The opportunity to learn something new is endless regardless of experience level. This is a high energy unit which focuses on patient care delivery with an emphasis on individual/professional growth is promoted and encouraged. New graduates welcome!

OB/GYN Nursing

3-1200 - High Risk Antepartum/Postpartum - Registered Nurse-Level II (203638)
FT position available, D/N, 8 & 12 hour shifts, holidays, and weekends per unit policy

Provide direct care to high-risk antepartum and postpartum women with medically or obstetrically complicated pregnancies. Collaborate with physicians, nurse midwives and social workers to provide the highest quality care to the high risk patient population. Demonstrate good communication skills and the ability to prioritize and problem solve. In addition to the primary position to this unit, employees are oriented and trained to various competencies/modes of care across the OB service. Floating among the units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. 2-3 years of RN experience required, OB experience helpful but not necessary.
Available Positions

**3-1400 - Labor & Delivery - Registered Nurse-Level II (203647)**

FT positions available (36 hours), D/N, 8 & 12 hour shifts, holidays and weekends, on call responsibilities.

Provide direct care to high-risk antepartum, intrapartum and postpartum women with medically or obstetrically complicated pregnancies, in collaboration with physicians and social workers in Labor and Delivery. Demonstrates good communication skills and the ability to prioritize and problem solve in a fast paced environment. In addition to the primary position to this unit, employees are oriented and trained to various competencies/modes of care across the OB service. Floating among the units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. Minimum one year OB or Critical Care experience preferred.

**3-1600/3-3600 Birth Center - Registered Nurse-Level II (203649)**

PerDiem position

This position focuses on care of low to moderate risk women and healthy newborns, with an emphasis on education and impassioned support of the mother-baby dyad. Collaborate with physicians, nurse practitioners, lactation consultants, fellow nurses, and social workers to provide the highest quality care in a culture of teamwork that values integrity, compassion, accountability, respect and excellence. Expectation is to provide patient and family centered care ALWAYS, especially in challenging situations. Excellent communication skills, ability to prioritize and problem solve, comfort with electronic computer systems, and an aptitude for quick learning are required. In addition to the primary position to this unit, employees are oriented and trained to various competencies/modes of care across the OB service. Floating among the units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. 1 full year of RN experience required, OB experience is preferred but will consider applicant that can speak to a passion for obstetrics.

**Pediatric Nursing**

**41800 - Pediatric Intensive Care Unit (PICU) - Registered Nurse-Level I-II (202221)**

FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.

The Pediatric Intensive Care Unit (PICU) seeks motivated individuals with a passion for caring for critically ill children and their families. The ideal candidates demonstrate critical thinking, ability to adapt in a rapidly changing patient population, and exceptional communication with patients, families and colleagues from all disciplines. The PICU nurse will become an expert at providing care to a wide variety of patient conditions from infancy to adolescence. Diagnoses include, but are not limited to, complex medical conditions (respiratory failure, sepsis, and multisystem organ dysfunction), pre and post operative conditions, multiple trauma including neurologic compromise, as well as children needing acute management of chronic illnesses. The PICU nurse balances the high technologic needs of critically ill patients with the holistic needs of children and their families.

**42800 Pediatric Cardiac Care Center (Unit Expansion) - Registered Nurse-Level II (202984)**

FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.
Available Positions

This newly expanded unit will be state of the art. Exciting opportunities await RN's looking to work in a fast paced pediatric unit caring for surgical and medical patients with cardiac disease. The Pediatric Cardiac Care Center provides state of the art nursing care to children and young adults with congenital heart defects undergoing cardiothoracic surgery, and cardiology patients with known or newly diagnosed cardiac disease. This specialized unit delivers comprehensive care through a multidisciplinary approach from admission through discharge. The ideal candidate must demonstrate strong critical thinking and communications skills, and be able to manage highly acute, complex patients in a rapidly changing environment.

