Introduction

October, 2011

I wish to especially thank Ms. Yi Kiley, Mr. Keith Bullis, and Dr. Linda Rasubala for their creative input and coordination of the 2011 edition of the yearbook for the AEGD program at Eastman Institute for Oral Health. Numerous staff, faculty, and residents have contributed photographs and stories, making this edition both interesting and fun. Our objective has been to provide an academic and social view of our program.

Hopefully, the alumni list is accurate, as it has been updated. We appreciate your feedback with this ongoing project.

I hope that you will enjoy this new edition of our yearbook and that it will help you to remember your time at U of R Eastman Institute for Oral Health in Rochester.

Sincerely,

[Signature]

Dr. Hans Malmström
Director, Advanced Education in General Dentistry
Eastman Institute for Oral Health, University of Rochester
A Message From the Director

“You’re alive. Do something. The directive in life, the moral imperative is so uncomplicated. It could be expressed in single words, not complete sentences –
--Author Barbara Hall

Congratulations!

Unlike any others, your graduating class has been a unique part of Eastman Institute’s history. You experienced and actively participated in many important changes and firsts during your short time here.

You tolerated the countless disruptions due to construction, and you engaged in the re-engineering process by learning new technologies and the importance of customer service and patient relations.

We thank you for your patience and commitment during this exciting time as we all enter a new chapter in our professional lives. Like those before you, I’m confident your education will serve you well. Whatever paths you choose in life, we’re counting on you to carry the Eastman torch into your community, treatment room, classroom and lab.

Please stay in touch. We’d love to know what you’re doing and how we can help.

Wishing you much joy and peace~

Sincerely,

Cyril Meyerowitz, DDS, MS
Director, Eastman Institute for Oral Health
A Word From the Medical Director

Another academic year is drawing to a close and many of you will be moving on to other academic and professional pursuits. As most of you are aware, I will be leaving Rochester as well. While some of you have been here for an extended period of time, I have spent more than two decades having the privilege of learning and working at our institution.

Even though I have been a full time faculty member for more than 20 years, I feel like I’m in a very similar position as you are. Academic dentistry, whether your role is primarily as a teacher or trainee, is about growth. I know that all of you have used your experiences here to grow as dental professionals and also as people. You have likely made good friends with your colleagues, faculty and staff. I have done the same. I understand the bittersweet feelings you have; the sadness about leaving, the excitement of facing new challenges and the opportunity to apply all that you have learned here.

Upon graduation, you will join the many successful and valued alumni that have preceded you. The Eastman Institute for Oral Health is a special place that is unique among dental training institutions in the world. You will realize this more after you’ve experienced other environments and situations. The time you spent here will always be a part of you, and you will always be a part of the Eastman family. I invite you to visit your Eastman family in the future at one of the multiple opportunities we offer for educational and social activities with old and new friends. I hope to see you there!

Please accept my congratulations on the completion of this portion of your life’s journey. Drop us a line from time to time and let us know how our extended family members are doing.

Sincerely,

Todd Thierer, DDS, MPH
Eastman Dental Center, Medical Director (Article 28)
Chief Quality Officer of the Eastman Institute for Oral Health
Director, General Practice Residency Program, University of Rochester
Farewell
Life in Rochester

The Rochester area is known for its high quality of life and it’s relatively low cost of living. Metropolitan Rochester has a population of just less than one million. Its economy is primarily based on high technology industries such as Eastman Kodak Company, Xerox Corporation, and Bausch & Lomb. Hence, the urban physical environment is relatively clean. There is substantial community involvement in the quality of cultural life and public institutions such as schools and community organizations because the workforce contains a high proportion of skilled professional, scientific, and technical personnel.

Cultural opportunities include the University’s Memorial Art Gallery, which has a fine permanent collection in addition to important traveling exhibits; the George Eastman House, the International Museum of Photography and Film, which has the best film library in the world; Geva Theater, which presents professional plays in it’s landmark building; the Rochester Museum and Science Center with the Strasenburgh Planetarium, which boasts the most projectors and largest production staff of any planetarium in the world; and the Strong Museum, which offers a variety of exciting events and exhibits for children and adults. These are just a few of the many exciting cultural and entertainment activities available in the greater Rochester region. Rochester offers a wide array of restaurants offering vegetarian, Japanese, Mexican, Vietnamese, Chinese, Indian, French, Greek, or Italian fare. A number of nightclubs throughout the area feature live music ranging from jazz and rock to folk and big band. Rochester is situated on Lake Ontario and is part of the beautiful Finger Lakes region of New York. There are many opportunities for boating, sailing, and a variety of water sports. The snow belt is less than 30 miles to the south through the Bristol Hills, so there are many fine areas for downhill and cross-country skiing.
Rochester is a four-hour drive from camping and hiking areas in the Adirondack or Catskill mountains. Other accessible major metropolitan areas include Buffalo and Niagara Falls (one hour by car); Toronto (three hours by car); New York City or Philadelphia (six hours by car); and Boston or Washington, D.C. (seven hours by car).

Rochester is especially fortunate in the quantity and quality of music available from the Rochester Philharmonic Orchestra and the University of Rochester’s Eastman School of Music. Many music school recitals are free and open to the public.
History of the Eastman Dental Center/EIOH

By Ruth Dumont

Dentistry for the under-served populations of Rochester was a goal of local dentists as early as 1892 when one of the first free dental dispensaries was established to benefit the worthy poor of the city. Civil War veteran Captain Henry Lomb supported this work; however his newly begun optical company, Bausch and Lomb, was not in a position to give the help that the institution needed. In 1909, he approached the wealthy founder of Eastman Kodak, George Eastman, to solicit Eastman’s support for the foundering dental society. Encouraged by William Bausch, Eastman investigated what was being done in other U.S. cities such as Boston, where the Forsyth Dental Infirmary was then a center for children’s dental care and preventive dentistry.

Eastman was so impressed with the work of Forsyth that he decided to donate the funds to build a dental dispensary in Rochester. Unwilling to take on this enterprise alone, he worked with Bausch to find trustees who would, along with the city, provide significant yearly financial support to the dispensary.

The new dispensary would need proper staffing and so, in 1916, the first licensed school for dental hygienists in New York State opened with local dentist Harvey Burkhart named as the director of the school and the dispensary. The Dental Hygiene School provided well-trained hygienists to the dispensary and the community, while also opening a new career field for women. Hygienists made the rounds to Rochester schools twice a year with portable dental equipment, leaflets on tooth care in English, Italian, Yiddish, and Polish for parents, and lantern slide presentations on oral hygiene for the children. On 15 October 1917, Rochester Dental Dispensary opened charging 5¢ per visit to children through age 16 unable to afford private care.

