Connecting Pages and Keynote to Box.com:
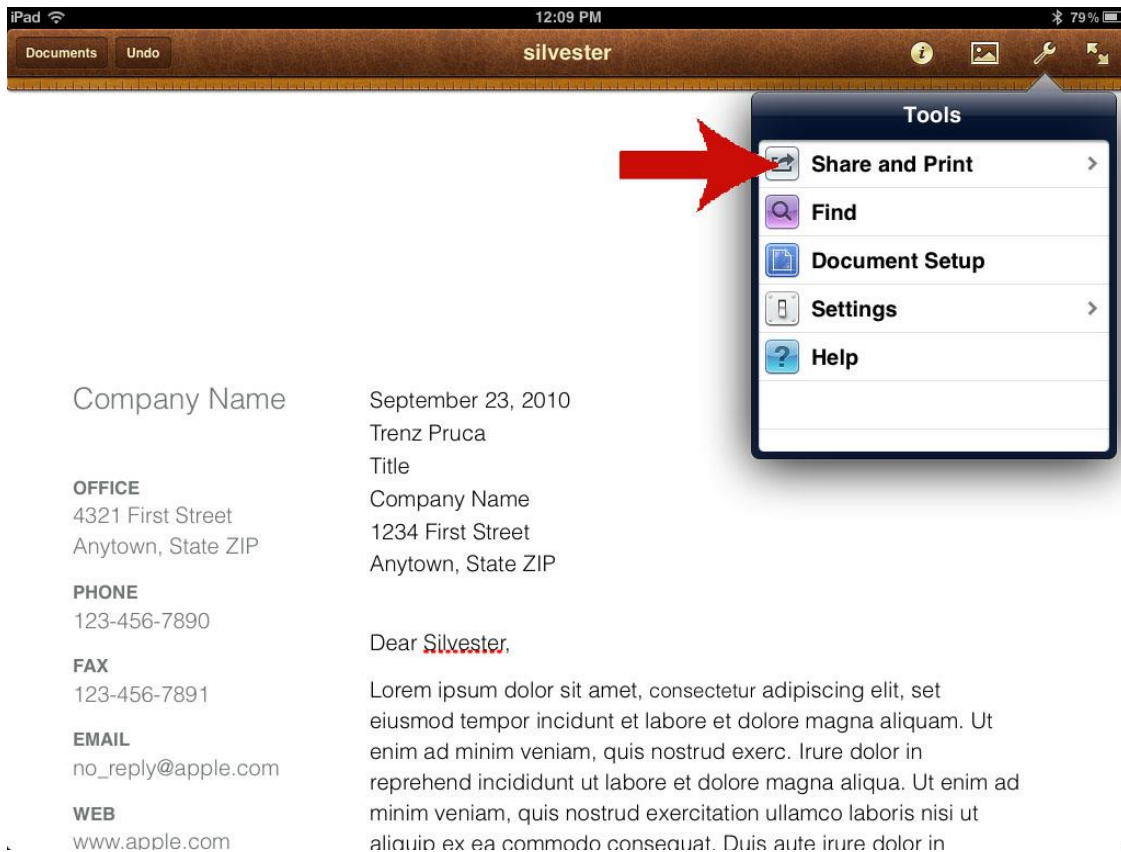