7 North - Pediatric Hematology/Oncology - Registered Nurse-Level II (202725)
FT position available, D/E/N, 8 & 12 hour shifts, weekends and holidays per unit policy

Become part of a nursing team dedicated to the care of children with hematologic/oncologic diagnoses. Leading care of the pediatric patient/family is a challenging, fast paced environment and requires strong organizational, time management, and critical thinking skills. The nursing staff has developed diverse competencies. Nurses function as an important member of the pediatric interdisciplinary team. Pediatric and/or acute care experience preferred. Commitment to customer focused, family centered care, focusing on general surgical/renal/GI clinical issues and their unique psycho-social needs.

Neonatal Intensive Care - Registered Nurse-Level I-II (203119)
FT positions available. D/E/N, 8 and 12 hour shifts, every other weekend and holidays per unit policy.

The NICU is the only one of its kind in the Finger Lakes Region. It's a highly specialized, nationally recognized center providing the highest level of care available for sick or premature newborns, including advanced treatment for respiratory failure and heart disease. Demonstrates ability to work in a high tech, fast paced environment. Excellent organizational and conflict resolution skills. Commitment to customer focused, family centered care.

Pediatric Emergency Department (Peds ED) - Registered Nurse - Level II (199847)
FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy, on-call responsibilities.

The Peds ED offers family centered care to those under the age of 19, seeking care for urgent and emergent issues. The unit is comprised of 18 general care beds, 1 critical care bed, 4 urgent care beds and the use of the 7 bed trauma bay which we share with the adult ED. The tertiary care offered at GCHaS has a complex case mix. From treat and release to acute critical care/trauma the staff are trained to function in a fast paced and challenging environment. Minimum of one year experience in pediatric acute care or ED experience. Provide direct care to pediatric patients/families in a fast paced collaborative environment. Demonstrates good interpersonal skills, strong prioritization and organizational skills, flexibility and clinical competence.

Pediatric Specialty Nurse with the Division of Adolescent Medicine - Registered Nurse - Level II (203579)
PT position available (24 hour), primarily days
Available Positions

The Division of Adolescent Medicine is looking to hire a nurse to be a part of their dynamic interdisciplinary team providing care to patients in the outpatient and inpatient setting. This nursing role would provide direct and indirect patient care services including but not limited to: Outpatient services: Obtain vital signs, perform orthostatics and assist with gynecologic procedures. Review and update electronic medical record including medication reconciliation. Monitor and assist with managing patient flow during regular clinic hours. Triage phone calls from patients, families and providers and consult with health care providers as necessary. Monitor and manage weekly clinic schedule and adjust accordingly. Work with internal and external providers such as the WNYCCCED care manager and parent peer mentors to ensure access to care and care coordination as indicated. Monitor clinic utilization and track patient satisfaction. Provide patient/family/provider education. Review incoming clinical information to assess for appropriateness of referrals. Inpatient services: Assist inpatient team with the care of eating disorder patients including discharge coordination, therapeutic meals, and weekly inpatient eating disorder rounds. Identify patients eligible for eating disorder studies and refer to study coordinator. This is a grant funded position that will be hired year-to-year with an end date. Minimum 2 years experience required. Experience with adolescents preferred.

**Pediatric Surgical Suite - Registered Nurse-Level II (202263)**

FT positions available, D/E/N, 8 and 10 shifts, week-end, holiday and on-call responsibilities.

Opportunity to work in a family oriented pediatric surgery center with in-patients and out-patients. Pediatric, PACU, PICU, Med/Surg, and/or critical care experience preferred. In this fast paced and challenging unit, RN's work together as a team in the variable settings of Preanesthesia, PACU, and Post-operative Discharge. Demonstrates flexibility with scheduling to meet unit needs.

**Pediatric Transport Nurse - Registered Nurse-Level III (199650)**

FT positions available (36 hours), D/E/N—12 hour shifts. Every third weekend, rotating holiday requirements, and occasional on call responsibilities.