The summer of 1919 saw the start of the Dispensary Tonsil-Adenoid Clinic when 1470 children had tonsillectomies that summer without a single casualty. It was then believed that poor oral health could cause a variety of health problems including retarded mental and physical growth, tuberculosis, and insanity. The Tonsil-Adenoid Clinic continued until the beginning of World War II. Eastman’s enthusiasm at the Dispensary’s success encouraged him to donate buildings for clinics in London, Stockholm, Paris, Rome, and Brussels. Eastman saw his donation to the Dispensary as one of his wisest philanthropic expenditures, donating about $3 million by the time he died in 1932. In 1941 its name became Eastman Dental Dispensary in honor of its founder.
History of the Eastman Dental Center

Dr. Basil G. Bibby became director when Dr. Burkhart died in 1946. Bibby’s interests in fluoridation, cariogenicity of foods, and oral bacteria redirected the Dispensary’s focus. This was reflected in the early 1950’s by the addition of adult specialties of prosthodontics and periodontics to the existing general dentistry, orthodontic, and pediatric dentistry degree programs. Research scientists such as Dr. Michael Buonocore, who, in 1967, developed the process of dental sealants, became part of the Center. Dentists from around the world came for postgraduate study at Eastman. In 1964, the Eastman Dental Dispensary was renamed Eastman Dental Center to emphasize the dental center’s orientation toward research. Dr. William McHugh became the Dental Center’s third director in 1970 and in addition was later named Associate Dean for Dental Affairs at the University of Rochester.

The Center moved to it's present site at 625 Elmwood Avenue in 1978 next to the University of Rochester’s Strong Memorial Hospital. In 1997, while Dr. Ronald Billings was the fourth director, Eastman Dental Center merged with the University of Rochester Medical Center - something that George Eastman had envisioned back in 1920. As part of that merger, the Eastman Department of Dentistry was formed to combine the oral health facilities of both the hospital and the dental center. Dr. Cyril Meyerowitz became the fifth director of the Dental Center and the chair of the Department of Dentistry in 1999. In 2009, Eastman Institute for Oral Health is established, replacing the Eastman Dental Center as a division within the URMC, functioning as the integrated entity responsible for research, education and clinical care in oral health. EIOH has served the Rochester community into the 21st century by providing dental care for children and adults, conducting dental research, and offering postdoctoral clinical specialties to a multi-cultural group of dentists.

Teaching ...
... & Caring

Research ...
... & a New Focus
Advanced Education in General Dentistry

Until 1968, the one-year intern program at the Eastman Dental Center was essentially a pediatric training program. To meet the accreditation requirements of the pediatric dentistry specialty, a two-year program was established. The one-year program became the General Dentistry program, and treatment and training in adult care was emphasized. There wasn’t universal support among the faculty for general dentistry education. Dr. Basil Bibby believed strongly in general dentistry education and appointed Stanley L. Handelman to head the program in 1970. The Eastman Dental Center was a fertile ground for post-doctoral general dentistry training by providing the intellectual stimulation for academic learning and research. The timing was right on a national level with an infusion of significant funds provided by the Federal Government for the development of advanced general dentistry education. Furthermore, there was an increasing demand for adult dental service in New York State with funds provided by Medicaid. To the present day, Medicaid is a major source of clinical income at the Eastman Dental Center.

There was no mechanism for accreditation of the General Dentistry program at Eastman because of the lack of hospital experience. To meet this requirement, the Eastman Dental Center and the Genesee Hospital jointly applied to the Council of Accreditation of the American Dental Association and were awarded provisional accreditation. At the site visit, accreditation was denied because all the Eastman residents did not participate in the hospital component of the program. The Eastman Dental Center and the University of Rochester petitioned the American Association of Dental Schools (AADS) to sponsor a resolution at the American Dental Association meeting for the accreditation of an alternate accreditation mechanism for General Dentistry. This finally was approved and in 1981 the Eastman Dental Center was the first academic institution to be accredited as an Advanced Education in General Dentistry (AEGD) program, and has served as a model for AEGD programs affiliated with dental schools worldwide.

William B. McHugh understood the increasing interest in postdoctoral general dentistry education by graduating dentists. The American Association of Dental Schools and the Federal Government supported the expansion of the numbers and types of programs. The Eastman Dental Center was awarded three educational grants to expand its AEGD program by the Health Resources and Service Administration of the Federal Government.

The General Practice Residency programs at Strong Memorial Hospital and the Genesee Hospital and the program at Eastman, formed an umbrella group that was called the Associated General Training Programs of Rochester (AGTPR), and developed cooperative programs in recruitment, didactic course work, clinical activities and securing educational grants and contracts. These institutions were awarded numerous federal educational grants to expand their respective GPR and AEGD program by the Health Resources and Service Administration.
At the same time, as the accreditation process moved forward, the AGTP of Rochester was awarded a contract to write a manual and conduct national workshops on developing post-doctoral general dentistry programs. Stanley Handelman was the project director. Both events served to establish Rochester as a leader in general dentistry education. Other educational grants and contracts by the federal government followed. There were publications on evaluation of post-doctoral general dentistry education, curriculum development, utilization of an educational consultant, evaluation of the selection process, the uniqueness of the AGTPR application process, and career development subsequent to completion of post-doctoral general dentistry education. The reputation of the Eastman Dental Center general dentistry program was further enhanced by the establishment of the Section of Post-Doctoral General Dentistry of the AADS in 1987. Faculty from Eastman and the University of Rochester not only played a major role in its founding but have continued to play a leadership role as Chairs of the section and have included: Stanley Handelman, Cyril Meyerowitz, Hans Malmström, and Todd Theirer.

One of the uniquenesses of the AEGD program at Eastman is the number of highly qualified foreign residents. This follows the tradition established by Basil Bibby, who himself was a transplanted New Zealander and is currently exemplified by Dr. Cyril Meyerowitz, originally from South Africa, who is the current Director of Eastman Institute for Oral Health (EIOH). During Basil Bibby’s tenure there was a constant flow of foreign scientists on sabbatical, and post-doctoral students, which created a unique international and intellectual flavor. Post-doctoral students enrolled in the program include individuals from every continent around the world and have, in addition to cultural and social exchange during the program, forged lifelong transcontinental friendships. Since 1991, foreign graduates with a green card who complete the two-year AEGD program have the opportunity to get a New York state license by completing one additional year of a residency program, as the curriculum equals or exceeds the advanced standing programs in predoctoral dental schools in New York State.
The 2010-2011 AEGD Program

Another year has passed and it is a time when you reflect on the future direction of the AEGD program. The program continue to develop and change as we implement many of the new concept in dentistry. We do want prepare our AEGD graduates for the future. The changes are many and rapid, with especially technology playing a very important role in the future practice of dentistry. Technologies such as cone beam cat scans and CADCAM are increasing in popularity. In the AEGD program we have just introduced digital x-rays (sensors and phosphor plates) and are soon converting to electronic health care record. It is important that we expose our residents to these technologies but also critical that we review their applications for benefits versus risks.

