EOE Minorities/Females/Protected Veterans/Disabled

71200 - Thoracic and Surgical Specialty - Level I - II (231283)
FT position, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy

7-1200 offers an exciting opportunity for new graduates or experienced nurses with a special interest in surgical patients who are eager to learn. On our 25-bed unit, we care for a variety of different surgical patients including thoracic, foregut, and plastics, including care for burn patients. We have 2 step down beds for post-operative patients requiring more frequent monitoring. Additionally, we specialize in the management and care for Pulmonary hypertension patients through the Pulmonary Care Center at URMC, the only center in upstate New York and one of only four centers in NYS. On 7-1200, you will develop a diversified skill set working with a variety of medical equipment, tubes, lines, and drains. We take pride in our nursing culture and strive to maintain a positive working environment, supporting all team members to meet their professional and personal goals. Looking for candidates who exhibit critical thinking skills, strong communication, and a desire to learn and work as part of a team.

73400 - Solid (Liver and Kidney) Organ Transplant - Registered Nurse-Level I - II (220613)
FT/PT positions available, D/E/N, 8 and 12 hour shifts, holidays and week-ends per unit policy.

New Graduates (Level 1) are eligible for the med/surg Residency Program. The residency program is designed to assist the novice graduate nurse to successfully transition to a competent professional nurse. Nurse must have less than one year prior experience in acute care and plan for a two year commitment upon program completion. Enjoy the opportunity to provide holistic care to the liver and kidney transplant population as well as general surgical patients. Challenging environment encourages strong organizational and time management skills. Must demonstrate good interpersonal and communication skills. We offer opportunities for nurses interested in CAS advancement, precepting, patient advocacy, QI activities, teaching, and the charge role. A positive attitude and an appreciation for teamwork a must.

Adult Med/Surg Flex/Float Team - Registered Nurse-Level II (222198)
FT/PT positions available. D/E/N, 8/12 hour shifts. Weekend program and straight off shift opportunities also available.

This team will offer exposure to a variety of medical and surgical specialties across the hospital, with potential opportunities across service lines to develop a diversified skill base. The Flex/Float team nurse will have a unique opportunity to assist with unit expansion and opening. Additional opportunities will be available for clinical ladder advancement, charge, and precepting. Assignments can vary from a daily floating to a 6-12 week assignment. Individuals must be creative, flexible, motivated, and possess excellent communication skills.

Adult Nursing Med/Surg Flex/Float Team - Registered Nurse-Level I-II (221905)
FT position available. D/E/N, 8 & 12 hours shifts – flexibility needed, Weekends and Holidays as required.
Available Positions

Exciting opportunity to become part of a dynamic, collaborative care team, responsible for the care of med/surg patients across 12 diverse units. This position is a great opportunity to work in a service-wide position, supporting all units, while gaining expertise with a variety of patient populations. This dynamic position requires the ability to work in a fast-paced environment with changing priorities. The successful candidates will be able to demonstrate strong critical thinking, communication and organizational skills. Extensive orientation provided, new grads welcomed. New Graduates (Level 1) are eligible for the med/surg Residency Program. The residency program is designed to assist the novice graduate nurse to successfully transition to a competent professional nurse. Nurse must have less than one year prior experience in acute care and plan for a two year commitment upon program completion.

Clinical Research - G5035 - Level II (230925)

Per diem position available. Primarily days Monday-Friday with occasional evenings and nights. Weekends and holidays per unit policy

Exciting opportunity to be involved in facilitating cutting edge clinical research studies. Become part of a team that advances future medical care through the conduct of important clinical research. Perform clinical aspects of research studies involving infants, children, adults, and families. Responsibilities include: collection of clinical specimens, blood draws, specimen processing, investigational drug administration, and recording accurate data collection. The Clinical Research Center serves primarily outpatients, with occasional overnight study visits. One year minimum as an RN in acute care. Experience in IV and phlebotomy skills a plus. Pediatric experience helpful. Demonstrates flexibility, commitment to teamwork, excellent communication and organizational skills. Visit our website: https://www.urmc.rochester.edu/clinical-translational-science-institute/clinical-research/clinical-research-center/research-nursing.aspx.

G-1600 - Adult Admission Unit - Registered Nurse-Level I - II (224906)

(20 bed unit) FT/PT and per diem positions available, D/E/N, weekends and holidays per unit needs

Previously on 218 and now on 736 will be part of a new unit opening in June/July 2021 (will have all private rooms). In-patient adult boarder unit with a focus on admissions with a 24-48 hour length of stay. Join a team of nurses that specialize in care for a diverse spectrum of acute and complex medical patients. This is an exciting, fast paced, rapid turnover unit where nurses demonstrate strong critical thinking and organizational skills. Provide direct care to patients across the age spectrum in a fast paced collaborative environment. Individuals must be creative, flexible, collaborative teamwork, motivated and possess excellent communication skills. New Graduates (level 1) are eligible for the med/surg Residency Program. The residency program is designed to assist the novice graduate nurse to successfully transition to a competent professional nurse. Nurse must have less than one year prior experience in acute care and plan for a two year commitment upon program completion.

OB/GYN Nursing

3-1600 - Labor and Delivery - Level II (231776)

FT Position available (36 hours), D/N, 8 & 12 hour shifts, holidays and weekends per unit policy. On-Call responsibilities
Available Positions

which include availability to arrive to the unit within 40 minutes for predetermined, self-scheduled shifts.

