Adult Acute Shock Resource Nurse - Registered Nurse - Senior Level III (223433)

FT position available, D/E/N weekends, holidays, and on call required.

Exciting opportunity for experienced Critical Care Registered Nurses to join a dynamic team providing support for acute shock patients requiring evolving technologies such as ECMO (ExtraCorporeal Membrane Oxygenation) and other hemodynamic circulatory support modalities. The Adult UR Cardiac Intensive Care Unit is proud to be able to provide our community with state of the art “Heart Care” serving all of Upstate NY and the North Country. The primary role of the Acute Shock Coordinator is to provide monitoring, support and education for the technology, the patients, the bedside CICU RN as well as all members of the team. Additional responsibilities include quality assurance and performance improvement activities in addition to data collection and input (i.e ELSO database). Qualifications: CCRN, ability to work collaboratively with a multidisciplinary team in a fast paced challenging environment. Demonstrate strong interpersonal and communication skills. 3-5 years of adult critical care experience. Current ECMO specialist highly desirable.
Available Positions

Card Nursing - Advanced Heart Failure Program RN - Level II (236817)

FT position available, primarily days, 8 or 10 hour shift

Under the general guidance of the practice physicians and advanced practice providers, the RN is primarily responsible for care and coordination of advanced heart failure patients in the outpatient setting. Serves as an important liaison for community agencies. Facilitates patient transition from inpatient hospitalization and works closely with inpatient care coordinators. Performs direct patient care duties, patient education and triages patient phone calls. Maintains current knowledge of medical diagnoses and therapeutics in the subspecialty of Cardiology. Current Registered Nurse licensure, ACLS and CPR Certifications required. 3-5 year's experience desired; with at least 2 of those in cardiology. Requires excellent clinical, critical analysis, communication and organizational skills. Must be able to function independently within the limits of the position. Demonstrated ability to work as a member of a team. Knowledge of standard of care treatment for heart failure including VADs and heart transplantation preferred.

Cardiac Cath/EP Lab - Registered Nurse - Level I - II (236290)

FT positions available (40 hours), Primarily days with on call responsibilities (must live within 30 minutes of the hospital).

Become part of an exciting procedure team caring for patients with cardiac and vascular conditions. This is a growing field focused on the treatment of vascular, electrical conduction, coronary disease, and structural heart diagnosis. Responsibilities include direct patient care and procedural support in acute and non-acute situations in a dynamic setting. Critical care experience or applicable medical/surgical experience required.

Cardiac Cath/EP Lab Holding Area - Registered Nurse - Level I - II (236289)

FT/PT positions available. Primarily week days with some late and night responsibilities.

Join an exciting professional multidisciplinary team involved in the care of patients with cardiac and vascular conditions. Our fast-paced expanding fields include the treatment of patients with vascular, electrical conduction, coronary diseases, and structural heart diagnosis. Responsibilities include providing direct patient care and procedural support in acute and non-acute situations. We provide dynamic pre and post procedure care as well as PACU recovery. Benefit of shift flexibility with minimal off shift requirements. Critical care experience or applicable medical/surgical experience required.

Cardiac Cath/EP Lab Holding Area - Registered Nurse - Level II (236286)

FT/PT position available, nights, 12 hours shifts (630 pm to 0700 am).

Join an exciting professional multidisciplinary team involved in the care of patients with cardiac and vascular conditions. Our fast-paced expanding fields include the treatment of patients with vascular, electrical conduction, coronary diseases, and structural heart diagnosis. Responsibilities include providing direct patient care to patients requiring overnight observation post procedure.
Available Positions

**Cardiac Rehab Phase I - Registered Nurse - Level II (237290)**

Days, Monday - Friday

Must demonstrate flexibility to work closely with a multidisciplinary team in a fast-paced environment to provide education to patients with heart issues. Works closely with staff on 41600, 43600, 43400, cath lab. Must exhibit strong critical thinking, assessment and communication skills. Recognize the need/initiate patient/family health education as related to CAD risk reduction/prevention. Plans for education after assessing the individual learning needs and readiness of the patient/family; provides educational opportunities and documents outcomes. Provides education for STEMI, NSTEMI, elective PCI, cardiac surgery, TAVR and qualifying CHF. Facilitates referrals to outpatient Phase II cardiac rehab programs.