The opening of the Urgent Care Clinic in the concourse has transferred all our emergency patients out of the general dentistry clinic and we are converting our clinic to a comprehensive care clinic. The renovation of the atrium and the addition of two operatories in the general dentistry clinic are major improvements which allow us to provide better patient service and care. Increasing the number of treatment plan coordinators, allows for more personalized service to all of our patients. With the assistance of the Jameson consultant group we continue with our practice management training for all faculty and staff.

One thing that does not change is the excitement and pride the I, the faculty and staff feel over the graduating class of residents every year. The AEGD program continues to have a highly qualified and unique group of residents entering and graduating from the program. Our graduates this year are an exceptional group of individuals who we (all faculty and staff) will remember with great fondness.

The program has changed over the years and but continues to be a demanding program. The didactic component has a prominent role in preparing the residents with proper scientific background in the rapidly changing world of oral health. Clearly dental implants, both surgical placement and fabrication of prosthesis/crowns and esthetic dentistry does have a more prominent role in our program both didactically and clinically.

Since we have included continuing dental education courses as required course work, they have become one of the most appreciated and rewarding aspects of the AEGD program. Our guest speaker for the 2011 Handelman Conference was Dr. John Kois. We did have some weather related problems, which forced Dr. Kois to only lecture for half a day. Fortunately Dr. Carlo Ercoli graciously agreed to lecture for the other half day. This was a phenomenal educational opportunity for all our returning alumni, residents and area participants. We had around 300 people in attendance. Dr. Stan Handelman and Dr. Cyril Meyerowitz recognized and honored all our alumni attending the conference with a gift of appreciation.

The Esthetic Participation Course was extended to eight days with a fabulous group of speakers. The speakers included: Drs. Nasser Barghi, John Burgess, George Tysowsky, Georgios Romanos and Marcos Vargas (a 1992 AEGD alum). The Esthetic Course has evolved to become an esthetic, restorative and implant course. We also had the very popular Endodontic Participation Course with Drs. Nesbitt, Fayad and Hoya in the fall of 2011.
The participants did learn about the new techniques in endodontics, including the use of microscope and CBCT scan for diagnosis.

Dr. Michael Yunker, the assistant program director plays a major role in the residents education and I am very thankful for his continued support of the program, the residents and the institution. His involvement optimizes the resident’s educational experience. We are so lucky to have him with us.

I cannot say enough about our very dedicated, scientifically and clinically skilled faculty; and our loyal and hardworking staff. Without them this program would not be a success.

One of our main program objectives is to educate the future oral health educators, researchers, and leaders. To properly prepare the residents for an academic career we encourage our residents and students to pursue graduate programs. We have been successful in enrolling residents in both the MS and MPH programs. A new clinical/translational Master of Science has been developed and introduced this fall. This program will increase the choices for residents interested in combining the AEGD program with a Master’s Degree. We now have three residents enrolled in this new Master of Science program. We continue to recruit for and promote these graduate programs to the residents applying to the AEGD program.

All of our residents enrolled in the two-year program are required to complete a research project. Dr. Yan-Fang Ren, the Associate Chair of the Division of General Dentistry and also the director of the new “Urgent Care Clinic, with assistance from other faculty, is very successful in directing and mentoring clinical and basic scientific research projects within the Division of General Dentistry. One of the most exciting areas Dr. Ren is developing now is in regard to prevention and treatment of erosion and hypersensitivity of teeth. We are presently completing clinical research projects sponsored by several companies including evaluating a new whitening gel, toothpastes, new dental adhesives, and crown cements. In addition, we have three implant studies, including short implant, implants placed in grafted sockets and the clinical success of general dentists placing and restoring dental implants.

Over the past seven decades, our graduates have gone on to earn achievements in dental practice, scientific discovery and teaching. We look forward to a lifelong relationship with all of them.

I congratulate all the graduates on your accomplishments and wish you success in all your future endeavors.

Sincerely,

Dr. Hans Malmström
Professor and Chair Division of General Dentistry
Program Director,
Advanced Education in General Dentistry
Eastman Institute for Oral Health, University of Rochester
Research Training Program in the AEGD Program

By Dr. Yansang Ren

Emphasis on research has been a tradition of our AEGD program. Dr. Stanley Handelman, the founding director, and Dr. Hans Malmström, the present director of the program are both strong advocates of resident research training. Residents are always encouraged to participate in degree and non-degree training programs offered through the University of Rochester. We are continuing to make efforts to facilitate resident research activities within and outside the AEGD program. We enrolled our first group of residents in the newly established Master of Science program in Clinical and Translational Dental Science track. These residents will receive systematic training in research methodology in combination with their clinical training experiences at EIOH. Many of our past graduates who received advanced training in research by pursuing a masters degree had gone on to become very successful in their academic career as teachers and researchers. We are confident that this tradition will continue with more and more brilliant young dentists joining our program to fulfill their dreams of becoming leaders in academic dentistry.

Research projects in the AEGD program focus on patient-oriented clinical and translational research that can provide scientific evidence for the practice of dentistry. Many of our residents are actively participating in a wide range of research activities in collaboration with various industrial and academic institutions. We always welcome our alumni to take part in our research activities. You may provide ideas for future research projects, or may act as co-investigator in projects of your interests.

We continue to conduct clinical trials to evaluate new dental materials and oral health products including resin composites adhesives, dental implants, bone grafting materials, tooth whitening products, mouthwash, toothpaste and toothbrushes. We work closely with researchers in basic research laboratories as well as in oral health industries to explore novel diagnostic and therapeutic methodologies for the improvement of clinical outcomes. We continue to collaborate with physicians, psychologists and social workers to investigate the association between oral health and general health in patients who do not utilize preventive dental care services. We hope that the outcomes of our research will not only improve the oral health status but also reduce the overall health risks of our patients.

Our AEGD program has been a strong advocate for international collaborations in dental education and research. Following the signing of a formal collaborative agreement with Peking University School of Stomatology in Beijing, China, we have developed concrete exchange programs in clinical and research trainings between the two institutions. A Ph.D student and a faculty member from Beijing are currently working on clinical and translational research projects at the AEGD research lab. We hope that our exchange programs in dental research will serve as a model for other EIOH divisions and contribute to the research mission of our institution.
Research Group
Eastman Dental Celebrates Completion of $5.9 Million Renovations

A two-year, $5.9 million renovation and re-engineering project allows a major increase in access to care in both downtown Rochester and at its main clinic site on the University of Rochester Medical Center campus.

