FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.

Exciting opportunities await RN's looking to work in a fast paced pediatric unit caring for surgical and medical patients with cardiac disease. The Pediatric Cardiac Care Center provides state of the art nursing care to children and young adults with congenital heart defects undergoing cardiothoracic surgery, and cardiology patients with known or newly diagnosed cardiac disease. This specialized unit delivers comprehensive care through a multidisciplinary approach from admission through discharge. The ideal candidate must demonstrate strong critical thinking and communications skills, and be able to manage highly acute, complex patients in a rapidly changing environment.

Neonatal Intensive Care - Registered Nurse-Level II (212771)

FT positions available. D/E/N, 8 and 12 hour shifts, every other weekend and holidays per unit policy.

The NICU is the only one of its kind in the Finger Lakes Region. It's a highly specialized, nationally recognized center providing the highest level of care available for sick or premature newborns, including advanced treatment for respiratory failure and heart disease. Demonstrates ability to work in a high tech, fast paced environment. Excellent organizational and conflict resolution skills. Commitment to customer focused, family centered care. Pediatric experience preferred.

Available Positions

Pediatric Cardiology - Registered Nurse - Level III (211792)

FT position available, Days, NO weekends or holidays or call.

Perform exercise testing, monitor sedations, provide patient and family teaching. Ongoing assessment of clinic flow and needs, perform telephone triage for busy pediatric specialty group, prescription refills, prior authorizations and monitoring of patient labs. Excellent communication skills, ability to work in multidisciplinary setting as part of a team. Demonstrates ability to organize priorities and deliver care in a fast paced environment. 3 years of pediatric nursing required. Cardiology experience preferred.

Pediatric Cardiology, Division of Pediatric Cardiology, Children's Heart Center at URMC - Registered Nurse-Level II (212314)

FT position available, with on-call responsibilities.

Function as a member of the Pediatric Cardiology team with primary responsibilities in the Pediatric Cardiac Catheterization/EP lab. Primary responsibilities include control room role for hemodynamic/interventional procedures, including hemodynamic and rhythm monitoring and creation of patient data reports and procedure documentation. Provide direct care to pediatric and adult cardiology patients undergoing cardiac catheterization procedures, including pre-procedural assessments, patient education, and discharge planning. Act as circulation nurse during procedures. Assist with patient management, case management, telephone triage for pediatric cardiology and cardiac catheterization patients. Pediatric experience preferred, minimum of 3 years acute care experience preferred.

Pediatric Emergency Department (Peds ED) - Registered Nurse - Level II (211628)

FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy, on-call responsibilities.

The Peds ED offers family centered care to those under the age of 19, seeking care for urgent and emergent issues. The unit is comprised of 18 general care beds, 1 critical care bed, 4 urgent care beds and the use of the 7 bed trauma bay which we share with the adult ED. The tertiary care offered at GCHaS has a complex case mix. From treat and release to acute critical care/trauma the staff are trained to function in a fast paced and challenging environment. Minimum of one year experience in pediatric acute care or ED experience. Provide direct care to pediatric patients/families in a fast paced collaborative environment. Demonstrates good interpersonal skills, strong prioritization and organizational skills, flexibility and clinical competence.

Pediatric Imaging Sciences - Golisano Children's Hospital - Registered Nurse-Level II (211572)

Part time (24 hours/week), D/E/N, staggered 8/10/12 hour shifts.

This unique unit seeks passionate and motivated individuals to care for a wide variety of inpatients and outpatients across the pediatric age spectrum undergoing diagnostic CT, MRI, PET MRI, Ultrasound, and GI/GU imaging. Population also includes sedated procedures, including pre and post/minimal to deep sedation and general anesthesia for IR and MRI. Although predominately pediatric, this area also cares for adult patients undergoing cardiac CT, MRI and PET/MRI. Must be

Available Positions

flexible and able to adapt/prioritize readily to changing responsibilities in a fast paced environment. Strong assessment, excellent communication and good IV skills are essential. Expectation is to provide high quality patient and family centered care, especially in challenging situations. 3-5 years of acute pediatric or mixed adult/pediatric experience required. Radiology, Pediatric Critical Care, Pediatric PACU or Pediatric ED experience preferred. PALS certification required within 1 year of hire. ACLS preferred.