**Dialysis (Acute Unit) - Registered Nurse - Level II (235941)**

FT position available D/E Holiday, weekend and on call per unit policy

Seeking motivated individuals to join UR Dialysis providing inpatient acute hemodialysis to a wide variety of medical and surgical inpatients on three campuses (Strong Memorial, Highland Hospital and FF Thompson). Dedication to teamwork, strong communication skills are essential. Previous dialysis experience is desirable. Primarily Days and evenings with overnight on call responsibilities. A dialysis differential applies after completion of orientation.

**Dialysis (Acute Unit) - Registered Nurse - RESIDENCY OPPORTUNITY - Level I (235939)**

D/E, Night with on-call responsibility

This is a unique opportunity for new graduate nurses or nurses with less than a year experience who are interested in hemodialysis. A brand new residency program of six months will prepare the new nurse to care for hospitalized acute patients who require hemodialysis treatments. The resident will be exposed to learning opportunities for a wide range of medical and surgical patients to build their lifelong foundation of nursing experience. The residency program will be based at the dialysis unit at Strong Memorial Hospital but could include learning opportunities at our other affiliate hospital inpatient dialysis sites (F.F. Thompson and Highland Hospital). Dialysis nursing is primarily Day/Evening for 6 days a week with on call requirements upon completion of orientation as well as a dialysis differential.

**UR Cardiac Care - Ambulatory - Registered Nurse, Level II (237453)**

Per Diem Position, Monday – Friday

This is an excellent opportunity for a motivated, experienced RN to join our innovative leadership team while maintaining your IV and critical thinking skills in an outpatient setting. If you have a strong interest in cardiology and are looking to be a part of a fast-paced clinic caring for patients in a variety of roles, this is the position for you. Our nurses rely on their strong assessment and critical thinking skills when caring for patients in the office and via telephone triage. They collaborate with all members of the care team to provide the highest quality and comprehensive care. This applicant will receive individualized training in telephone triage, exercise stress testing, and pharmacological stress testing. This position includes participation in unit/service activities, strong teamwork, and flexibility. We have four locations in Monroe County and do ask that our staff
Available Positions

is able to rotate to other locations, as needed. Our largest locations are both in Brighton. Two years of nursing experience and cardiology experience preferred.

**UR Cardiac Care Flex Team - Registered Nurse - Level II (230731)**

FT, PT and Per Diem positions available. D/E/N weekends and holidays as required. Straight Night and Evening shifts available.

Unique offering to explore the rewarding nursing care of cardiac patients throughout our Cardiac Care service line with opportunity for professional growth as well as advanced clinical skill building. Patient populations include the continuum of pre-procedural to post-surgical care of patients with varied cardiovascular and thoracic disease states including advanced heart failure and mechanical circulatory support. Flex team members generally complete an eight week assignment on one of our units. Successful candidates will demonstrate flexibility, critical thinking, excellent communication and organizational skills and willingness to work in variable settings and teams. Orientation to the units and new populations are provided. One year of adult med surg or cardiac experience required. ICU experience is a plus. Opportunities for clinical advancement are supported and encouraged. Ask about the potential options for special scheduling arrangements.

**UR Cardiac Care Flex Team - Registered Nurse - Level III (230890)**

The residency program is designed to assist the novice graduate nurse to successfully transition to a competent professional nurse. Nurse must have less than one year prior experience in acute care and plan for a two year commitment upon program completion.

**Clinical Research - G5035 - Level II (230925)**

FT/Perdiem position available. Primarily days Monday-Friday with occasional evenings and nights. Weekends and holidays per unit policy.

Exciting opportunity to be involved in facilitating cutting edge clinical research studies. Become part of a team that advances future medical care through the conduct of important clinical research. Perform clinical aspects of research studies involving infants, children, adults, and families. Responsibilities include: collection of clinical specimens, blood draws, specimen processing, investigational drug administration, and recording accurate data collection. The Clinical Research Center serves primarily outpatients, with occasional overnight study visits. One year minimum as an RN in acute care. Experience in IV and phlebotomy skills a plus. Pediatric experience helpful. Demonstrates flexibility, commitment to teamwork, excellent communication and organizational skills. Visit our website: [https://www.urmc.rochester.edu/clinical-translational-science-institute/clinical-research/clinical-research-center/research-nursing.aspx](https://www.urmc.rochester.edu/clinical-translational-science-institute/clinical-research/clinical-research-center/research-nursing.aspx).