Provide direct care to high-risk antepartum, intrapartum and postpartum women, in collaboration with physicians and social workers in Labor and Delivery. Expectation is to provide patient and family centered care ALWAYS, especially in challenging situations. Excellent communication skills, ability to prioritize and problem solve, comfort with electronic computer systems, and an aptitude for quick learning are required. OB experience is preferred, but will consider applicants that can speak to a passion of obstetrics. Orientation to all OB service units, will occur, in order to provide on-going cross unit flexibility at all times.

31400 - High Risk Labor and Delivery - Level II (227637)
FT positions available (36 hours), D/N, 8 & 12 hour shifts, holidays and weekends, on call responsibilities.

Provide direct care to high-risk antepartum, intrapartum and postpartum women with medically or obstetrically complicated pregnancies, in collaboration with physicians and social workers in Labor and Delivery. Demonstrates good communication skills and the ability to prioritize and problem solve in a fast paced environment. In addition to the primary position to this unit, employees are oriented and trained to various competencies/modes of care across the OB service. Floating among the units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. Minimum one year OB or Critical Care experience preferred.

UR Breastfeeding and Lactation Medicine Practice - Nurse Lactation Consultant (CLC or IBCLC)
- Inpatient - Level II (229840)
FT (36 hours) and PT position available (24 hours), including some weekend and holiday commitment.

A great opportunity to build a team for parents in our community with complex breastfeeding needs! Flexibility is a must in a fast-paced and evolving program! In the inpatient setting, the CLC/IBCLC will work as a team with a Breastfeeding Medicine provider and Medical care teams, seeing parents and babies that may require high levels of care, e.g. healthy newborns, babies with prematurity, failure to thrive, mothers with low milk supply, infections, complex medication regimens and surgeries, etc. In the inpatient setting, the CLC/IBCLC works independently within a team to support breastfeeding starts, challenges, and meet the needs of feeding plans for at-risk or high risk neonates. Promotion of breastfeeding and supporting staff through education and empowerment are also critical pieces of this position. Ideal candidates should have a strong background in lactation care for complex maternal-infant dyads, an understanding of medical concerns in breastfeeding, as well as being detail-oriented, reliable, and competent and facile with electronic documentation tools. The CLC/IBCLC is expected to be an excellent communicator with patients and families, and provide timely feedback and follow up planning to Pediatric and Obstetrical services. The CLC/IBCLC will also have the opportunity to serve as a resource to other members of the team including learners and observers. CLC or IBCLC and RN degree required.
Available Positions

Pediatric Nursing

**6 South - Pediatric Cardiac Care Center - Level I - II (230559)**

FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.

Exciting opportunities await RN's looking to work in a fast paced pediatric unit caring for surgical and medical patients with cardiac disease. The Pediatric Cardiac Care Center provides state of the art nursing care to children and young adults with congenital heart defects undergoing cardiothoracic surgery, and cardiology patients with known or newly diagnosed cardiac disease. This specialized unit delivers comprehensive care through a multidisciplinary approach from admission through discharge. The ideal candidate must demonstrate strong critical thinking and communications skills, and be able to manage highly acute, complex patients in a rapidly changing environment.

**7 South - Pediatric General Surgical/Renal/GI - Level I - II (234484)**

FT positions available, D/E/N, 8 & 12 hour shifts, weekends and holidays per unit policy.

We are looking for an individual to become part of a nursing team dedicated to the care of children with general surgical/renal/GI clinical issues. Care of the pediatric patient/family is a challenging, fast paced environment and requires strong organizational, time management and critical thinking skills. Nurse will develop diverse competencies and function as an important member of the pediatric interdisciplinary team. Must be a committed to customer focused, family centered care, focusing on general surgical/renal/GI clinical issues and their unique psycho-social needs. Pediatric and/or acute care experience preferred.

**AC-6 - Ambulatory Pediatrics - Level II (232673)**

FT (40 hours) position available; mostly days with occasional Saturdays and evening hours per unit needs.

Ambulatory Pediatrics is seeking a team oriented pediatric registered nurse to join our multidisciplinary team focused on serving a diverse population of patients and families. Seeking strong candidate with career focus on promoting health equity and inclusion. This is a fast-paced environment providing family centered care within a variety of outpatient clinic settings including primary care and specialty care. Nurse must have 2 years pediatric nursing experience, preferably outpatient or community health based. Requires excellent problem solving, prioritization, and communication skills. Must be flexible to adjust to the changing needs of all of our ambulatory care areas. American Sign Language or Spanish fluency preferred but not required.

**Ambulatory Pediatrics Specialty Practices and Infusion Cetner - Level II (233984)**

FT (40hrs) position available; mostly days with some late shifts and occasional Saturdays.

Ambulatory Pediatrics is seeking a team oriented yet independent pediatric nurse to join our multidisciplinary team. This is a fast-paced environment providing family centered care for a diverse population within a variety of outpatient clinic settings including primary care, specialty care and infusion/procedural care including chemotherapy. Nurse must have 2-3 years pediatric nursing experience, preferably outpatient or community health based. Requires excellent problem solving,
Available Positions

prioritization, and communication skills. Must be flexible to adjust to the changing needs of all of our ambulatory care areas. Telephone Triage, IV, phlebotomy, and charge nurse skills preferred but not required. American Sign Language or Spanish fluency preferred but not required.

Division of Child Neurology - Registered Nurse-Level II (233545)

Full Time - 40 hours, days, This job is Monday-Friday, 8:00 am-4:30 pm.

