**Research Nurse (216199)**
8 AM-4:30 PM

Position Summary: This position supports the Cardiology Division as a research nurse coordinator in pharmaceutical and device clinical trials. Typical duties will include but are not limited to: conducting study protocols as the primary coordinator, with responsibility for study start-up activities such as WIRB and RSRB submissions, recruitment and enrollment, and entire conduct of given study under the direction of the Principal Investigator. It will also include assessing clinical feasibility if newly proposed projects, evaluating study protocols regarding standard of care and research orientated tasks, evaluating time and effort needed to complete clinical tasks and study procedures and visits related to conduct of the studies, assisting unit manager and director with the above information toward assessment and preparation of budgets for the studies. Ensures compliance with all applicable regulatory and institutional requirements and standards as well as compliance with Good Clinical Practice (GCP) guidelines and sponsor requirements. On-call responsibilities are expected and dependent on individual study protocols. This person will be committed to providing high quality research efforts on the Cardiology Division's behalf. Responsibilities: Coordinates the administrative details required to initiate and conduct human subject research, such as, receiving, distributing, and explaining study information, including protocol, and human subject recruitment materials to immediate team members and relevant others. Ensures all immediate and extended team members understand and adhere to all aspects of all approved protocols, procedures and standards for documentation and communication. Under general direction from the Principal Investigator, trains staff on details of protocol, including inclusion and exclusion criteria, informed consent procedures, study activities, process for source documentation and case report form (CRFs) completion, and adverse event reporting. Reviews and documents the dispensing and returning of study materials (such as study drugs and devices). Ensures additional training is provided to ensure changes to protocol and documents are communicated and adhered to. Responsible for recruiting/screening/consenting/enrolling patients, record reviews and interviews, history and physicals. Responsible for dispensing of investigational medications and devices, performing procedures as required by protocols (obtaining lab specimens, performing electrocardiograms, collecting data while observing electrophysiology, diagnostic, interventional cardiology procedures, exercise testing, drawing of bloods, etc.) Responsible for filling out case report forms, creating patient instructions and calendars, scheduling patient appointments, and assisting the investigators as needed. Reports serious adverse events to sponsor and obtains needed information. Preparations for, participates in and serves as a liaison for sponsor monitoring visits. Develops good working relationship with sponsors to foster a positive research environment and attends study Investigator/Coordinator meetings as required for study start-up. Requirements: This position requires a nursing degree with strong clinical skills. A cardiology background and research experience is preferred. Knowledge of word processing and data analysis software. Professional Research Coordinator Certification (i.e. SoCRA or ACRP) preferred.

School of Nursing

**Project Nurse (212179)**
8 AM-6 PM
Available Positions

Position Summary: Are you looking to expand your expertise and practice to the full scope of your license in a supportive and collaborative environment? Then a nursing position in Passport Health may be just what you are looking for. The Project Nurse in Passport Health (travel medicine program) works independently in seeing and managing clients who are preparing for overseas travel. Nurses rely on protocols but exercise professional judgement when developing and executing the plan of care. The nurse provides comprehensive patient care/client services with a focus on customer service excellence and clinical expertise. The nurse works collaboratively with the team to assure efficiency of service delivery and coordination of care. The nurse will work in the Syracuse office located 6320 Fly Road, East Syracuse, NY 13057. Some travel may be required for offsite clinics being held. Responsibilities: The nurse will provide immunizations and travel health counseling; develop a plan of care including vaccine administration and prescription medications based on the clients health history, travel itinerary; develop a plan of care using standing orders and where needed, consult with the Passport Health Medical Director as appropriate. Specific responsibilities include: Review client health history, immunization and vaccination records and travel itinerary to provide detailed, personalized recommendations regarding travel. Review client-specific written and standing orders, including recommendations for administration of vaccines and immunizations. Review geography, activity and seasonally specific health risks indicated by traveler’s itinerary. Vaccinate clients appropriately based on travel itinerary and current protocols. Educate clients about travel specific to their itinerary. Advise clients in appropriate actions to take to help mitigate health risks. Participate in training for travel medicine standards of care for all travel vaccinations. Comply with recording and documentation standards (for example, NYSIS). Participate in QA activities and make recommendation to improve practice. Remain current in all relevant information about travel medicine, vaccinations and evidence based standards of care. Review privacy laws, vaccine safety and efficacy information, travel advisories and other job-critical information at monthly meetings. Use the electronic medical record appropriately for documentations and follow up care. Work collaboratively with peers in problem solving. Assure standard of care for all clients. Provide care to individuals, families and travel groups as needed. Participate in staff meetings. Qualifications: Effective and courteous communication with clients, staff and liaisons from outside organizations. Ability to efficiently coordinate with the Program Administrator. Position requires ability to multi-task, to function independently or as part of a team, flexibility, and problem solving ability in a fast-paced environment while maintaining a positive attitude.