Since the late 1990’s, patient demand each year increasingly exceeded capacity at both locations. The number of patients who came in for dental emergencies increased 100 percent over five years, placing significant strain on Eastman’s facilities and its ability to provide comprehensive care to all patients. In late 2008, Eastman Dental was awarded a $3.9 million New York State HEAL (Health Care Efficiency and Affordability Law) grant to enhance emergency services for the underserved, while creating a gateway to regular oral health and medical care, and to increase access and capacity for the underserved.

With those funds, Eastman Dental built at its main site on Elmwood Ave. a first-of-its-kind urgent care dental clinic, added six new treatment rooms in its General Dentistry and Orthodontic clinics, expanded and reconfigured its check-in and check-out process to provide better quality care, and more efficient service for all patients. Eastman Dental Downtown added four new treatment rooms, allowing twice as many patient visits as before in this high poverty area of Rochester, as well as a much needed makeover to the waiting room and clinic areas. In both locations, aging equipment was replaced, new technology was incorporated to increase scheduling and treatment efficiency, and ongoing training for staff and streamlining operations was put in place.

Cyril Meyerowitz, D.D.S., M.S., director, Eastman Institute for Oral Health, announced that U of R and Eastman Dental alumnus and Midland Management President Jack W. Howitt, AB, DDS, made one of the largest individual gifts in Eastman Dental’s history, and dedicated the newly named Howitt Urgent Dental Care clinic during the ceremony.

“I’ve always had a firm connection to dentistry and watching Eastman Dental morph into the Eastman Institute for Oral Health has been exciting,” Howitt said. “For me, the new urgent care portion of Eastman Institute was a logical place to direct my commitment. This gift marks my 55th reunion year from the U of R, and honors my two late uncles, Dr. Nathan G. Howitt and Dr. S. Michael Howitt, who were both in the dental profession.”

“We are extremely grateful for Jack Howitt’s generosity and commitment to our patients,” Meyerowitz said. “The new urgent care clinic and the renovations and updates are allowing us to provide substantially better quality, patient-centered care more cost effectively.”
Eastman Institute for Oral Health

General Dentistry 2011
Continuing Dental Education

**Continuing Education Courses includes:**

- didactic, laboratory, and clinical mentoring from leading clinicians

We had another successful year with the Continuing Dental Education Program that is organized in the Division of General Dentistry in the Eastman Institute for Oral Health. This year we had 425 participants from all around the world. Continuing Dental Education is an integral part of the education of the dental residents in the Advanced Education in General Dentistry Program. The residents continue to have an opportunity to learn from highly regarded national and international clinicians and lecturers.

The Esthetic Dentistry Participation Course consisted this year of four sessions, eight days for a total of 72 continuing dental education credit hours. Some of our excellent guest speakers included: Drs. Nasser Barghi, George Tysowsky, John Burgess, Marcos Vargas and Georgios Romanos. Residents have the opportunity to interact with the speakers in small groups and learn new, hands-on techniques. This is such a valuable experience in dental education, very appreciated by our residents as well as outside attendees. The Esthetic Hands-On Course has changed over the years and is now titled Esthetic, Restorative and Dental Implant Hands-On Course. This past year, Dr. Georgios Romanos spoke about how to optimize soft and hard tissue grafting procedure for best esthetic and functional outcome. The participants had an opportunity to practice these procedures in a laboratory setting to enhance their skills. Dr. Vargas (AEGD 1992) and Dr. Burgess lectured and offered a hands-on seminar in regard to maximizing esthetics with composites. Dr. Barghi has returned for 11 years sharing his knowledge in regard to porcelain veneers both by offering lectures and hands-on classes. We are all very grateful for his willingness to return to Rochester. The hands-on component in these courses is an important aspect for our residents in grasping the techniques.

The Endodontic Hands-On Course with Drs Bill Nesbitt, Mohamed Fayad and Hoya offered in the fall of 2011 was a great course for everyone participating. This 6 day course covers all aspect of etiology, diagnosis and treatment of endodontic therapy. Drs Nesbitt and Hoya cover most of the topics in regard to etiology, diagnosis, and therapy during their 4 days of lecturing while Dr Mohamed Fayad (AEGD 1996) reviewed more advanced endodontic techniques performed with the use of microscopes, endodontic surgeries and CBCT scans.

The seventeenth Annual Handelman Conference was a successful event with Dr John Kois as the guest speaker, but also Dr. Carlo Ercoli lecturing for half a day. Dr. Kois, due to weather, was unable to arrive to Rochester before noon at the day of the conference. When Dr. Ercoli was asked to lecture, he graciously agreed, and did an excellent presentation in regard to dental implants. Dr. Kois lectured on diagnosis and treatment planning delivering his message in a penetrating, articulate and organized manner. He is one of the most knowledgeable dentists in the world. We had 300 participants at the seminar and appreciate all the alumni who attended. We honored all the alumni in attendance with a small gift and they were also recognized by Drs Stanley Handelman and Cyril Meyerowitz. Next year the featured speaker is Dr. Dean Morton. This seminar will be held April 27 2012.
2011 Faculty Award

Eastman Institute for Oral Health
2011 Part-time Faculty Award of Excellence
presented to

Dr. Aldis Zuika

As you are all aware our part-time faculty members provide an extremely important component of the AEGD educational program. Without them volunteering their time every week, year after year, we would not be able to have the training program that we have today.

The Eastman Institute for Oral Health Faculty Award of Excellence in Teaching is to acknowledge the important contributions of part-time faculty in the dental education program. Although a single individual is honored each year, we are in essence honoring all of our part-time faculty. So first of all, we thank all of the faculty members for their contributions and you should know that you are sincerely appreciated by faculty, residents and staff.

The criteria for the award are:
1. Have an overall impact on student learning;
2. Exhibit a high quality of clinical supervision or research mentorship;
3. Show leadership in organizing or conducting courses and/or seminars; and
4. Be dedicated to the concept of postgraduate dental education.

The 2011 Eastman Institute for Oral Health Faculty Award of Excellence in Teaching recipient is Dr. Aldis Zuika.

Dr. Aldis Zuika was born in Lubeck, West Germany and immigrated to Kalamazoo, Michigan, where he grew up. Dr. Zuika is a graduate of the University of Detroit School of Dentistry in 1980 and he completed a General Practice Residency at the University of Rochester in 1981. Dr. Zuika has been teaching in General Dentistry on a part-time basis for eleven years. Prior to that he was teaching in the GPR Program in the Department of Dentistry at Strong Memorial Hospital.