The Division of Child Neurology is seeking an enthusiastic, independent nurse to join a team-based outpatient practice. The position requires attention to detail and a compassionate and caring nature. Duties include telephone triage, prescription management and referral review. The Child Neurology team is a cohesive group that manages the care of children with seizures, headaches, tics, cerebral palsy and other neurologic diagnoses. Nurses must have at least 2 years of nursing experience as well as excellent problem solving, prioritization and communication skills.

Golisano Children’s Hospital Critical Care Flex Team - Level III (234294)

FT positions available, D/N, 12 hour shifts, weekends and holidays per unit policy, occasional on-call responsibilities.

This dynamic position requires the ability to work in a fast-paced environment with changing priorities. The position offers exposure to a variety of critical care specialties including the NICU, PICU, PCCC, and Peds ED. Team members will develop a diverse skill base and expertise in the care of critically ill pediatric patients. The ideal candidates will be able to demonstrate strong critical thinking, communication, and organizational skills. Must have a minimum of 2 years of critical care experience.

Pediatric Cardiac Catheterization/EP Lab - Level II (233200)

FT position available, Monday through Friday, primarily days, with on-call responsibilities.

Function as a member of the Pediatric Cardiology team with primary responsibilities in the Pediatric Cardiac Catheterization/EP Lab. Primary responsibilities include providing direct care to pediatric and adult cardiology patients undergoing cardiac catheterization procedures, including pre-procedural assessments, patient education, and discharge planning. Act as circulation nurse during procedures. Assist with patient management, and telephone triage for patients undergoing cardiac catheterization. Additional responsibilities include control room role for hemodynamic/interventional procedures, including hemodynamic and rhythm monitoring, creation of patient data reports, and procedural documentation. Ideal candidate has enthusiasm for learning and working in a team. Pediatric experience and 3 years of acute care experience preferred, but not required.

Pediatric Emergency Department (Peds ED) - Registered Nurse - Level II (233411)

FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy, on-call responsibilities.

The Peds ED offers family centered care to those under the age of 19, seeking care for urgent and emergent issues. The unit is comprised of 18 general care beds, 1 critical care bed, 4 urgent care beds and the use of the 7 bed trauma bay which
Available Positions

we share with the adult ED. The tertiary care offered at GCHaS has a complex case mix. From treat and release to acute critical care/trauma the staff are trained to function in a fast paced and challenging environment. Demonstrates good interpersonal skills, strong prioritization and organizational skills, flexibility and clinical competence.

**Pediatric Endocrinology - Level II (233763)**

Fulltime (40hrs) position available; mostly days

The Division of Pediatric Endocrinology is seeking an autonomous, yet team oriented pediatric nurse to work within our multidisciplinary team to provide patient and family centered care. This is a fast-paced outpatient division that provides care to children with Endocrine based disease processes. Nurses work collaboratively with NPs, MDs, and other members of the team to provide comprehensive care involving telephone triage and care management, as well as phone-based patient education and family support. Nurses must have 2-4 years pediatric nursing experience as well as excellent problem solving, prioritization and communication skills. Must be able to use independent judgment with the support of the NP and MD team. Telephone Triage skills and knowledge about Diabetes preferred but not required. Spanish language fluency preferred but not required. Diverse applicants encouraged to apply.

**Pediatric Imaging Sciences - Golisano Children’s Hospital - Level II (233710)**

FT (36 or 40) position available, D/E; staggered 8/10/12 hr shifts available; straight evening hours available.

Minimal on call responsibilities for weekends and holidays. This unique unit seeks passionate and motivated individuals to care for a wide variety of inpatients and outpatients across the pediatric age spectrum undergoing diagnostic CT, MRI, PET MRI, Ultrasound, and GI/GU imaging. Population also includes sedated procedures, including pre and post/minimal to deep sedation and general anesthesia for IR and MRI. Although predominately pediatric, this area also cares for adult patients undergoing cardiac CT, MRI and PET/MRI. Must be flexible and able to adapt/prioritize readily to changing responsibilities in a fast paced environment. Strong assessment, excellent communication and good IV skills are essential. Expectation is to provide high quality patient and family centered care, especially in challenging situations. 2-3 years of acute pediatric or mixed adult/pediatric experience required. Radiology, Pediatric Critical Care, Pediatric PACU or Pediatric ED experience preferred. PALS & ACLS certification required within 1 year of hire.

**Pediatric Rheumatology - Peds Specialty Nurse Position - Level II (233600)**

Full Time position available (36-40 hours/week), days (8:00 – 4:30)

The Division of Pediatric Rheumatology has an exciting nursing position available that focuses on collaborating with all members of the health care team to provide compassionate quality patient care and case management. Position includes telephone triage; care coordination and case management; communication with patients, schools and labs; review of referrals; injection training with kids and parents; and patient and family education. Position requires strong assessment, interpersonal and communication skills. In addition, opportunities to participate in future divisional research activities.
Available Positions

Requires a RN with current NYS license. Previous pediatrics experience desirable.

**Pediatric Specialty Nurse for the Department of Pediatric Gastroenterology and Nutrition - Level II (232594)**

FT (40hrs) position available; mostly days

The Department of Pediatric Gastroenterology and Nutrition is seeking a team oriented yet independent nurse to work within our rapidly growing multidisciplinary team. This is a family centered specialty providing Gastroenterology and Nutrition services to infants, children, adolescents and young adults. Functions of the position include procedures such as; PH probes, wireless capsule endoscopies, suction biopsies. Other duties include but are not limited to care management activities such as patient phone management, insurance justifications, vital signs, medication reconciliation, and patient education. Telephone management skills preferred but not required. Nurses must have 2-3 years nursing experience with Pediatrics or GI experience preferred. Must have excellent problem solving, prioritization, teamwork, and communication skills. Must be able to use independent judgment skills within the support of the multidisciplinary team.