Pediatric Surgical Suite - Registered Nurse-Level II (211207)

FT positions available, D/E/N, 8 and 10 shifts, week-end, holiday and on-call responsibilities.

Opportunity to work in a family oriented pediatric surgery center with in-patients and out-patients. Pediatric, PACU, PICU, Med/Surg, and/or critical care experience preferred. In this fast paced and challenging unit, RN's work together as a team in the variable settings of Preanesthesia, PACU, and Post-operative Discharge. Demonstrates flexibility with scheduling to meet unit needs.

Pediatric Transport Nurse - Registered Nurse-Level III (211410)

FT positions available (36 hours), D/N – 12 hour shifts. Rotating holiday requirements, occasional on-call responsibilities.

The Pediatric Transport Team is seeking experienced critical care nurses for the role of pediatric transport nurse. The Pediatric Transport Program transports critically ill children from outlying hospitals in the Upstate NY region to Golisano Children's Hospital at URMC via ambulance, rotary, and fixed wing aircraft. In addition, the transport nurse is an expert resource for the entire pediatric service and is essential in the following: Rapid Response Team, Pediatric Code Team, procedural sedation, advanced IV access, intra-facility transport of critically ill patients, and pediatric trauma response. As a member of the pediatric critical care team, the transport nurse initiates and participates in ongoing staff education, performance/quality improvement, and organizational activities that contribute to improving patient care and safety. The ideal candidate will have a minimum of three years pediatric critical care experience; combined relevant experience will be considered.

Urology - Location: Dansville/Wellsville - Nurse Practitioner/Physician Assistant (211203)

FT position available. Monday-Friday weekend & holidays as required. On-call responsibilities.

Exciting opportunity to provide patient care in collaboration with a member of the medical staff of SMH for clinical services. May collaborate through Noyes as well. Support regional expansion through outlying areas. Population consists primarily of general and oncologic urology. The position would be primarily clinical and heavily procedure-based with training. Fast-paced clinic. Collaborates with the Urology team in providing care to the patients in the pre-operative and post-operative period. Office visits include new, follow ups and postoperative consults. Completes dictations on all visits. Evaluates patient, orders necessary tests, consults with urology team. PACU consults, difficult Foley placement, occasional pre-admission testing for emergent surgeries. Strong communication and clinical skills required. Certified NYS NP, MS degree required or Certified NYS PA required.

Wound Health Center - Nurse Practitioner/Physician Assistant (209395)

FT and PT position available, primarily days, 8 hour shifts.

Will be the key provider of service to this patient population .Will maintain a collaborative practice within plastic surgery but work across services to meet patient needs. Will serve primarily as a consultant making recommendations for triaging and treating complex wounds. Will work closely with nursing leadership in establishing the standard of care for wound management- including development of evidence based protocols. Will use outcomes with appropriate metrics to measure success. This individual will develop educational programs for staff and patients to assure standard of care. Mentoring of staff and MLPs to expertise in wound management will be essential. This individual will also sit on hospital committees to represent wound care needs and assure that technology is integrated appropriately into internal standards of care. Communicate with referring physicians and primary care doctors. Will bill directly for services. Organizational skills are essential. Requirements: 3 years of experience as a Nurse Practitioner, preferably in a surgical or vascular unit, some pediatric experience preferred . WOCN certification preferred. Certification in NYS as a NP and National certification as an NP. Must have UPIN for Medicare billing, or eligible to apply (nationally certified as NP or eligible to take exam within 3 months). Current certification through NYS as an NP. Excellent organizational and teamwork skills.

Cancer Center

Cancer Center - BMT/ Hematology Malignancy APP - Nurse Practitioner/Physician Assistant (210178)

FT position available, M-F, weekends per unit policy, D/N, 12 hour shifts

This is an opportunity for a motivated APP to join the growing Blood and Marrow Transplant Team (BMT) and Malignant Hematology group at the Wilmot Cancer Institute. The APP role is primary inpatient while after approximately 1 year, offering

Available Positions

a blended role of both inpatient and ambulatory patient care responsibilities. Responsibilities include evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. This opportunity also includes the development of proficiencies in procedures such as bone marrow biopsy and lumbar puncture, and the basics of clinical trial enrollment. Excellent organizational and team skills essential. Must be NYS eligible for NP or PA certification. ACLS/BLS certifications required.

