester.edu/ePartner>. On the bottom of the login page, click the "Request New Account" link. This will open a form for you to complete. When submitted, it will send an InBasket message to our Regional Support team. The Regional Liaison will work with each practice to identify the physicians, nurses and staff who need access. You also will need to sign documentation that indemnifies URM for the use of the system. Once these steps are completed, you'll be ready to go.

It takes a couple of weeks to complete the important security and administrative work necessary for each user to have access.

ePARTNER: FREQUENTLY ASKED QUESTIONS

DOES EVERYONE GET THE SAME ACCESS IN ePARTNER?

No. We'll work with each practice to understand how you and your staff interact with UR Medicine facilities, and match your needs with access configured to ensure patients' information is protected and secure.

CAN I UPDATE INFORMATION DISPLAYED IN ePARTNER?

Most information in ePartner is view-only. However, you can place orders for labs, radiology, cardiology tests and referrals. You also may have access to write a community progress note. If you are aware that specific patient information should be updated (for example, a patient's PCP), please contact the ISD Help Desk at (585) 275-3200 to request the change.

WILL ALL MY PATIENTS BE IN ePARTNER?

Any patient who has been seen at a UR Medicine facility is included in ePartner. These locations include Strong Memorial Hospital, Highland Hospital, F.F. Thompson Hospital, Jones Memorial Hospital, Noyes Health, St. James Hospital, Highlands at Brighton, Highland Living Center, lab draw stations, imaging locations, etc. Your access will be limited to patients with whom you are linked (by ordering a test, being identified as the patient's PCP, admitting the patient, etc.). If you are not formally linked to a specific patient in our system, there are other ways you will be able to gain access to that patient's records that you will learn in training.

CAN MY PATIENTS SEE THE SAME LAB AND IMAGING RESULTS?

Patients have access to chart information through MyChart. This includes lab, imaging results, notes, problems, medications, allergies and immunizations. Be aware that test results may be available to patients via MyChart before you have an opportunity to review and discuss them with your patient.

CAN I PRINT INFORMATION FROM THE PATIENT'S CHART?

Yes. You can print to your default printer or print to PDF to electronically place in your office EMR.

Accessing ePartner requires the following:

- Any Internet browser and network connection
- Any operating system (PC or Mac)

If you have questions about ePartner you can call the URM Help Desk at (585) 275-3200 option 3 and ask for the Regional Support team.