**Pediatric Surgical Suite - Registered Nurse-Level II (233446)**

FT position available, D/E, 8, 10, and 12 hour shifts, occasional nights and week-ends per unit need. Holiday and on-call responsibilities

Opportunity to work in a family oriented pediatric surgery center with in-patients and out-patients. Pediatric, PACU, PICU, Med/Surg, and/or critical care experience preferred. In this fast paced and challenging unit, RN's work together as a team in the variable settings of Preanesthesia, PACU, and Post-operative Discharge. Demonstrates flexibility with scheduling to meet unit needs.

**Pediatric Transport Nurse - Registered Nurse-Level III (227177)**

FT/PT positions available, D/N – 12 hour shifts. Rotating holiday requirements, occasional on-call responsibilities.

The Pediatric Transport Team is seeking experienced critical care nurses for the role of pediatric transport nurse. The Pediatric Transport Program transports critically ill children from outlying hospitals in the Upstate NY region to Golisano Children's Hospital at URMC via ambulance, rotary, and fixed wing aircraft. In addition, the transport nurse is an expert resource for the entire pediatric service and is essential in the following: Rapid Response Team, Pediatric Code Team, procedural sedation, advanced IV access, intra-facility transport of critically ill patients, and pediatric trauma response. As a member of the pediatric critical care team, the transport nurse initiates and participates in ongoing staff education, performance/quality improvement, and organizational activities that contribute to improving patient care and safety. The ideal candidate will have a minimum of three years pediatric critical care experience; combined relevant experience will be considered.

**Pediatric Vascular Access Team - Level III (233314)**

FT position available (36 hours): D/E, weekends and holidays per service needs
Available Positions

The candidate must be able to work independently, be flexible and able to assume the responsibility for the nursing care and documentation of vascular access in pediatric patients, spanning from neonates to age 19. Responsibilities include assessment of patients for vascular access, planning for line insertion (including recommended support for placement), ultrasound guided peripheral intravenous access and placement of PICC lines. Team members will be responsible to be a resource for all types of central line care and maintenance issues. Responsibilities also include supporting new nursing staff by providing education, mentor support for peripheral IV catheter insertion and participating in the pediatric service safety and quality initiatives. Candidate will be eligible for the Vascular Access Board Certification after 1 year of experience. Must have 3 years of pediatric nursing experience, PICC certification preferred but not necessary.

Opportunities for Nurse Management

Ambulatory Nursing

Advanced Heart Failure/VAD - VAD Coordinator - Level IV (219834)

FT position available, primarily days, 10 hr shifts with weekend rotation. On call responsibilities per program needs.

In collaboration with a multidisciplinary team, and under the general guidance of the practice physician, the RN is primarily responsible for maintaining standards of care and patient satisfaction, and for the coordination and provision of proficient care for the Mechanical Circulatory Support (MCS) Program. Responsibilities include evaluation of advanced heart failure therapy patients for MCS support, coordination of implant and safe discharge plan. The RN performs direct patient care duties including patient assessment, device interrogation, triaging patient/community calls and facilitates coordination of services and care, including: patient, family, staff and community education. The RN assists in the development of clinical practice guidelines, usage tracking, MCS database, new project/device implementation and participates in program related quality assurance/performance improvement activities. Serves as the primary technical support for staff, community providers and patients requiring mechanical cardiac assist. Requires excellent clinical, critical analysis, communication and organizational skills. Must be able to function independently within the limits of the position. Demonstrated ability to work as a member of a team. Knowledge of standard of care treatment for heart failure including VADs and heart transplantation preferred. Current Registered Nurse licensure, ACLS and CPR Certifications required. A minimum of 4 years’ experience, with at least 3 of those in cardiology with an emphasis on mechanical circulatory support.

The work is dynamic, with flexibility and adaptability as key attributes for all team members. Must exhibit excellent communication skills, creativity, and the ability to focus on teamwork and patient outcomes. Ability to work with a multidisciplinary environment is essential. BSN required, MS required within 5 years of appointment. Certification and 3-5 years of oncology experience preferred.
Available Positions

Opportunities for APP (NP or PA)

Ambulatory Services

Dermatology - Fellowship - DNP Preferred - Family Nurse Practitioner (233133)

FT position available, primarily days, no weekends

The University of Rochester is seeking a motivated Family Nurse Practitioner interested in specializing in Dermatology to acquire the needed skills through Dermatology's Advanced Practice Practitioner training program. This wonderful opportunity will position the advanced practice provider (APP) to participate in a rich array of education opportunities and one on one teaching provided by our nationally recognized faculty. The successful candidate will work with our faculty mentors throughout this two-year program to assist the candidate in the acquisition of Dermatology clinical knowledge and patient care skills. Rotations in subspecialty clinics in Dermatology are provided to deepen the trainee's understanding of Dermatologic diseases and their treatment. Candidates must demonstrate a high level of clinical competence in the coordination of care across the inpatient and outpatient setting, strong communication skills, and a focus upon patient centered care and patient/family satisfaction. Prior experience in the inpatient/outpatient management of Dermatology is useful but not required. Experience in the analysis of outcomes and quality data and patient satisfaction data is a plus. Must be NYS NP licensed. Qualifications: Requires a Master's Degree in Nursing or related field and an active New York State license in good standing. Prefer candidates with a Doctor of Nursing degree, or current, active enrollment. Applicants will have 5 years' experience as an RN with one to three years of leadership experience; or equivalent combination of education and experience.