Wilmot Cancer Institute APP Fellowship - Nurse Practitioner / Physician Assistant (212311)

FT position available, D/N rotation, 8-12 hour shifts, weekends and holidays as needed

The APP Fellowship Program in the Wilmot Cancer Institute is a 1-year postgraduate specialty training for nurse practitioners and physician assistants. The intensive clinical fellowship program includes a core program of cancer care in either of two specialty tracks: hematology or solid oncology with rotations through ambulatory and inpatient services. In addition, several specialty rotations to enhance the oncology provider education are included: radiation oncology, palliative care, medical marijuana, and hereditary cancer screening. Training methods include clinical immersion, didactic lectures, and on-line training modules. Qualifications: Nurse Practitioners require a Master's degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant.

Wilmot Cancer Institute, WCC5 - Nurse Practitioner/Physician Assistant (212346)

Full Time position (12 hours shifts). Day/Night. Weekend and holidays per unit policy.

WCC5 offers an opportunity for an APP to join an inpatient practice providing direct patient care to oncology patients who have had cancer surgery. Responsibilities include daily management of patient care needs, evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. Opportunities to develop proficiencies in special clinical procedures specific to the patient population. Excellent communication skills with proven ability in exercising independent judgment and initiative. Must be NYS eligible for NPPA certification. ACLS/BLS certifications required.

Cardiovascular Center

71600 - Cardiovascular ICU - Nurse Practitioner/Physician Assistant (206282)

FT position available, D/E/N, 13 hour shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established practice. Responsibilities include direct care for patients undergoing cardiac surgical procedures. Direct care responsibilities include admission work-ups, daily management (including procedures and transfer/discharge). Other responsibilities include participation in QA/PI, educational conferences and rounds, student precepting, and support of unit based nurses and leadership. Applicant must be motivated, flexible, and independent and possess excellent clinical skills in critical care. Applicants must have 3-5 years recent relevant experience

Available Positions

and be NYS NP eligible.

73600, CardioVascular Surgery - Nurse Practitioner/Physician Assistant (212318)

PT position available (30 hours), primarily days and early evenings, weekends 1/month and holidays as required.

Exciting opportunity to work in a well-established practice as part of a collaborative team providing care to patients within the Division of Cardiac Surgery and Vascular Surgery. This unit provides both pre and postoperative surgical care to patients of the Cardiovascular Service Line. Provide direct care, assessment, evaluation, intervention and plan for ongoing care of this patient population including wound care, surgical follow up and knowledge of arrhythmia management. In addition to direct patient care activities, it is required to provide educational opportunities for the staff in a mentoring capacity working with the unit leadership. Familiarity with core measures and performance improvement commitment is required. Excellent organizational, communication skills, and customer service behaviors are required. NYS licensed, Master's degree required, ACNP preferred. Nationally certified or eligible for certification required.

Electrophysiology - Nurse Practitioner/Physician Assistant (212213)

FT position available, M-F, no weekends and holidays or on call responsibilities

The Electrophysiology Nurse Practitioner (EPNP) provides patient care in the outpatient setting as part of the Electrophysiology Service/Cardiology Unit for the Department of Medicine at Strong Memorial Hospital. The role of the EPAPP includes but is not limited to managing cardiology patients scheduled for procedures in the EP Lab (i.e.: EP testing, radiofrequency ablations, tilt table testing, implantation of permanent pacemakers and cardioverter defibrillators) as well as the follow-up of patients with various arrhythmias in Attending Physician Clinics as well as NP Arrhythmia and Device clinics. The Electrophysiology APP also plays a crucial role in real time analysis of remote pacemaker/ICD monitoring. The EPAPP is responsible for obtaining H & P's, identifying and managing immediate health care needs and risk factors. This includes documentations of plan of care, with collaborating physicians and coordination of health care with other disciplines as needed. The EPAPP will also support outlying clinics as needed at other institutions covered by the EP service in Hornell and Wellsville. ACNP/ANP/PA preferred. National certification required.