Uploading files to Box.com

These instructions show how to connect Pages to Box.com. The instructions for connecting Keynote are the same.
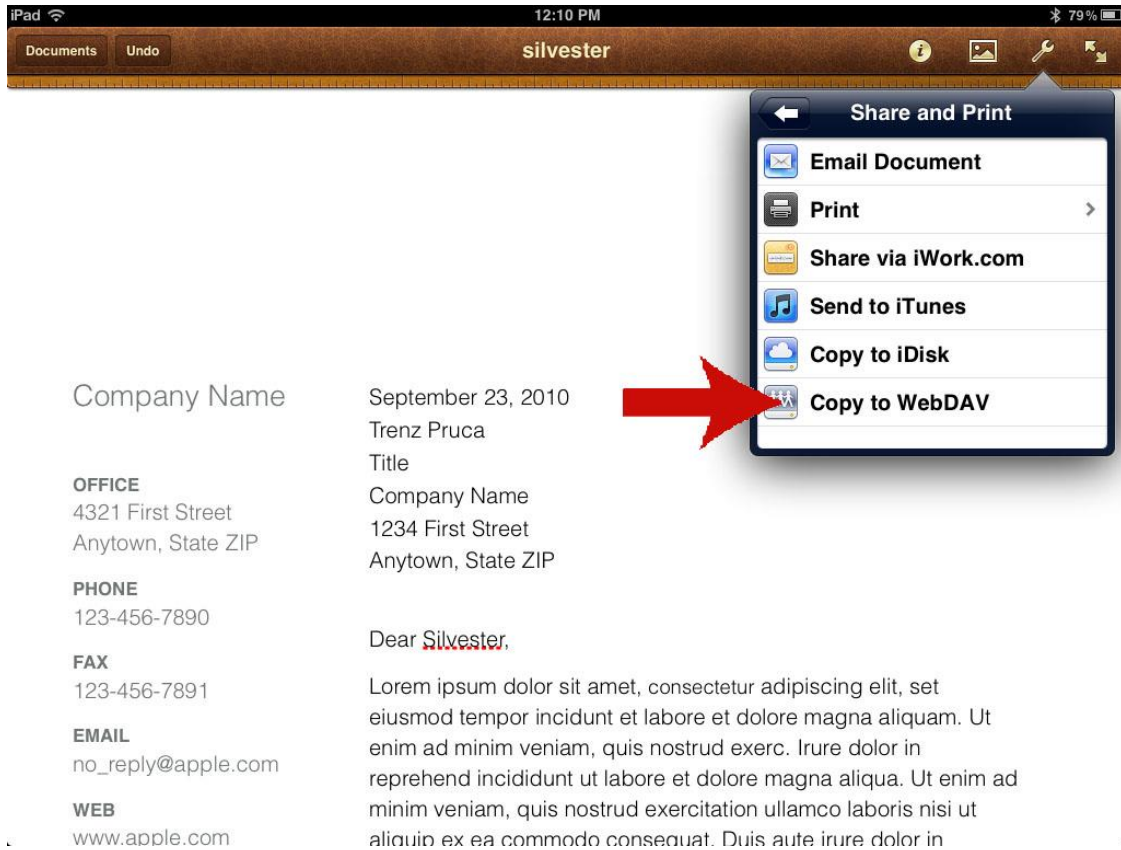

The Launch the Pages App

Open the document or presentation that you want to upload (if it is not already opened).

Tap the Wrench icon [icon] in the upper right corner. This will display the 'Tools' menu.

Tap 'Share and Print'

