**Wilmot Cancer Center - Clinical Trials Office - Clinical Research Nurse - Registered Nurse, Level II (242536)**

Full Time Day Shifts

Seeking a team focused professional with a passion for oncology. This is an exciting opportunity to join the Clinical Trials
Office as part of the Wilmot Cancer Center (WCC) within the University of Rochester Medical Center (URMC) as a Clinical
Available Positions

Research Nurse (CRN). The CRN works closely with and is guided by the Principal Investigator, to ensure the integrity and quality of our clinical trials are maintained and conducted in accordance with the Food and Drug Administration, Institutional Review Board (IRB) approvals, Office for Human Research Protections (OHPP) and URMC/WCC policies and procedures. This nursing role independently provides nursing care; identifies and communicates the impact of the research process on patient care; adjusts interventions based on findings; and reports issues/variances promptly to the research team. The CRN administers research interventions; collects patient data according to protocol specifications; evaluates the patient response to therapy; and integrates evidence-based practice into nursing practice so as to best protect the health and safety of research participants. Join a team that is growing and improving the clinical trial experience for oncology patients. Our CRN’s are developing and changing the way we manage care for clinical trial oncology patients. The CRN role allows you to apply your nursing and oncology expertise without leaving the field of nursing. In reviewing research and nursing literature the CRN maintains a working knowledge of their area(s) of expertise and assigned working disease group. Excellent communication skills, detail oriented and the ability to work autonomously with multidisciplinary teams are required to be successful in this role. BSN with 1-2 years oncology experience and/or clinical research experience preferred. Oncology nursing certification preferred. Knowledge of computer databases, word processing and spreadsheets required.

signs, recording health information in e-record chart, patient prep and assisting the physician during procedure, wound care, medication administration, and facilitating patient care and faculty needs. Excellent interpersonal and communication skills are necessary.

Cardiovascular Nursing

**42800 - Cardiac ICU - Licensed Practical Nurse, Proficient (245231)**

FT position available, D/N, 8 & 12 hour shifts, weekend and holidays per unit policy

The Cardiac Intensive Care Unit offers a unique and exciting opportunity for new graduate and experienced LPN's alike. Our team provides state of the art “Heart Care” to all of Upstate New York. Our unit specializes in patients requiring mechanical circulatory support devices, high risk cardiac surgery, left ventricular assist devices, as well as heart transplants. Nurses in the CICU are supported by 24/7 coverage from Advanced Practice Providers which fosters strong multidisciplinary relationships, promotes critical thinking, all while providing an increased opportunity for autonomy within your scope of practice. Our orientation process is unique to our unit and has been designed to support the development of nurses by providing the opportunity to work with both LPN's and RN's throughout orientation. Our hospital has been recognized with the Center of Excellence Gold level for Excellence in Life Support for patients requiring ECMO by the national Extracorporeal Live Support Organization (ELSO). Don’t miss the opportunity to be a member of this rapidly growing multidisciplinary team.

**43600 Hear Center - LPN-Proficient (241054)**

FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy.

We are seeking motivated team individuals that are dedicated to patient and family centered care as they practice excellent clinical skills in a multidisciplinary cardiology environment with a focus on patient education for preventative cardiac care. A 21-bed Step Down cardiac unit that cares for patients throughout the continuum of pre- procedure, post procedure and transitional care planning. Populations of patients include: Myocardial infarction, heart failure, pre and post cardiac interventional procedures or surgery. Primary tasks will include assisting RN staff in all patient care within the scope of a NYS LPN and under the direction and supervision of a RN.

**71200 Thoracic- LPN-Proficient (226627)**

Full Time position available (40 hours) 8 hour shifts. Flexible scheduling (8:00 am – 7:00 pm)

Mobility Specialist needed for an Enhanced Recovery After Surgery (ERAS) program. This role will focus on early mobilization of Colorectal and Thoracic Surgery patients. Main duties will include getting patients out of bed to sit in the chair for the majority of the day and ambulating patients 4 times per day. As a Mobility Specialist, you will need to work collaboratively with Nursing, Physical Therapy, Social Work, Acute Care Coordinator, and ERAS coordinator. We are looking for a highly positive, team-oriented individual who will encourage patients to be an active member of their recovery process.
Available Positions