Electrophysiology Lab and Cardiac Catheterization Lab - Nurse Practitioner/Physician Assistant (211802)

FT position available

In collaboration with a multidisciplinary team of care providers, including cardiologists, cardiology fellows, medical residents, APP's, and nursing staff, the APP will participate in the clinical evaluation of patients prior to and after electrophysiology and interventional cardiology procedures in the electrophysiology/cardiac catheterization lab for both inpatients and outpatients. The focus of the position will be with electrophysiology but it will be expected that they will take care of all patients in the procedure area. They will be able to provide pre-procedure assessment and post procedure care including admitting patients to the cardiology service, ordering and interpreting laboratory and diagnostic studies, initiating emergency measures, and discharge planning. Care will consist of a comprehensive approach that will include risk factor modification and patient

Available Positions

education as necessitated. The ideal candidate will have strong clinical assessment skills and be able to effectively document in e-record, including recording the necessary information needed for core measures and the appropriate registries. Care for post procedural patients may require critical care and may include patients requiring advanced supportive therapies until the patient is able to be safely transferred to the appropriate in-patient unit. The provider should be competent in the management of arterial and venous central line access sites and have the ability to manage the associated complications that potentially occur with these access sites in addition to other post procedure complications. They may be asked to develop and present educational programs for staff. They may be asked to assist in the development of patient care protocols and participate in SMH Quality Improvement activities in addition to assisting in the evaluation of unit policies and protocols. They will participate in professional activities related to the cardiac catheterization and electrophysiology lab. Certified Nurse Practitioner in New York State; M.S. Degree required or Certified Physician Assistant in New York State. The ideal candidate will have at least 2 to 3 years of clinical experience; including some experience in clinical cardiology.

Outpatient Cardiology - Advanced Practice Provider (NP/PA) - Offsite at both the UR Medicine Cardiology at Red Creek and UR Medicine Strong West locations. (211414)

FT position available, Monday through Friday, Daytime Hours. No weekends or holidays. No call.

Neurosurgery - Inpatient/Outpatient - located in Elmira, NY - Nurse Practitioner/Physician Assistant (212054)

FT position available, primarily days

The University of Rochester is seeking a motivated Nurse Practitioner/Physician Assistant to join the growing practice of a URM Neurosurgery located in Elmira, New York. The team you will be joining is comprised of a neurosurgeon, a nurse practitioner, an LPN and an administrative assistant. The practice is growing and we are looking for a motivated, team oriented individual to join us in both the inpatient and outpatient settings including the operating room. We are an extremely collaborative team with the belief that each individual provides an invaluable service to each other and to our patients. Candidates must demonstrate a high level of clinical competence in the coordination of care across the inpatient and

Available Positions

outpatient setting, strong communication skills, and a focus upon patient centered care and patient/family satisfaction. Prior experience in the inpatient/outpatient management of Surgery or Neurosurgery patients is desired but not required. Experience in the analysis of outcomes and quality data and patient satisfaction data is a plus. Must be NYS NP/PA licensed. Must possess or obtain national certification within 6 months of hire. Qualifications: Requires a PA degree or a Master's Degree in Nursing or related field and an active New York State license in good standing. Applicants will have 3 years experience as an RN or APP with one to three years of leadership experience; or equivalent combination of education and experience. However, new graduates will be considered as well. The APP influences the quality and delivery of care in various roles including consultant, researcher, mentor, and practitioner. This role may be unit, program, or service based and is involved in continuous quality improvement initiatives.

Plastic Surgery - Family Nurse Practitioner / Physician Assistant (212755)

FT position available. Day time hours, Monday through Friday.

Exciting opportunity working with a busy and dynamic plastic surgery practice in an academic setting. Will primarily work in the outpatient environment, focusing on delivery of patient care including assessment and planning, care coordination, follow-up visits, telephone management and patient education. Surgery experience preferred. Must be NYS eligible to be licensed as an NP/PA.