Division of Gastroenterology & Hepatology - Nurse Practitioner/Physician Assistant (233351)

Full Time, Monday through Friday, primarily daytime hours, 8 or 10 hour shifts

Exciting opportunity to work as part of an interdisciplinary team in the division of gastroenterology and hepatology. Primary responsibilities include direct patient care and treatment of acute illnesses and chronic symptom management in GI patients with specific concentration in hepatology. This includes performing (a) complete history and physicals, (b) follow-up office visits, (c) coordination and follow-up of diagnostic imaging, laboratory testing, and endoscopic procedures, and (d) prescribing medications. Patient education and coordination of services will be integral to this role. Must demonstrate excellent communication skills with an ability to make independent decisions in the management of complex patients. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Must be NYS eligible for NP/PA certification.

Inpatient Infectious Diseases (ID) - Nurse Practitioner/Physician Assistant (234441)

Full Time (40 hours per week)
Available Positions

The inpatient ID APP will work primarily in collaboration with Infectious Disease APPs and physicians to manage a variety of infectious disease clinical issues in the inpatient setting on the ID APP Team. The APP will work collaboratively with ID physicians, fellows, and pharmacists as needed. The ideal candidate must be able to work both independently and as part of a team. The APP will participate in consultative care and management of inpatients with infectious disease problems with a primary focus on general ID and patients with psychosocial barriers to care compliance (ex: patient with IVDU, other substance abuse disorders, housing insecurity, etc.). The array of infectious etiologies is broad. Care is multidisciplinary and involves close communication and cooperation with primary hospital teams and various hospital specialists. The APP should be able to work autonomously, but this position also requires excellent triage skills to identify when to escalate care and closely collaborate with specialty trained Infectious Disease attendings at all stages of care (initial evaluation, follow-ups, and consults). The APP will also participate in clinical regular conferences and division sponsored professional practice (journal clubs, case conference, etc). Prior Infectious Disease experience is valued but not required. All applicants should demonstrate clinical competence as well as excellent verbal and written communication skills.

Interventional Radiology - Nurse Practitioner/Physician Assistant (234347)

Full time position, Monday – Friday, Primarily days. May be an occasional weekend Coverage will be mixed clinical and procedural at our River Road outpatient facility and FF Thompson Hospital in Canandaigua, NY. The person hired will anchor our outpatient service. Hours: F.F. Thompson: Tuesday/Friday 8:00am-4:30 pm; East River Road Monday/Wednesday/Thursday 8:00am-4:30 pm

Under the general direction of the Attending Interventional Radiologist, the APP will provide approximately 70% - 80% E&M services to include consultations and follow-up. This will entail obtaining medical history, physical examination, ordering appropriate testing, obtaining consent, patient education, telemedicine services. Approximately 20% will be procedural including but not limited to paracentesis, thoracentesis, PICC line placement, central line removal. The APP will participate in the education of learners (students and new employees) using clinical learning experiences, knowledge sharing and skill training. Current PA/NP certification/licensure (or eligible), BLS/ACLS certification are required. An RT license is not required but is a plus.

Mary Parkes Asthma Center - Division of Pulmonary Outpatient - Nurse Practitioner/Physician Assistant (234241)

FT position available

This is an exciting opportunity to work collaboratively with our team of pulmonologists, nurses, respiratory therapists, and clerical staff in the evaluation and treatment of outpatients with a variety of pulmonary disorders as we expand our pulmonary practice in our off site location. Primary responsibilities include the initial and on-going pulmonary care for patients referred to our ambulatory practice. The primary responsibilities will include obtaining appropriate comprehensive medical history, physical examinations, development of differential diagnoses, implementation of appropriate diagnostic work-ups, treatment plan, and clear recommendations to primary referring providers. Appropriate documentation in the medical record and timely response to telephone and My Chart inquiries will be expected. Appropriate volume targets will
Available Positions

be implemented in a graded fashion over time. This position requires excellent clinical, communication, and collaborative skills. Candidate must be NYS NP or PA licensed. Highly recommend experience within ambulatory setting, however motivated new graduates with acute care experience will be considered. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Nutrition Support - Nurse Practitioner/Physician Assistant (234298)**

Full Time position available, Days only, no weekends

A unique opportunity to join the expanding URMC Adult Nutrition Support Clinic as a collaborative member of an interdisciplinary group. The successful candidate will join a team including a full-time nurse practitioner, a registered dietitian and a physician medical director. The APP role includes nutrition assessments, management and prescribing of nutrition support regimens, coordination of care, and performance of feeding tube, gastrostomy and jejunostomy tube replacements. Patient population includes adults who receive home total parenteral nutrition (TPN), tube feedings and/or teduglutide (GLP2 growth hormone) therapy. We are looking for an enthusiastic person who is willing to be mentored in this specialty, obtain membership in the American Society for Parenteral and Enteral Nutrition (ASPEN), and eventually attain certification in Nutrition Support practice. The successful candidate will participate in the education of learners (students, fellows and new employees) using clinical learning experiences, knowledge sharing and skill training. Candidates should possess a focus on patient centered care and patient/family/caregiver satisfaction, excellent critical thinking, strong communication skills, and computer competence. This position requires licensure and certification in NYS as a Nurse Practitioner or Physician Assistant in good standing.