Dr. Zuika is one of our faculty members on Friday afternoons, commonly the last one to leave the building before the weekend. He has a talent for teaching and everyone admires his skills as a dentist. The residents made the positive comments regarding their interaction with Dr. Zuika. “Always willing to help,” “Very knowledgeable in all areas of dentistry”; “Very friendly and approachable”. The AEGD program is fortunate to have a faculty member such as Dr. Zuika who is eager to assist the residents in their educational endeavors in a constructive and positive manner.

Dr. Zuika has high demands in regard to quality both for himself and the residents. He is a good communicator who is highly respected and appreciated by faculty, staff and dental residents. In addition to teaching, he
practices general dentistry in a private practice in Penfield, which allows him to function as an excellent role model for all the residents and students in training. His constant striving for excellence in patient care and education is congruent with University of Rochester Eastman Institute for Oral Health’s vision.

In summary, Dr. Zuika exemplifies the qualifications we like to see in a faculty member at our institution. Congratulations!
Faculty

* **Country** -- USA
* **Family Members** -- Wife Barbara, 3 married children and 9 grandchildren
* **Dental School** -- Tufts University
* **Professional Experience** -- Private Practice; periodontal faculty 45 years; VA consultant
* **Best EDC Experience** -- Helping to train future researchers, faculty and clinicians in periodontics;
* **Hobbies** -- sailing, tennis, photography and traveling

E. D. Appelbaum
D.M.D.

* **Country** -- USA
* **Family Members** -- 3 kids
* **Dental School** -- Tufts

* **Honors** -- Not yet :)  
* **Hobbies** -- Dancing, zumba, fitness, rock climbing, bike riding, cats hiking, music, theatre, movies, drums, playing piano and hammer dulcimer
Staff

* Country -- Rochester, NY
* Family Members -- Husband Miguel Rivera, son Roberto Sierra, step-sons Michael & Jonothan, and grand-daughter Belicia Mania Sierra
* Dental School -- Urban League progrm
* Professional Experience -- Spanish interpreter, dental Asst. in lab
* Best EDC Experience -- Training in the lab for the past four years
* Worst EDC Experience -- Translating for a non English speaking patient in emergency, during one extraction, she was squeezing my hand throughout the whole procedure, my hand was cramping!
* Hobbies -- Writing poems, reading, shopping, Chinese/Asian collectibles, antique shopping
* Favorite food -- Spanish white rice and chicken fricase/curry chicken
* Favorite color -- Lilac/purple, I love the smell of lilac flowers
* Favorite animal -- Rabbit, cute and small and cuddly
* Place want to travel most -- Spain, China, Italy
* Place want to live -- Puerto Rico
* Favorite season -- Spring & summer
* Best part of Rochester -- Downtown/upper falls, fireworks in the summer
* Worst part of Rochester -- Stinky, polluted beaches in Charlotte & Durand Park
* Other Stuff -- Working with the residents is always a pleasure. I always learn something different, culture-wise and dental as well!
* Email address -- Purple_Flowers42@hotmail.com

* Country -- Kingston, Jamaica
* Family Members -- Two daughters, mother, 4 sisters and 3 brothers
* Favorite Procedure -- Denture repair
* Best Experience -- My first winter in Rochester
* Worst Experience -- First time on a plane
* Hobbies -- Cross net, shopping, listening to music
* E-mail address -- vedamay@hotmail.com

* Country -- Belarus
* Family Members-- husband Steve and my two kids Nathan and Naomi
* Dental School -- MCC Hygene Program
* Professional Experience -- Dental assistant, dental hygienist, orthodontic assistant / hygienist
* Best EDC Experience -- Working with great people
* Worst EDC Experience -- Space issues
* Hobbies -- Dancing
* Favorite color -- Green because it is relaxing
* Favorite animal -- Cats
* Place want to travel most -- Europe
* Favorite season -- Fall
* Best part of Rochester -- Park Ave area; for kids- Strong National Museum of Play
* Worst part of Rochester -- Long winter
* Email address -- RitaLyu@hotmail.com
* Country -- Bosnia
* Family Members -- Husband, daughter, and son
* Dental School -- BOCES
* Professional Experience -- EDC, private office
* Favorite Procedure -- Extractions
* Hobbies -- Spend time with my family
* Favorite food -- Any food is good
* Favorite color -- Pink, because I like it
* Favorite animal -- I do not have one
* Place want to travel most -- Anywhere
* Favorite season -- Summer
* Email address -- jasmina_salkic@hotmail.com

Jasmina Salkic

* Country -- US
* Family Members -- Husband Rick, 2 daughters Amy and Ashley
* Dental school -- We-Mo-Co
* Professional Experience -- Dental assistant 12 years; Dental technician 12 years
* Favorite Procedure -- X-ray, endo
* Best EDC Experience -- Working with dentists from around the world
* Worst EDC Experience -- Residents leaving
* Honors -- D.A.N.B. certification, N.Y.S. License for D.A.
* Hobbies -- Gardening, reading, cross-country skiing, taking photos
* Favorite food -- Delmonico steak
* Favorite color -- Green
* Place want to live -- Right where I am
* Favorite season -- All seasons
* Best part of Rochester -- Snowmobile trail system
* Worst part of Rochester -- Summer months, too hot
* Other stuff -- Collect “I Love Lucy” dolls; like classic cars 60s and 70s; snowmobiling
* Email address -- loriasingley@yahoo.com

Lori A. Singley

* Country -- USA
* Family Members -- Daughter Marisa, daughter Amanda, son Manny, daughter Sarah
* Dental school -- On the job trained
* Professional Experience -- CTR Cosmetic Dentistry, Dr. Fleissig, Dr. Richard Levin
* Favorite Procedure -- Restorative, extraction
* Best EDC Experience -- Meeting different people + seeing different cultures
* Worst EDC Experience -- None
* Favorite food -- Ice cream
* Favorite color & why -- Green
* Favorite animal & why -- None
* Favorite season -- Fall

A Word from Residents

By Dr. Linda Rasubala, DDS, Ph.D

“If my mind can conceive it, and my heart can believe it, I know I can achieve it”

(Jesse Jackson)

On behalf of the graduating residents from the Advanced Education in General Dentistry (AEGD) program I would like to extend my gratitude to our faculty, assistants/staff and colleagues for an amazing, worthwhile and unforgettable experience during these past years.

It has been a privilege to have this wonderful opportunity of continued learning that encompasses didactic, clinical training, and advanced research in one package. This experience profoundly enriched my clinical skill, critical thinking and analytical approach as a clinician, and as a researcher, and helped me grow as a better dentist and a more mature individual.

Today, I look back and wonder how I survived at Eastman. It seems very recent that I received a phone call from Ms. Foy confirming that I had been accepted to the 3-year combined program (1-year for the Research Fellowship followed by the 2-year AEGD program) at Eastman Institute for Oral Health (EIOH), University of Rochester, NY. It feels like yesterday, when I arrived with my family at the airport from Miami, FL to begin our new adventure. Since then, the time has been flying.