**G-1600 - Adult Admission Unit - Registered Nurse-Level I - II (224906)**

(20 bed unit) FT/PT and per diem positions available, D/E/N, weekends and holidays per unit needs.

Previously on 218 and now on 736 will be part of a new unit opening in June/July 2021 (will have all private rooms). Inpatient adult boarder unit with a focus on admissions with a 24-48 hour length of stay. Join a team of nurses that specialize in care for a diverse spectrum of acute and complex medical patients. This is an exciting, fast paced, rapid turnover unit where nurses demonstrate strong critical thinking and organizational skills. Provide direct care to patients across the age spectrum in a fast paced collaborative environment. Individuals must be creative, flexible, collaborative teamwork, motivated and possess excellent communication skills. New Graduates (level 1) are eligible for the med/surg Residency Program. The residency program is designed to assist the novice graduate nurse to successfully transition to a competent professional nurse. Nurse must have less than one year prior experience in acute care and plan for a two year commitment upon program completion.
Available Positions

OB/GYN Nursing

3-1200 - High Risk Antepartum/Postpartum - Level I - II (236328)

FT position available, D/N, 8 & 12 hour shifts, on call responsibilities, holidays, and weekends per unit policy

Provide direct care to high-risk antepartum and postpartum women with medically or obstetrically complicated pregnancies. Collaborate with physicians, nurse midwives and social workers to provide the highest quality care to the high risk patient population. Demonstrate good communication skills and the ability to prioritize and problem solve. In addition to the primary position to this unit, employees are oriented and trained to various competencies/modes of care across the OB service. Floating among the units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. 2-3 years of RN experience required, OB experience helpful but not necessary.

3-1400/3-1600 - Labor and Delivery - Level II (235613)

FT positions available (36 hours) D/N, 8 & 12 hour shifts, holidays and weekends, on-call responsibilities.

Provide direct care to antepartum, intrapartum, and postpartum (high, moderate, and low risk) patients, in collaboration with physicians and social workers in Labor and Delivery. Expectation is to provide patient and family centered care always. Demonstrates good communication skills and the ability to prioritize and problem solve in a fast-paced environment. In addition to the primary position to this unit, employees are oriented and trained to various competencies/mode of care and delivery across the OB service. Newly hired nurses will be trained to function in the obstetric operating rooms and the obstetric emergency room (triage). Floating among units in order to meet variable needs of volume and acuity is an ongoing expectation of all OB/GYN nurses. Minimum of one year OB or Critical Care experience preferred.

UR Breastfeeding & Lactation Medicine Practice - Nurse Lactation Consultants (CLC or IBCLC) - Inpatient - Level II (235305)

FT (36 hours)/PT position including some weekend and holiday commitment.

A great opportunity to build a team for parents in our community with complex breastfeeding needs! Flexibility is a must in a fast-paced and evolving program! In the inpatient setting, the CLC/IBCLC will work as a team with a Breastfeeding Medicine provider and Medical care teams, seeing parents and babies that may require high levels of care, e.g. healthy newborns, babies with prematurity, failure to thrive, mothers with low milk supply, infections, complex medication regimens and surgeries, etc. In the inpatient setting, the CLC/IBCLC works independently within a team to support breastfeeding starts, challenges, and meet the needs of feeding plans for at-risk or high risk neonates. Promotion of breastfeeding and supporting staff through education and empowerment are also critical pieces of this position. Ideal candidates should have a strong background in lactation care for complex maternal-infant dyads, an understanding of medical concerns in breastfeeding, as well as being detail-oriented, reliable, and competent and facile with electronic documentation tools. The CLC/IBCLC is expected to be an excellent communicator with patients and families, and provide timely feedback and follow up planning to Pediatric and Obstetrical services. The CLC/IBCLC will also have the opportunity to serve as a resource to other members of the team including learners and observers. CLC or IBCLC and RN degree required.
Available Positions

Women's Health Center at Lattimore - Level II (237008)
Full times, 8 hour shifts with flexibility, no week-end or holidays.

RN to work in a fast paced Ambulatory Women's Health Practice. Responsibilities include direct patient care, resource nurse, telephone triage, and fetal monitoring. The candidate must be able to demonstrate flexibility and the ability to work within a team. The candidate must demonstrate excellent customer service skills. The minimum of 2-3 years OB/GYN experience required. Fetal Monitoring, eRecord and Ambulatory experience preferred.