**Outpatient Wound Healing and Hyperbaric Center - Nurse Practitioner/Physician Assistant (234483)**

PT position, days, 4-8 hour shifts, 20 hours/week

Will be a key provider of services for this unique population of patients with difficult to heal wounds and supervision of patient receiving hyperbaric treatments. The Wound and Hyperbaric Center has a full staff of RN's, patient assistants and physicians that work collaboratively to ensure quality of care and both patient and staff satisfaction with services. Evaluates and manages wound patients ensuring quality standards of care following a set practice guidelines. Coordinates the patient’s plan of care with referring providers, PCP’s, homecare nurses, skilled facilities and clinical disciplines to address patient needs, evaluate the efficacy of care, and assess changes in the patient's condition to ensure healing outcome goals. Skills will include wound debridement and dressing selections for the promotion of healing. Will receive skills training and mentoring and complete a hyperbaric oxygen team training within 12 months of hire. **Job Requirements:** Nurse Practitioner/Physician Assistant licensed in New York State and national certification with NPI for Medicare billing. Prefer 2-3 years of experience as a practitioner preferably in a surgical or vascular unit and or board certification in wound specialty (WOCN, CWS).
Available Positions

**Pain Treatment Center - Surgical Nurse Practitioner/Physician Assistant (230387)**

FT position available, Monday through Friday, No call, No nights, No weekends

Clinical duties include obtaining thorough history, completing physical exam and use of critical thinking required to develop a multimodal treatment plan and assess for possible interventional spine pain procedures in collaboration with the attending physician. Procedural duties include participating in pre and post-operative management and coordination of care with attending physician, nursing and administrative staff; placing any appropriate pre and post procedural orders; providing surgical assistance during elective pain operative procedures; completing documentation efficiently and communicating with patient, referring providers and family as appropriate. The Physician Assistant / Nurse Practitioner demonstrates competency in the performance of operative and procedural skills. Applies principles of asepsis and infection control. Provides for appropriate positioning, prepping and draping of the patient. Applies knowledge of surgical anatomy, physiology, and operative technique relative to the surgical procedure. Provides hemostasis, retraction and anatomical exposure. Performs wound closure and applies surgical dressings.

**Primary Care Network (Brighton, NY) - Nurse Practitioner/Physician Assistant (233206)**

24-28 hours/week position available. Three days per week, daytime hours.

Exciting opportunity to join an Adult Medicine Practice in the Brighton, NY area and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. The practice specializes in caring for women ages 14 and up. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. An APP with greater than 2 years of active primary care practice is favored; other strong applicants with a passion for primary care may be considered. An APP mentoring program is available for all new hires along with thoughtful onboarding. The candidate must have completed NYS FNP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Wilmot Cancer Institute - APP Fellowship - Nurse Practitioner/Physician Assistant (234196)**

D/N, 8-12 hour shifts, weekends and holidays as needed

The APP Fellowship Program in the Wilmot Cancer Institute is a 1-year postgraduate specialty training for nurse practitioners and physician assistants. The intensive clinical fellowship program includes a core program of cancer care in hematology/oncology subspecialties with rotations through ambulatory and inpatient services. In addition, several specialty rotations to enhance the oncology provider education are included: radiation oncology, palliative care, medical marijuana, and hereditary cancer screening. Training methods include clinical immersion, didactic lectures, and on-line training modules. Qualifications: Nurse Practitioners require a Master's degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant.

**Wilmot Cancer Institute - WCC5 - Nurse Practitioner/Physician Assistant (233335)**

Full Time position (13 hours shifts). Day/Night. Weekend and holidays per unit policy.

WCC5 offers an opportunity for an APP to join an inpatient practice providing direct patient care to oncology patients who have had cancer surgery. Responsibilities include daily management of patient care needs, evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. Opportunities to develop proficiencies in special clinical procedures specific to the patient population. Excellent communication skills with proven ability in exercising independent judgment and initiative. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. NP requirements: New York State Licensure as a NP and eligible for National Certification. PA requirements: NYS licensure and Board Certified as PA.

Cardiovascular Center

**42800 - Cardiac ICU - Nurse Practitioner / Physician Assistant (225109)**

FT position available, D/N, 13 hour shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established high performing APP group. Responsibilities include direct care for all
Available Positions

cardiac surgery and cardiology ICU patients. Our CICU is a quaternary referral Shock Program with high volume ECMO, Impella, and VADs. Independent management (including invasive procedures) in collaboration with dedicated CICU intensivists. Other responsibilities include routine management of post-operative cardiac surgery patients (CABG, valves, TAVR, Aortic replacement, VAD, transplant, etc), post cath lab ICU patients (PCI / Stent, IABP, Impella), participation in QA/PI, educational conferences and rounds, and student precepting. Applicant must be motivated, flexible, and independent and possess excellent clinical skills in critical care. Applicants should have 2 years recent relevant experience and be NCCPA certified or NYS NP eligible. Will consider exceptional new grads.

**Thoracic/Foregut - Nurse Practitioner/Physician Assistant (234401)**

FT position primarily days with some weekend responsibilities

Exciting new opportunity for an expanding practice. Thoracic surgery encompasses surgery on the chest wall and organs contained within the thoracic cavity. Foregut Surgery addresses problems in the esophagus, stomach, and proximal intestine. It is a diverse population and is an amazing opportunity for an APP that wants to work within a truly collaborative environment, caring for a wide variety of patients from reflux disease to oncology needs. We are seeking an energetic APP to help cultivate clinical and procedural skills, examples include but are not limited to providing and facilitation of care through broader access, surgical candidacy, survivorship clinics, acute surgical clinics, feeding tube management, drain management, and chemical decortication. We have a unique care and delivery model that requires.