AEGD at EIOH is an intense, vibrant yet a very unique program. The excellence of this program is well recognized. Being a resident in this program, one should always be alert and conscious, adapt fast, be highly enthusiastic with limitless energy, and most importantly, be willing to learn and share with others. For us, everyday has been a new challenge. From the didactic courses in the morning, literature reviews or case presentations during lunchtime, implant courses or seminars after the clinic hours to 9100 duties, all required responsibility. The evening (especially on Thursday which is famous as Dr. Freeman’s Pizza night) and Saturday clinics, courses/conferences during the weekend and rotations (Perio, Hygiene, Community Dentistry, Monroe Community Hospital, Oral and Maxillofacial Surgery/Ortho/Peds/Pros/Developmental Disabled Clinic (elective) and Urgent Care), add more flavors and character to this program.

On the other hand, I have learnt how daily life experiences have enriched me as a person. I learnt tremendously to manage various challenges, or doing my best in such a confined time, or how to deal with some challenging patients, and how to keep myself active in advanced research.

At Eastman, on a typical day, we found ourselves running around in the clinic, looking for clean chairs and available assistants. We often had panic attacks when the chart was missing and the patient was sitting for the treatment plan. Sometimes, I was left thinking how interesting is the patient population that we served? Many of them were medically compromised or living in a very cacophony situation, however, surprisingly; we often saw them to be very punctual in keeping their dental appointments, even in the middle of a heavy snowy day. This encouraged me to give my very best service and quality of treatment each time.

In this program, I have been very lucky to have the opportunity to work with brilliant faculty, who very knowledgeable in his/her area of expertise and are genuinely concerned for the residents clinical education. I really appreciate all the guidance and motivation that I received from them. I hope that one day, it will be my
turn to pass on my knowledge and skills (clinical and research) to other in the academic setting.

My fellow residents came from many different background, cultures and beliefs. I have shared and enjoyed incredible times as a colleague, friend and extended family. I’ll never forget my first day when I stepped into the famous ”Rubin room”. In a second, I thought I was in a different continent. In Rubin room, you will find more than 20 nationalities, finishing their treatment plan for the day, and you might hear more than 7 languages spoken at the same time. Here, you will find that English is not just plain English but comes with its flavors and sprinkles on it. An amazing thing is: the differences between us never took us apart, but blooming a truly friendship who you share joy, tears, celebration (birthday/wedding/events), even false fire alarm or stormy/snowy day, and the top of it, taught you how to live with respect with others.

Graduating from the program is a very special and exciting moment for us and for our families. Now that I am close to the end of my program, I just realized that I got more than I expected. It has been a very fruitful time!

My special thanks:

To Dr. Malmstrom for being such as an excellent and great educator.

To Dr. Ren for being such as great mentor and wonderful person for my family.

To Dr. Yunker, Dr. Giese and Dr. Singh and Dr. DeRosa for being such fabulous and splendid mentors during my clinical training.

To the faculty, assistants and staffs for the wonderful guidance, strong support and assistance to each of us.

To my husband Eduardo and my daughter Arwen for their love and unconditional support to succeed in this program.

To all my fellow residents, it has been an honor to work with you during these years. I wish you the very best for your bright future and please keep in touch. Ending this, I would like to share a quote with you: “Although time seems to fly, it never travels faster than one day at a time. Each day is a new opportunity to live your life to the fullest’’(Steve Maraboli quotes).
Resident Award

Basil G. Bibby Award

Both Basil G. Bibby Awards of 2011 were presented to AEGD program residents: Dr. Xiuxin Liu received the Basil G. Bibby Fellowship Award, and Dr. Thomas Thong Nguyen received the Basil G. Bibby Award in recognition of Outstanding Scientific Merit among presentations.

Dr. Liu is a 1986 graduate of Shandong University School of Dentistry, China. He also holds a Medical Master degree in Cardiovascular Physiology at Shandong University School of Medicine, China. In 2002, Dr. Liu got his PhD in Pharmacology from Heidelberg University School of Medicine, Germany. Dr. Liu received the award for his pursuit of research “ATP signaling and Dentin Sensitivity/Dental Pain”. Identifying the cellular and molecular mechanism for dentin sensitivity/dental pain will provide targets for development of effective drugs and therapy for dentin sensitivity and dental pain.

Dr. Nguyen graduated in 2010 from the University of Montreal with a Doctorate in Dental Medicine. Soon after his graduation, he started a residency in the Advanced Education in General Dentistry program of EIOH, Rochester, NY. He is currently pursuing a Master of Science degree at McGill University in regeneration and tissue engineering of salivary glands. Dr. Nguyen received this award of outstanding scientific merit for his research presentation on the “Detection of Stem/Progenitor Cells in Human Salivary Gland Tissues”.

The Basil G. Bibby Fellowship Fund for Excellence in Oral Health Research was created by Beatrice Bibby to honor her late husband’s academic and research accomplishments. Dr. Bibby’s efforts set the stage for thousands of students and faculty, national and international, to establish and maintain challenging and productive careers as dentists, researchers, and teachers.

The fund guidelines state that the recipient will be an individual judged to have an inquiring mind, originality of thought, a sense of purpose, and concern for oral health. Dr. Liu and Dr. Nguyen exemplify each of these traits in their work in the AEGD program and Eastman Institute for Oral Health.

All that the Eastman Institute of Oral Health is and will become in the future has been built on a solid foundation of sound oral health practices coupled with academic excellence and cutting-edge research. Basil Bibby has been, in large part, the architect of this unique enterprise. The traditions he established shall forever be a part of the academic, research, and teaching environment of this dental institution.

Congratulations to Dr. Xiuxin Liu and Dr. Thomas Thong Nguyen on the Basil Bibby Awards.
Handelman Award For Excellence

This year AEGD resident Dr. Abdulaziz Basha Hijazi received the prestigious Handelman Award. Dr. Basha completed the two-year Advanced Education in General Dentistry at Eastman Institute for Oral Health- Eastman Dental in June, 2011.

The Handelman Award is to recognize a graduating Advanced Education in General Dentistry resident, who with his/her performance during the program has gone beyond what is expected and demanded of him/her and demonstrated excellent clinical skills, leadership, initiative, ethics, communication skills, and an interest in enhancing residents educational experience at Eastman Institute for Oral Health.

Dr. Basha received his dental degree in 1990 from University of Zagreb, Croatia. He then completed three years of mandatory military service as a dentist in Damascus, Syria before entering into private practice in 2000. Dr. Basha completed a two year post graduate program in Implant Dentistry at New York University College of Dentistry in 2006 and a certificate program in Clinical Research from the same university. Dr. Basha then continued his education by a one year fellowship in Community Dentistry at EIOH prior to entering the AEGD program.