Next tap 'Copy to WebDAV'
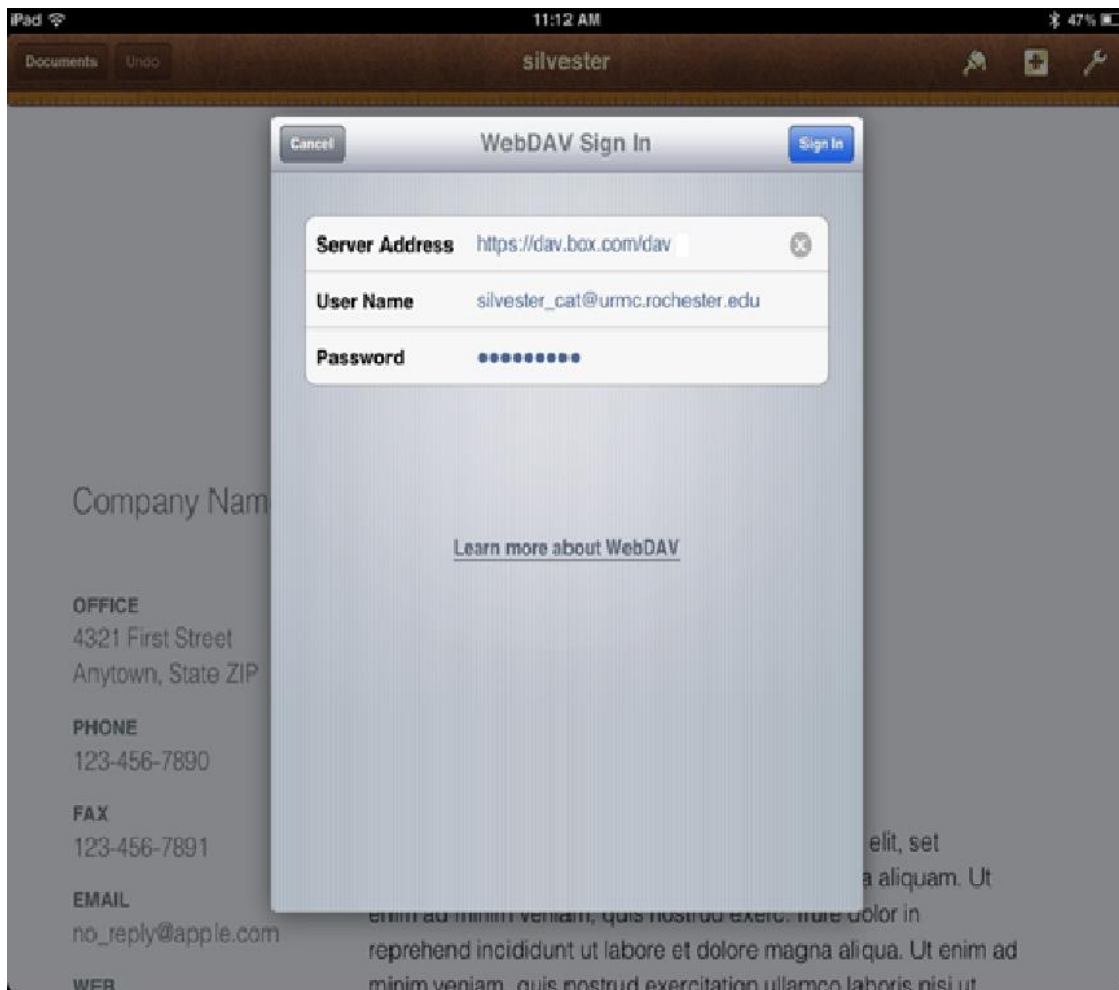

You will now see the "WebDAV Sign In" dialog box.

Enter the following information in the corresponding fields:

Server Address: https://dav.box.com/dav

User Name: (enter your URMC email address using all lower case letters)

Password: (enter your Box.com password)
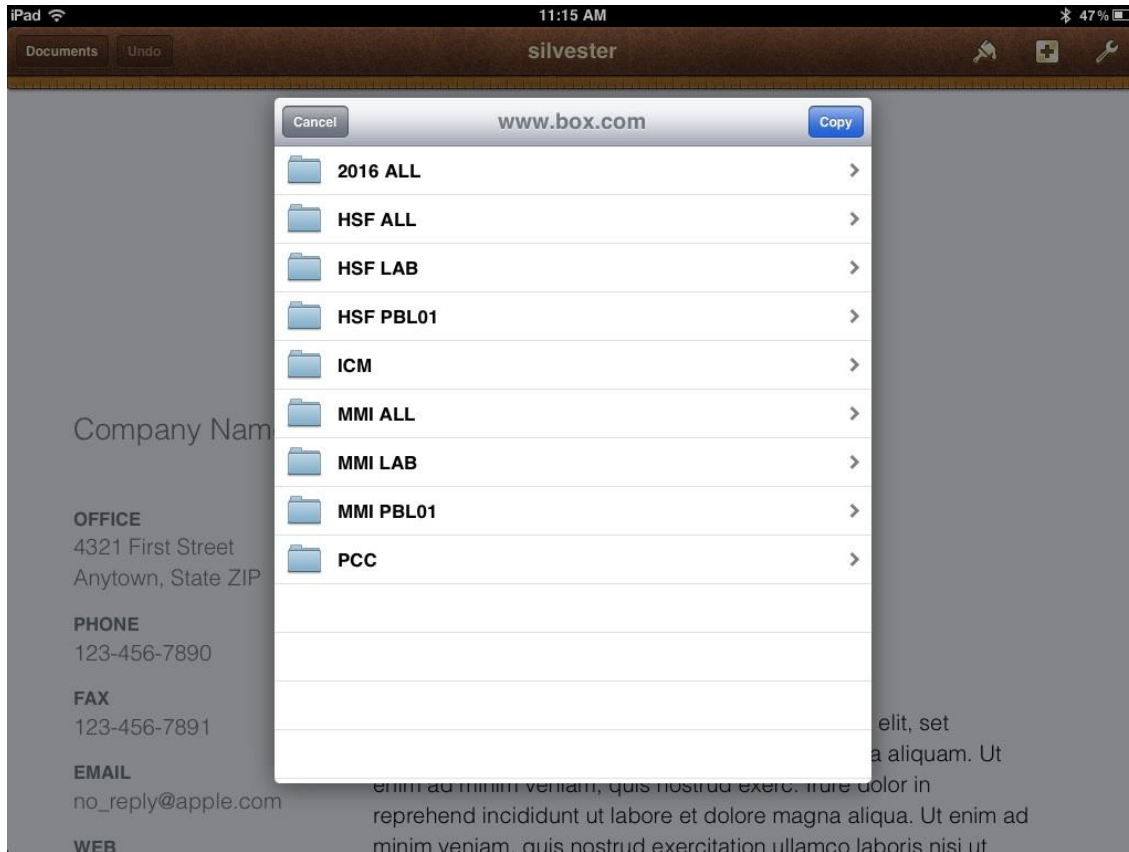

Tap 'Sign In'.