**UR Medicine Cardiac Care - Nurse Practitioner/Physician Assistant (233737)**

**Urgent Care - Nurse Practitioner / Physician Assistant (230179)**

FT/PT positions available, D/E/N, staggered shifts, 8, 10, 12 hour shifts, weekend and holidays per unit policy.

Looking for experienced NP/PA to work to D/E/N – responsibilities will be to treat patients with minor illnesses and injuries with a treat and release goal of 2 hours or less. Care for patients collaboratively with residents, and attending physicians. Flexibility, enthusiasm and a willingness to care for a diverse patient population in a fast paced environment are required. Effective communication skills are essential. This position is perfect for a self-motivated, pro-active NP/PA who has highly effective critical thinking and prioritization skills. NP’s/PA’s will function with a high degree of autonomy but will work closely with the medical director to ensure quality of care and compliance with standards/guidelines. Prior advanced practice required, with recent experience in acute care of ED or Urgent care strongly desired. Applicants must be NYS NP/PA eligible. New graduates will not be considered. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Hospital Medicine**

**Hospital Medicine APP - Nurse Practitioner/Physician Assistant (234014)**

FT position available; Day/night, weekends and holidays per unit needs.

Exciting opportunity to work in a fast paced Hospital Based Medicine Practice. Responsibilities include direct care for adult medical patients in collaboration with the Attending; admission work-ups, daily management of all patients on the unit including transfer/discharge with heavy emphasis on discharge planning and Interdisciplinary Rounding. Applicant must be motivated, flexible, and independent and possess excellent clinical skills. Requirements: 2 years’ experience preferred. New York State Licensure as a NP and National Certification or NYS licensure and Board Certified as PA. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Medical Services**

**Acute Pain Service - Family Nurse Practitioner/Physician Assistant (231738)**

FT position available. Mon-Fri. No call. No nights. No weekends
Available Positions

Opportunity to join a young, busy, growing Acute Pain Service in the Department of Anesthesiology and Perioperative Medicine. The service provides patient-centered care throughout the hospital, including our Level 1 Trauma Center and many other units at Strong Memorial Hospital (ie. orthopedics, burn-trauma, cardiac surgery), Golisano Children's Hospital, and Wilmot Cancer Center. Daily responsibilities include: performing initial H&P on new acute pain consults, daily rounding, developing pain management plans and communicating those plans to the primary teams, suggesting referrals to other services (PT/OT, psych, etc), and collaborating on complex pain management issues. Will review data and recommendations with Anesthesiologist Attending, as indicated. Strong interpersonal and communication skills a must as position will require candidate to develop relationships with floor and surgical teams in order to provide a better communication platform to advocate for patient care. Will provide improved continuity of care for existing patients on the Acute Pain Service, as attendings and residents rotate on and off the service. Will also assist with acute pain procedures. Will also partake in quality initiatives such as the development, implementation, and evaluation of comprehensive perioperative, opioid-sparing, and enhanced recovery after surgery (ERAS) protocols. In addition to adult acute pain, we are piloting service lines for pediatric acute pain and transitional pain services (for opioid weaning in high risk patients) that APP will participate in as well. Experience in postoperative pain management a plus, but not required. New graduates welcome to apply. Demonstrated clinical competence, superior verbal and written communication skills, interpersonal effectiveness and customer relation skills, computer competence and must have an active desire to learn. The position influences the quality and delivery of care in various roles including consultant, researcher, mentor, and practitioner. This role may be unit, program, or service based and is involved in continuous quality improvement initiatives.

**19200/G9200- Inpatient Medicine in Psychiatry - LPN-Proficient (226819)**

Full time positions available, D/E/N, 8 & 12 hour shifts, weekends and holidays per unit policy

Exciting opportunity for LPNs to join a unique and expanding unit, only a handful of similar units in the country. Currently a 20 bed unit, with an additional 10 bed unit opening July 2021. Adult medical/surgical units for patients with active co-morbid psychiatric and/or substance use disorders. This unit is looking for flexible, enthusiastic and committed LPNs to join our team. Willingness to care for a varied patient population in a changing environment a must! Primary tasks will include assisting RN staff in all patient care within the scope of a NYS LPN and under the direct supervision of an RN. Previous acute care experience a plus.

**CPEP - Comprehensive Psychiatric Emergency Program - LPN-Proficient (229006)**

FT position available, D/E/N, 8 & 12 hour shifts, holidays and weekends per unit policy.
Available Positions

The Comprehensive Psychiatric Emergency Program (CPEP) is seeking LPNs for an exciting opportunity to work on a team comprised of interdisciplinary clinicians serving patients across the lifespan with psychiatric mental health conditions. The CPEP encompasses the primary Triage and Screening Area; 4 Extended Observation Beds / 2 Intensive Management Beds. Approximately 11,000 patients are evaluated annually. The LPN will collaborate with the RN on managing patients while they await evaluation and/or have extended stays within the CPEP environment. Intensive management of acute psychiatric conditions is often required. This a dynamic environment with a highly skilled staffing contingent prepared to assess complex patient presentations in order to determine appropriate intervention and disposition. Current NYS licensure as an LPN required.

**Medicine in Psychiatry Service Outpatient Clinic - LPN (232957)**

FT position, Primarily Days, 8 hour shifts.