Dr. Basha did demonstrate excellent clinical skills while in the program. He also has the ability to function well as a team member, always willing to assist his fellow residents. When we had difficult patients to manage, we commonly transferred these patients to Dr. Basha, due to his skills in patient management. He also has the appropriate work ethic to always perform at the highest level didactically (in presentations) as well as clinically. In addition he took the role as Resident Ombudsman very seriously and assisted his fellow residents and administration to improve the program. He has indicated that he wants to have a teaching role when completing the GPR program at SMH and will hopefully be part of the Division of General Dentistry in the future.

In summary Dr. Basha is a very bright and well educated dentist, whose personality, intellectual capabilities and clinical skills will assure him success in the dental profession. He exemplifies the criteria for the Handelman Award for Excellence.
Resident Award

Hatton Competition Awards

Eastman Institute for Oral Health’s Jin Xiao, DDS, MS, PhD, who is both a Center for Oral Biology fellow and Advanced Education in General Dentistry resident, won first place in the Hatton Competition Awards, post doctoral category, at the recent American Association for Dental Research meeting in San Diego, Calif. This is the most prestigious and competitive award for any PhD student and/or post-doc fellow conducting dental/oral research in the U.S. or Canada.

AADR selects the top 27 from abstracts submitted throughout the entire United States and Canada. These finalists prepare a manuscript and an oral presentation to a panel of judges, who are leading experts in the oral biology and dental research fields.

Winners are selected based on scientific excellence, originality, quality of data, presentation and mastery of the subject.

“She competed against the best post-docs and nailed it! We are very proud of her,” said Hyun Michel Koo, DDS, MS, PhD, her mentor and associate professor. “Jin’s research showed a completely novel finding on how biofilms are formed on the tooth surface at a three-dimensional level dynamically and how the structural arrangement of the biofilms potentially contribute with the pathogenesis of dental caries by influencing the acidity and exopolysaccharides content of the biofilm environment.”

Xiao, a native of Chengdu, China, which is home of the giant panda, is inspired to find real solutions to the growing problem of dental caries. “It continues to be the most prevalent and costly oral infectious disease afflicting adults and children worldwide,” she said. “The cost to treat the disease and associated complications is more than $40 billion a year in the U.S. alone, which causes an ever increasing burden for those who unable to bear them.

“Our focus is to investigate the role of extracellular polysaccharide matrix on dental plaque 3D structure, microenvironment pH, and ecological shifts associated with the onset of the disease,” she explained. “Our result may provide new insights to better understand the biological factors associated with dental caries, and ultimately find improved ways to control dental plaque that is directly associated with this common and costly oral disease.”

At this point, Xiao is undecided about staying in the U.S. or pursuing opportunities with Sichuan University in China when she graduates in 2013. But this she knows for sure: “I want to be a great dentist and clinical scientist, work with patients and conduct dental translational studies.”

But wherever she lands, there is no doubt this award-winning researcher will make the world a better place.

AEGD Certificate Recipients

Barbara Gruchalska
D.D.S.
Poland

* Family Members -- Parents, brother-Greg
* Dental School -- Dental School of the Medical University of Warsaw, Poland
* Professional Experience -- First General Dentist Warsaw Poland then General Dentist Norwich, East Anglia, Great Britain
* Favorite Procedure -- Esthetic composite restorations of anterior teeth
* Best EDC Experience -- Seeing pts for prosthodontic treatment and also … living in foreign country-US, meeting new people, rafting, skiing, and going to the beach in Canandaigua generally—one big adventure
* Worst EDC Experience -- Night clinic on Tue even worse then Saturdays
* Honors -- Hopefully some in the future
* Hobbies -- Lots of them. Art from visiting museums to painting, drawing, live shows at theatre, cinema, going to the beach, skiing, sightseeing of American countryside, American architecture
  * Favorite food -- Italian and also Polish
* Favorite color -- As an artist- hobbyist, I love all of the colors
* Favorite animal -- Cat, soft
* Place want to travel most -- South America-Brazil? Africa-safari
* Place want to live -- Possibly Cambridge, UK then countryside in Poland
* Favorite season -- Summer but I like all of them
* Best part of Rochester -- Waterfalls and also Canandaigua lake in the summer, Bristol Mountain in the winter
  * Worst part of Rochester -- Downtown area
* Other stuff -- As well as my own dental office, I’d like to have my own art gallery
* Email address -- b_gruchalska@yahoo.co.uk, Barbara_Gruchalska@URMC.Rochester.edu

Maren E. S. Hall
D.D.S.
USA

* Family Members -- My lovely parents, five siblings, and my dog!
* Dental School -- University of Nebraska
* Favorite Procedure -- Someday I will decide….
* Best EDC Experience -- I have countless fantastic memories of times spent with the wonderful people I’ve met here. From ski trips to Bristol to much-too-long evening conversations; from the hilarity of language and cultural barriers to the constant encouragement of those around me to learn more, it has been a most interesting, enriching, and unpredictable of years!
* Worst EDC Experience -- Oh the forever frustrations of missing charts, running behind schedule, needing assistants, and not having a chair!
* Hobbies -- Running, dogs, skiing, and music!
  * Favorite food -- Apples
* Favorite color -- Blue, so serene and peaceful, and there is no such thing as an ugly shade of blue!
  * Favorite animal -- Dogs! They are so loyal and loving.
* Place want to travel most -- There are too many places I want to go to pick just one.
* Place want to live -- Is on a yacht an option? :) Anywhere near a lake.
* Favorite season -- Both summer and winter.
* Best part of Rochester -- All the lovely people, Bristol Mountain, and Lake Ontario.
* Worst part of Rochester -- The delayed arrival of spring!
* Other stuff -- My most sincere thanks to the directors, faculty, residents, and staff of EDC, as well as my family, for all of the ongoing support I have received. My life has been truly enriched by the year I spent here and for all of you, I am very grateful.
* Email address -- maren.hall@yahoo.com

Every year, a fierce and friendly soccer game is held between AEGD residents and Perio/prostho residents.
Clinic for the Developmentally Disabled at Monroe Community Hospital

At the DD Clinic we have over 1500 visits annually caring for the dental needs of about 400 patients. Our patients have developmental disabilities which may include mental retardation, learning disability, intellectual disabilities, epilepsy, cerebral palsy, autism, hearing and vision deficits, physical limitations requiring wheelchair use, psychological or psychotic disorders and syndromes such as Fragile X, Retts, Downs, Prader Willi, Tourettes and a few more.

Patty Uzaiko, Dental Assistant. Patients find her a friendly and approachable face when they see her, and soon tell her they like her very much. Patty is a very organized person and makes the life of the dentist working with her very easy.