Pediatric Nursing

3-3400/GCH3 - Neonatal Intensive Care Unit - NICU Care Coordinator Registered Nurse-Lvl III Inpt (235779)
FT (40 hours) care coordinator position available, primarily D/E (off shifts as required for clinical need), weekend and holiday per unit direction.

Challenging clinical opportunity for a highly motivated and well-organized individual to facilitate the transition of care for neonates/infants from hospital to home and/or hospital to hospital. Responsibilities include functioning as a liaison with the varied interdisciplinary teams to formulate safe discharge/transfer plans with family, evidence based educational opportunities on the unit and service level, identifying and removing barriers to discharge. Significant opportunity to partner with community resources to meet family needs. Strong organizational skills, communication abilities, problem solving techniques, teaching and interpersonal skills required. Ability to provide direct patient care and bedside education as needed. Flexibility in schedule as needed for optimal coordination of care. BSN degree and 4 years NICU experience recommended.

6 South - Pediatric Cardiac Care Center - Level I - II (230559)
FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.

Exciting opportunities await RN's looking to work in a fast paced pediatric unit caring for surgical and medical patients with cardiac disease. The Pediatric Cardiac Care Center provides state of the art nursing care to children and young adults with congenital heart defects undergoing cardiothoracic surgery, and cardiology patients with known or newly diagnosed cardiac disease. This specialized unit delivers comprehensive care through a multidisciplinary approach from admission through discharge. The ideal candidate must demonstrate strong critical thinking and communications skills, and be able to manage highly acute, complex patients in a rapidly changing environment.

8 South - Pediatric Adolescents/Endocrine/Orthopedic/Pulmonary - Registered Nurse, Level I - II (237556)
FT positions available, D/E/N, 8 & 12 hour shifts, weekends and holidays per unit policy.

We are looking for an individual to become part of a nursing team dedicated to the care of children with
Available Positions

adolescents/endocrine/orthopedic and pulmonary clinical issues. Care of the pediatric patient/family is a challenging, fast-paced environment and requires strong organizational, time management and critical thinking skills. Nurse will develop diverse competencies and function as an important member of the pediatric interdisciplinary team. Must be committed to patient focused, family centered care, focusing on adolescents/endocrine/orthopedic and pulmonary issues and their unique psycho-social needs.

**AC-6 - Ambulatory Pediatrics - Level II (232673)**

FT (40 hours) / PT (24 hours) position available; mostly days with occasional Saturdays and evening hours per unit needs.

Ambulatory Pediatrics is seeking a team oriented pediatric registered nurse to join our multidisciplinary team focused on serving a diverse population of patients and families. Seeking strong candidate with career focus on promoting health equity and inclusion. This is a fast-paced environment providing family centered care within a variety of outpatient clinic settings including primary care and specialty care. Nurse must have 2 years pediatric nursing experience, preferably outpatient or community health based. Requires excellent problem solving, prioritization, and communication skills. Must be flexible to adjust to the changing needs of all of our ambulatory care areas. American Sign Language or Spanish fluency preferred but not required.

**AC6 - Pediatric Practice - Ambulatory Pediatrics - Nurse Case Manager - Registered Nurse, Level II (237465)**

FT (40 hours) position available: Monday – Friday days with some late shifts and occasional Saturdays.

Golisano Childrens Hospital's Pediatric Practice is in search of a team oriented nurse with pediatric experience to join our multidisciplinary team providing family centered primary care to a diverse population of patients and families. Seeking a strong candidate with a career focused on promoting health equity and inclusion. This role provides nurse case management for patients with complex medical needs by developing and implementing a care management plan based on patient/caregiver/provider developed goals and preferences, and disease states to promote improved health care outcomes and quality of life. The ideal candidate will have a Bachelor's degree and 2-3 years pediatric nursing experience with strong organizational and communication skills as well as experience working within the electronic medical record. The nurse case manager will work effectively as a member of the health care team by collaborating on population health management, complex care and transitional care management. Sign Language or Spanish fluency preferred but not required.