Transplant Services

Inpatient Transplant Infectious Diseases (ID) - Nurse Practitioner/Physician Assistant (211040)

Full Time position available (40 hours per week)

The inpatient Transplant ID APP will work primarily in collaboration with Transplant Infectious Disease physicians to manage a variety of infectious diseases clinical issues in the inpatient and out-patient setting. The APP will work closely with Transplant ID physicians, fellows, and pharmacists. The APP will rotate on the general ID service on an as needed basis.

The ideal candidate must be able to work both independently and as part of a team. The APP will participate in consultative care of inpatients and outpatients with infectious disease problems with a primary focus on infections in solid organ and bone marrow transplant patients and liquid tumor patients. Infections in this population progresses more rapidly and require early and aggressive management. The array of infectious etiologies is broad and host response is blunted necessitating a high degree of clinical suspicion and an aggressive often invasive diagnostic approach. Care is multidisciplinary and involves close communication and cooperative with Transplant Surgery, Hepatology, Nephrology, Critical Care, and Oncology. The APP will work closely with sub-specialty trained Transplant Infectious Disease attendings in the initial evaluation and follow up these patients. School of Nursing

Project Nurse (208915)

7AM-7PM; OCC WKENDS

Do you want to engage the full extent of your education to really make a difference in someone's life? Are you passionate about promoting wellness and providing exceptional care? Do you want to be part of a multi-disciplinary team dedicated to improving individual health and well-being? The University of Rochester School of Nursing currently has an exciting opportunity for a Wellness Nurse in our Center for Employee Wellness. As trusted professionals with extensive knowledge of health and wellness, our mission is to provide personalized care and outstanding service. We are looking for nurses who are dedicated to helping our clients live healthier lifestyles through individual engagement, health assessments, lifestyle coaching and chronic disease management programs. You will be part of a team of highly motivated professionals working to create a culture of wellness and well-being in the community. With chronic disease and obesity on the rise worldwide, traditional medical providers and government agencies are shifting focus to prevention and wellness. Today more than half of global employers are using health promotion strategies to keep people well. The University of Rochester School of Nursing has risen to the challenge and developed an innovative, comprehensive and evidence-based employee wellness program, known as the UR Medicine Employee Wellness Program. We offer wellness programs directly to employers in the Rochester and surrounding region. As part of this rapidly growing approach to healthcare you will make a difference every day. What do we offer? The opportunity to collaborate with a multi-disciplinary team A strong focus on wellness and preventative care that treats individuals before they get sick The ability to build strong one-on-one patient/provider relationships The chance to have a direct role in helping clients live healthier lifestyles The opportunity to work outside the traditional clinical setting Flexibility to achieve work-life balance Position Summary: Nurses in the Center for Employee Wellness (CEW) provide direct care services to clients in a variety of settings. Nurses perform full panel biometric screenings using point of care testing (POCT) and provide follow up counseling and education about strategies to improve

Available Positions

or maintain health. Nurses also refer/recommend clients to appropriate programs. Our nurses work in a fast paced, collaborative environment where nursing expertise is valued and independent practice is realized. Nurses report to Chief Wellness Officer. Responsibilities: Employee Wellness - Biometrics Conduct POCT biometric screenings. Integrate information in real time from biometric screenings; educate and counsel participant on outcomes. Engage and encourage participant to follow-up with personal health assessments and other resources to make measurable improvements in their wellness goals. Make referrals as appropriate to PCP, Condition Management, Lifestyle Management, Behavioral Health Partners, and other programs based on participant needs. Use technology effectively to meet client needs. Communicate with other service providers. Provide onsite nurse wellness coaching utilizing information from various sources including biometric screening and personal health assessments. Stay current with best practices in the health and wellness field. May oversee other clinical staff and clerks to assure smooth administration of clinical services and/or participate in coordination of off-site clinics and group sessions. Requirements: Registered Nurse with current CPR certification. Licensed Registered Nurse with excellent organizational and communication skills and the ability to multi-task and problem-solve in a fast-paced clinical environment. Nurses must be able to travel to employer sites to provide services. Use of a car (reimbursement for mileage provided) and a current New York State driver's license is required. Basic computer skills are essential.