Andrea Pedersen, Registered Dental Hygienist. Takes care of the oral hygiene health of our patients. With her abilities to sing, dance and involve the patient we have some very happy patients when they get their teeth scaled and polished. She is also a member of the New York State task force for Special Care Dentistry that is trying to improve dental care, dental health and access to care for people with developmental disabilities.

Dr. David Schrier, D.D.S., joined the EIOH faculty a few years ago after many years in private practice. He has been part of the MCH clinic since last year as supervising faculty. He enjoys working with the caring and skilled people who staff the facility and sharing his experience and knowledge to enhance the treatment of the patients.

Lynda Pasco, Clinic Co-ordinator makes the first contact with patients and their care-providers. Her pleasant smile and manner embody the face of our clinic and make a very happy and personal impression on our patients. She also makes sure we are working continuously and efficiently, spaces created by canceled appointments are soon filled, any problems encountered by us soon solved! She is a wonderful asset to this clinic.

Dr. Adela Guset & Dr. Amy Wang
In the spring of 1985, the Jewish Home of Rochester moved to Winton Road in Brighton from St. Paul Street. The Home has approximately 360 residents who are served by the dental clinic.

Dr. Michael Mayer is director of the clinic, which is also staffed by a dental assistant, dental hygienist and an office manager. The Eastman Institute for Oral Health AEGD residents do a rotation at the clinic.

Lori Shaw                     Dental Hygienist
Leeann Pickeling              Dental Assistant
Sylvia Itkin-Rapkin           Office Manager
Dr. Tatyana Baranovsky        EIOH resident

Mrs. Sylvia Itkin-Rapkin, the office manager. Mrs. Itkin-Rapkin graduated from Oswego SUNY with a BS degree in Elementary Education. She worked as podiatry clinic and eye clinic before she came to the EIOH geriatric clinic at Jewish home in January 1987.

Dr. Tatyana Baranovsky joined the clinic in 2011.
I thought it might be appropriate to begin with a reference to a former President of these United States and it was with interest that I read that an anonymous observer once said of Calvin Coolidge that he didn’t say much, but when he did, he didn’t say much! I’ll try to avoid that kind of review as I attempt to sum up two years in a short space of time. To maintain the sentiment rather than the emotion of such a nostalgic day, I thought I might share a letter with you to the late Mr. George Eastman!

Dear Mr. Eastman,

I know we’ve never met and I’m going home to Ireland, so it’s probably going to stay that way! But I’m leaving richer than I came - not necessarily anything to do with a General Dentistry stipend, but definitely richer as a dentist and as an individual. I came to the U.S. as a very privileged young man: a life of having, thanks to a wonderful set of parents and a full family life, and to them, I am indebted. My parents would have loved to have been here today, but hopefully the Eastman Kodak moments will help them to appreciate it!

This was perhaps the first time that I really branched out on my own and that branch has led me across the Atlantic and into your family tree. The blossoming, leafy Eastman tree that is like a microcosm of America: people from all over the world eagerly gathering the windfall from the tree. And so my privilege has continued - a wonderful two years of continued learning, helping me to mature as a dentist, two years of “The American Experience” and two years of very cold winters!! I have met such brilliant people and forged close friendships in my two years; and that was just with the emergency patients!!!

I have many people to thank, Mr. Eastman. People that I owe so much to, for many different reasons and I really shouldn’t single out individuals.

I have been lucky enough to work with your selfless faculty for two years: people who give so much time and energy in the noble pursuit of educating others. I hope that I might get the opportunity to impart some of that knowledge to others when I get back home - imitation would certainly be the highest form of flattery I could pay to my faculty at Eastman.

I have also been lucky enough to have so many brilliant fellow residents. I remember one of my prosthodontics faculty at Trinity College Dublin had recently returned from the program at the University of Iowa and he told me of the diversity of his fellow residents and that is very striking to someone raised in a country with no history of immigration. And so now, I too have been exposed to many different cultures and creeds and that too has been a real growing experience. I have learned of people escaping from their homelands through desert and of people being here under the toughest of circumstances, and that makes me even more appreciative of everything I have. So to all of the residents I have been honored to have shared my time with, I am very grateful.

My good fortune, however, Mr. Eastman, has not ended there. If ever I was to read this letter to all the assistants that I have been lucky enough to work with, I know that more than one would count their blessings that I was neither whistling, singing nor humming!! For I have done more than my fair share of music-making in two years and a refrain, chorus or unintelligible improvisation has rarely been too far away from any impression, filling or extraction!!! I know that many of those assistants (ok, all of those assistants!) would agree that it is lucky that music will never be my source of income! But I have learned much from those two years.
A Convocation Message (Cont.)

your family of assistants to help in the search for some poor unsuspecting assistant when I get back to Ireland - and deafness will definitely help her greatly!

If it’s possible to leave with a heavy heart, Mr. Eastman, then I will leave the Department of General Dentistry with one of those. From Johnson Controls to our front desk and from the lab to the administration, I am taking fond memories with me. I am grateful to you, Mr. Eastman, for having bad teeth and leaving behind you an institution that is great in both name and deed. I look forward to returning to Eastman Dental Center often and maintaining a strong link always.

Yours sincerely,

Adrian Loomes.

A Convocation Message
from Adrian Loomes, AEGD, ‘00

Alumni List

2010

Dr. Hengameh Abtahi
Dr. Nadia Gharbi
Dr. Georges Jammal
Dr. Elizabeth Marchan Mayo
Dr. Yoonkyung Oh
Dr. Paul Sweet

Dr. Fadi Alhrashi
Dr. Amr Habib
Dr. Mei Li
Dr. Natalia Valderrama Melo
Dr. Ritu Salwan
Dr. Elizabeth Erin Wierchowski

Dr. Alina R. Dellanzo
Dr. Lester Domingo Haidar
Dr. Joanne Lim
Dr. Julie Chau Nguyen
Dr. Nadejda P. Stefanova Stephens
Dr. Maureen E. Wood

2011

Dr. Hamid Asgari
Dr. Javier Cortes
Dr. Jorge Garaicoa
Dr. Ayesha Jabeen
Dr. Ashok Kota
Dr. Subrata Mukherjee
Dr. Hector Sarmiento
Dr. Xiuli Sun

Dr. Melissa C. Baleno
Dr. Reham El-Hennawey
Dr. Barbara Gruchalska
Dr. Adina Jucan
Dr. Annette Lorenzo
Dr. Thomas Nguyen
Dr. Sheldon Sealey
Dr. Jihae Yang

Dr. Abdulaziz Basha Hijazi
Dr. Noura Fadel
Dr. Maren Hall
Dr. Jeremiah Juson
Dr. Shaima Malik
Dr. Tal Rapoport
Dr. Jessica Paola Sugajara