**Cleft and Craniofacial and Pediatric Team - Pediatric Specialty Nurse Team Coordinator - Level II (236878)**

FT position (40 hours) Monday – Friday

An exciting opportunity to be part of the dynamic, high-functioning multidisciplinary Cleft and Craniofacial Team as well as Pediatric Plastic Surgery program. Will facilitate the function and efficiency of the Cleft and Craniofacial Team. This includes ensuring the provision of coordinated care for patients and families and assisting with understanding, coordinating,
Available Positions

and implementing treatment plans. Acting as a liaison between patients, families, and the Craniofacial Team, will manage the flow of busy clinic days and ensures appropriate follow-up and communication with outside providers. There will be opportunities for participation in quality improvement and research projects. Other job responsibilities include establishing effective relationships with patients and families, making referrals, and advocating for services. The RN Team Coordinator will work closely with the Craniofacial Nurse Practitioner performing inpatient and outpatient clinical duties. Strong interpersonal and communication skills are essential. Must also have excellent organizational skills and attention to detail. 2 years pediatric nursing experience preferred.

**Department of Pediatric Allergy and Immunology - Registered Nurse - Level II (235946)**

FT/PT position available; mostly days

The Department of Pediatric Allergy is seeking a team oriented yet independent pediatric nurse to work within our multidisciplinary team to provide patient and family centered outpatient care. This position involves nursing care in clinic that will include patient monitoring and assessment while administering allergy shots, allergy testing, oral food/drug challenges, and food allergy trials as well as other clinic/patient support duties. When not in clinic this position will provide telephone triage/management to support the care of the patients seen by The Division of Pediatric Allergy. Nurses must have 2-3 years nursing experience with pediatric experience preferred but not required. Excellent problem solving, prioritization and communication skills are required. Must be able to use independent judgment skills within the support of the multidisciplinary team. Telephone Triage and phlebotomy skills preferred but not required.

**Golisano Children’s Hospital Critical Care Flex Team - Level III (234294)**

FT positions available, D/N, 12 hour shifts, weekends and holidays per unit policy, occasional on-call responsibilities.

This dynamic position requires the ability to work in a fast-paced environment with changing priorities. The position offers exposure to a variety of critical care specialties including the NICU, PICU, PCCC, and Peds ED. Team members will develop a diverse skill base and expertise in the care of critically ill pediatric patients. The ideal candidates will be able to demonstrate strong critical thinking, communication, and organizational skills. Must have a minimum of 2 years of critical care experience.

**Neonatal Intensive Care - Level II (234886)**

FT positions available. D/N, or straight nights, 8 and 12 hour shifts, every other weekend and holidays per unit policy.

The NICU is the only one of its kind in the Finger Lakes Region. It's a highly specialized, nationally recognized center providing the highest level of care available for sick or premature newborns, including advanced treatment for respiratory failure and heart disease. Demonstrates ability to work in a high tech, fast paced environment. Excellent organizational and conflict resolution skills. Commitment to customer focused, family centered care. Pediatric experience preferred.

**Pediatric Emergency Department (Peds ED) - Registered Nurse - Level II (233411)**

FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy, on-call responsibilities.
Available Positions

The Peds ED offers family centered care to those under the age of 19, seeking care for urgent and emergent issues. The unit is comprised of 18 general care beds, 1 critical care bed, 4 urgent care beds and the use of the 7 bed trauma bay which we share with the adult ED. The tertiary care offered at GCHaS has a complex case mix. From treat and release to acute critical care/trauma the staff are trained to function in a fast paced and challenging environment. Minimum of one year experience in pediatric acute care or ED experience. Provide direct care to pediatric patients/families in a fast paced collaborative environment. Demonstrates good interpersonal skills, strong prioritization and organizational skills, flexibility and clinical competence.

**Pediatric Imaging Sciences - Golisano Children's Hospital - Level II (233710)**

FT (36 or 40) position available, D/E; staggered 8/10/12 hr shifts available; straight evening hours available.

Minimal on call responsibilities for weekends and holidays. This unique unit seeks passionate and motivated individuals to care for a wide variety of inpatients and outpatients across the pediatric age spectrum undergoing diagnostic CT, MRI, PET MRI, Ultrasound, and GI/GU imaging. Population also includes sedated procedures, including pre and post/minimal to deep sedation and general anesthesia for IR and MRI. Although predominately pediatric, this area also cares for adult patients undergoing cardiac CT, MRI and PET/MRI. Must be flexible and able to adapt/prioritize readily to changing responsibilities in a fast paced environment. Strong assessment, excellent communication and good IV skills are essential. Expectation is to provide high quality patient and family centered care, especially in challenging situations. 2-3 years of acute pediatric or mixed adult/pediatric experience required. Radiology, Pediatric Critical Care, Pediatric PACU or Pediatric ED experience preferred. PALS & ACLS certification required within 1 year of hire.