This is an exciting opportunity to join our primary care practice in Psychiatry. This practice is an NCQA certified patient centered medical home and provides comprehensive outpatient medical and psychiatric care to adults over the age of 18. Our multidisciplinary team provides care for chronic disease management, health maintenance and acute episodic care. Responsibilities include direct patient care, rooming patients, telephone management, patient education, and coordination of care. Must possess strong communications and organizational skills. Medical and psychiatric experience preferred.

**Strong Recovery - Methadone Maintenance Program - LPN - Proficient (231850)**

FT position 40 hours, primarily days, weekend rotation

Recovery’s Opioid Treatment Program (OTP) and Chemical Dependency Outpatient Program (CD-OP) located at UR Brighton Health Center. The OTP provides methadone maintenance treatment and dispenses the medication with a computerized system. Reports to the Strong Recovery Nurse Manager. Excellent Opportunity for someone with a strong commitment to high quality patient care, substance use disorder treatment and delivering care within an ambulatory setting. Candidate requires strong communication skills, teamwork values and a customer service philosophy in delivering patient-family centered care. Previous experience in substance use disorder treatment and experience in psychiatric mental health nursing preferred. Licensed Practical Nurse with an active New York State license in good standing required.

**Strong Memorial Hospital**

Research Nurse (233558)

8 AM-4:30 PM

Position Summary: This position supports the Cardiology Division as a research nurse coordinator for the clinical operations of the unit. This position requires a nursing degree with strong clinical skills, with a background in cardiology nursing. Typical duties will include but are not limited to: assessing clinical feasibility of newly proposed projects, evaluating study protocols regarding standard of care and research-oriented tasks, evaluating time effort needed to complete clinical tasks and study procedures and visits related to conduct of the studies, assisting unit manager and director with the above information toward assessment and preparation of budgets for the studies. The duties will also include conducting study protocols as the primary coordinator being responsible for enrollment and entire conduct of given study under the direction of Principal Investigator. On-call responsibilities are expected and dependent on individual study protocols. This position will assist the administrative efforts of the Director of the Unit regarding regulations of WIRB, RSRB, Patient Accounting, and the funding sponsors in study start-up and management of pharmaceutical and device clinical trials. This person will be committed to providing high quality research efforts on the Cardiology Division's behalf. Reports to Director of the Cardiology Clinical Trials Unit

Responsibilities: Coordinates the administrative details required to initiate and conduct human subject research, such as, receiving, distributing, and explaining study information, including protocol, and human subject recruitment materials to immediate team members and relevant others. Ensures all immediate and extended team members understand and adhere to all aspects of all approved protocols, procedures and standards for documentation and communication. Under general direction from the Principal Investigator, trains staff on details of protocol, including inclusion and exclusion criteria, informed consent procedures, study activities, process for source documentation and case report form (CRFs) completion, and adverse event reporting. Recruiting/screening/consenting/enrollment of patients, record reviews and interviews, history and physicals across multiple units. Dispensing of investigational medications and devices, performing procedures as required by protocols (obtaining lab specimens, performing electrocardiograms, collecting data while observing electrophysiology, diagnostic, interventional cardiology procedures, exercise testing, drawing of bloods, etc.). Develop good working relationship with sponsors and multiple research institutions to foster a positive research environment and attend study Investigator/Coordinator meetings as required for study start-up. Assist in training new staff members within the department. Filling out case report forms, creating patient instructions and calendars, scheduling patient appointments, and assisting the investigators as needed. Reviews and documents the dispensing and returning of study materials (such as study drugs and devices). Ensures additional training is provided to ensure changes to protocol and documents are communicated and adhered to. Other duties as assigned.

Requirements: Nursing degree required. Strong clinical skills; or equivalent combination of education and experience. Cardiology background and research experience is preferred. Knowledge of word processing and data analysis software. Professional Research Coordinator Certification (i.e. SoCRA or ACRP) preferred.

1:30 PM-10 PM; OCC WKENDS/HOL

**Role:** Performs a variety of technical assignments for the Department of Anesthesiology. Exercises high degree of skill, judgment, and knowledge of the terminology, common procedures, and practices of the assigned area, including the set-up of medications and supplies in both the work room and mobile carts and anesthesia equipment set-up and troubleshooting.

**Specific Responsibilities:** Under limited direct supervision: Assist anesthesia providers, including: preparation of anesthesia equipment prior to the patient's arrival, placement of equipment in the operating rooms, ensuring cleanliness of anesthesia equipment, cart and machine set-up of supplies and medications based on case variables including: patient age, case type and case length, between cases and at the end of the day in each operating room, work room and mobile cart. Ensure availability of specialized anesthesia supplies required for cases in designated operating rooms. Perform moderate to advanced equipment set up, calibration, operation and troubleshooting. Participate in the Cell Saver and Liver Transplant Programs including on-call procedure. Perform set-up and support of ectopic procedures for anesthesia care ensuring proper equipment is in place for out-of-OR procedures. Function as a resource and support person for Anesthesiology providers. Perform non-waived (i.e. TEG, ABG, Glucose) Point-of-Care laboratory testing as requested by anesthesia providers. For this function, the anesthesia technologist will report directly to the anesthesiologist clinical coordinator.

Performs other duties as assigned by the Shift Supervisor or Operations Manager.

**Qualifications:** A two year college education which included technical training closely related to this position and 1-2 years related experience; or an equivalent combination of education and experience is required. Licensure as required by New York State for the performance of point-of-care testing.