The pediatric transport program is seeking ambitious, independent pediatric critical care nurses for the role of pediatric transport nurse. The program provides interfacility transport of critically ill children from outlying hospitals in the Upstate NY region to Golisano Children's Hospital at Strong. In addition, the transport nurse is an essential resource for the entire pediatric service by providing advanced intravenous access, phlebotomy, urgent and emergent response programs, and support for pediatric trauma patients, throughout the Children's Hospital. The transport program offers ongoing continuing education, opportunities for advancement, certification and educational outreach. The full time position is split, 24 hours per week in the transport role, 12 hours a week in the applicant's preferred unit: Pediatric Cardiac Care Center, Pediatric Intensive Care Unit, or Pediatric Emergency Department. Experienced nurses only. Three years of pediatric critical care experience preferred; combined relevant experiences will be considered.
Available Positions

Health Sciences

**Assistant Director, URMC Special Patient Services (199933)**

8 AM-4:30 PM

Overview: The University of Rochester offers a world-class Executive Patient Services program which includes the departments of Special Patient Services and Executive Health. These medical concierge and executive physical programs provide enhanced customer service to the University of Rochester's major donors, identified prospective donors, and corporate clients and offers best-in-class preventive health assessments. The programs provide these individuals and their families with high-touch service under a "one call does it all" access program. The primary program objectives are: To provide a comprehensive, outstanding Executive Health physical program to existing and companies, new companies, and individual executive clients. To further strengthen existing relationships between the University and its major donors and corporations. To establish and strengthen relationships with newly identified companies and prospects for the University. Reporting to the Executive Director for Executive Patient Services, the Assistant Director will provide the necessary coordination of stewardship with current major donors, strengthening relationships with new prospective donors, as well as, organizing and facilitating a robust Executive Health program. Specific Responsibilities: Collaborates cohesively with all members of the Executive Health team to organize and smoothly facilitate the Executive Health physical program. Including, but not limited to, gathering medical health history, telephone interviews, scheduling consultations with faculty members, and assisting with the executive physical. Actively participating in delivering the highest quality executive patient care including exercise tolerance testing, EKG, pulmonary function testing, vision and hearing screening and other tasks as required. Works closely with department chairs, physicians, and staff to facilitate inpatient and outpatient visits for our existing donors and corporate partners. Documents patient encounters and progress through the Executive Patient Services process, act as a liaison between Advancement gift officers, Executive Patient Services staff and donors. Provides outstanding communication and stewardship with University of Rochester donors and corporate partners. Anticipates the need for appropriate materials for the Executive Director for effective decision making and preparation for meetings and lunches. Proactively prepares and compiles background information needed in preparation for meetings, events and activities. Arranges follow-up meetings, correspondence, and activities as it relates to patient stewardship, cultivation and relationship building. Follows all HIPAA regulations and ensures compliance throughout the implementation, evaluation, and continuance of the program. Provides program coverage both during business hours and after hours via the 24/7 on call answering service. Other duties as required by the Chief Medical Officer and the Executive Director of Executive Patient Services. Requirements: Registered Nurse with current NY State license and a minimum of 5 years of nursing experience. Master's degree preferred, ideally as a NYS licensed Nurse Practitioner or Physician Assistant. Embraces the importance of patient satisfaction and patient-centered care. Must have experience collaborating and building consensus among diverse constituencies; excellent organizational and communication skills are required. Ability to work with a high level of

Discretionary skills, critical thinking and excellent communications are essential to act as a liaison between physicians/providers and Bed Management staff in order to facilitate the admission of acute care patients. Transfer Center: Facilitates timely transfer of patients from acute care hospitals to enter Strong Memorial Hospital or Highland Hospital. Assures internal and external customer satisfaction. Acts as a liaison between referring physicians and accepting physicians to facilitate communication regarding the smooth transfer of acute care patients. Triages appropriately to attending physician and service as required. Maintains database of all calls (transfers or consults) and status of calls. Promotes a positive image of the University of Rochester Medical Center by providing customer-friendly service at all times. Qualifications Licensed Registered Nurse with current NYS registration and minimum 3-5 years recent acute care hospital or comparable experience. The ACC candidate must possess excellent communication and critical thinking skills as well as demonstrate strong interpersonal skills and customer service skills. Must have flexibility to meet scheduling needs.