Next you will tap on the file format in which to copy the file: Pages, PDF or Word.

You will now see your Box.com folders. From here you will navigate to the folder where you want to upload the file.
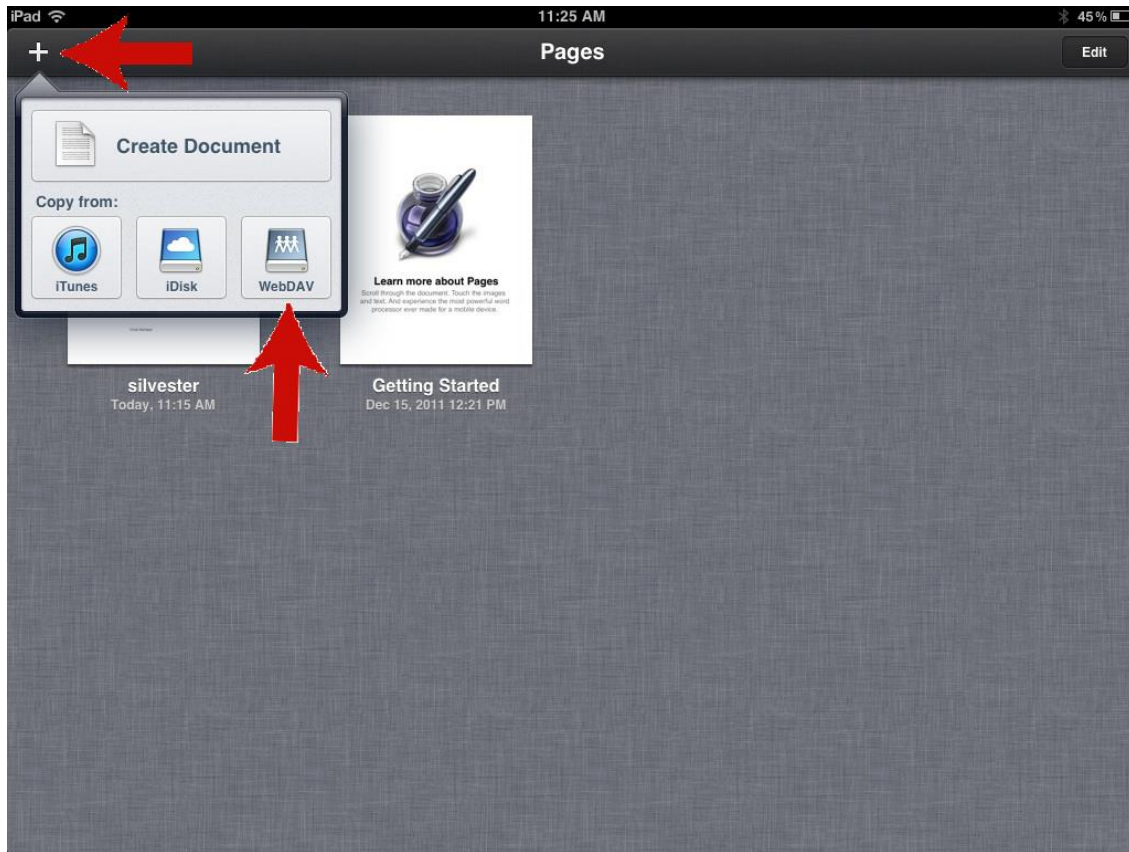

Once you are in the destination folder that you want, click on the blue copy button. (NOTE: The original file will remain where it was.)

This completes the file upload and the file is now accessible from the Box.com folder.

Downloading files from Box.com

From your Documents view in Pages, tap the '+' sign in the upper right corner and then tap WebDAV.

You will now see your Box.com folders and can navigate to the location of the file to be downloaded.

When you are in the folder that contains the file, tap on the file name and it will be downloaded and opened Pages.