**Project Nurse (202701)**

General Purpose: Coordinate, develop, implement, evaluate, and manage a comprehensive Performance Improvement and Patient Safety (PIPS) program for the Department of Surgery in the Division of Acute Care/Trauma in a highly specialized regional quaternary program. This position will include data collection, database management, reporting, writing, and projects with an emphasis on the development of performance improvement plans and the overall PIPS program for the Trauma service. Participate in routine clinical team, program, department, and hospital meetings. Responsible for supporting the PIPS process, trending and analyzing data, and ensuring compliance for American College of Surgeons, Joint Commission, New York State, and other regulatory site visits and quality initiatives. Responsibilities: Coordination of Trauma Care: Work with the trauma team to provide coordinated care of injured patients across the spectrum care, including prehospital, emergency department, operative and interventional procedures, critical care, rehabilitation, and recovery. Clinical Practice Involvement: Assess the needs for policies, procedures, protocols, supplies, and equipment related to the trauma patient, and works in coordination with the trauma program director, the trauma program manager, and multidisciplinary teams involved in the care of the patient. Identify and coordinate the development and implementation of clinical pathways, protocols, and guidelines for the trauma patient, and incorporate members of multidisciplinary teams as needed. Utilize focused review of individual patient cases, and develop new policies and procedures resulting from evidence-based practices. Summarize Trauma Program Performance: Summarize performance in regular reports and as directed by the trauma program manager. Administrative Responsibilities: Coordinate the implementation and communication of standards and protocols to multidisciplinary teams, including medical providers, nursing, technical, and administrative staff. Monitor and maintain documented standards through routine competency review, including direct
Available Positions

observations, review of records, and feedback from staff. Maintain a close, working relationship with the Trauma registry staff to ensure appropriate data is collected to meet the ACS, NYS, and governing agency standards. Assist the Trauma Program Manager with the operational, personnel, and financial aspects of the Trauma Program. Quality and Patient Safety Monitoring: Develop, implement, and evaluate a quality plan which is multidisciplinary and patient-outcome focused. Identify quality issues through monitoring clinical team adherence to protocols and best practices. Perform focused review of sentinel events, such as deaths, morbidity, transfers, co-morbidities, hospital length of stay, complications, variances, and observance of protocols. Enter performance improvement issues in the registry, and ensure that all issues are addressed and closed in a timely fashion. Coordinate routine peer review and operational meetings to review information. Educational Support for Trauma Program Initiatives: Develop and implement programs for hospital providers and staff based on appropriate leaning need in order to ensure that trauma patient care is standardized and consistent. Participate in mandatory educational activities, as well as other development opportunities based on professional goals. Professional Development: Represent the Trauma program in regional and professional meetings. Remain current through involvement in research, analysis, and distribution of results. Patient Family Centered Care Skills: Act in a professional manner in all interactions, making patient family centered care as important as the most advanced care of the trauma patients and their families. Recognize the importance of a respectful and professional demeanor when assisting team members, customers, and all internal and external contacts. Commit to having difficult conversations in a timely and professional manner with all internal and external customers. Qualifications: Individual must be a graduate of an accredited school of nursing and currently licensed in NY State as a registered nurse with a minimum of two to three years of clinical experience in trauma patient care, including experience in emergency or critical care nursing. Demonstrate knowledge in the practice of trauma care and injury prevention with considerable knowledge of the diverse multidisciplinary resources available in a Level I Trauma Center, and possess a basic understanding of research methodology. Knowledge of the state’s emergency services system and trauma system design is desirable. Self-directed and resourceful in problem solving and critical thinking. Handle multiple priorities effectively. Strong organizational and planning skills. Fascicle with data reporting and Excel report writing. Excellent time management skills.