**Pediatric Operating Room - Level I - II (234674)**

FT positions available. D/E/N, 8/10/12 hour shifts, holidays, weekends, and on-call responsibilities.

Seeking enthusiastic individuals, excited to be a part of a multidisciplinary team that cares for pediatric patients across the age continuum. Specialties include general surgery, urology, dental, OMFS, neurosurgery, plastics, burns, ENT, and orthopaedics. On-call responsibilities with a 30 minute response time required. Requires a nursing degree from an accredited Nursing Program and an active New York State RN license in good standing. New graduates welcomed!

**Pediatric Specialty Nurse for the Division of Developmental and Behavior Pediatrics - Level II (236575)**

PT (24hr) position available; mostly days

The Clinical Services of Developmental and Behavioral Pediatrics (DBP) are seeking an autonomous, yet team oriented pediatric nurse to work within our multidisciplinary team to provide patient and family centered care. This is a fast-paced outpatient program providing care to children with intellectual and developmental disabilities. This position involves telephone triage and care management, as well as phone-based patient education and family support to families receiving care through DBP. RNs work collaboratively with NPs, MDs, psychologists and others on the DBP team. 2-3 years of pediatric or Behavioral Health nursing experience preferred as well as excellent problem solving, prioritization and
Available Positions

communication skills. Must be able to use independent judgment with the support of the NP team. Telephone Triage skills and disability knowledge preferred but not required. Spanish language fluency preferred but not required. Diverse applicants encouraged to apply.

**Pediatric Surgical Suite - Registered Nurse-Level II (233446)**

FT position available, D/E, 8, 10, and 12 hour shifts, occasional nights and week-ends per unit need. Holiday and on-call responsibilities

Opportunity to work in a family oriented pediatric surgery center with in-patients and out-patients. Pediatric, PACU, PICU, Med/Surg, and/or critical care experience preferred. In this fast paced and challenging unit, RN's work together as a team in the variable settings of Preanesthesia, PACU, and Post-operative Discharge. Demonstrates flexibility with scheduling to meet unit needs.

**Pediatric Transport Nurse - Registered Nurse-Level III (227177)**

FT/PT positions available, D/N – 12 hour shifts. Rotating holiday requirements, occasional on-call responsibilities.

The Pediatric Transport Team is seeking experienced critical care nurses for the role of pediatric transport nurse. The Pediatric Transport Program transports critically ill children from outlying hospitals in the Upstate NY region to Golisano Children's Hospital at URMC via ambulance, rotary, and fixed wing aircraft. In addition, the transport nurse is an expert resource for the entire pediatric service and is essential in the following: Rapid Response Team, Pediatric Code Team, procedural sedation, advanced IV access, intra-facility transport of critically ill patients, and pediatric trauma response. As a member of the pediatric critical care team, the transport nurse initiates and participates in ongoing staff education, performance/quality improvement, and organizational activities that contribute to improving patient care and safety. The ideal candidate will have a minimum of three years pediatric critical care experience; combined relevant experience will be considered.

**Pediatric Vascular Access Team - Level III (233314)**

FT position available (36 hours): D/E, weekends and holidays per service needs

The candidate must be able to work independently, be flexible and able to assume the responsibility for the nursing care and documentation of vascular access in pediatric patients, spanning from neonates to age 19. Responsibilities include assessment of patients for vascular access, planning for line insertion (including recommended support for placement), ultrasound guided peripheral intravenous access and placement of PICC lines. Team members will be responsible to be a resource for all types of central line care and maintenance issues. Responsibilities also include supporting new nursing staff by providing education, mentor support for peripheral IV catheter insertion and participating in the pediatric service safety and quality initiatives. Candidate will be eligible for the Vascular Access Board Certification after 1 year of experience. Must have 3 years of pediatric nursing experience, PICC certification preferred but not necessary.
Available Positions

Strong Memorial Hospital

Registered Nurse-Sr Level III (237598)

GENERAL PURPOSE: The Senior Level III Registered Nurse is accountable for the provision of expert patient care inclusive of complex patients. The Senior Level III Registered Nurse serves as a unit staff mentor and has increased responsibilities that may include staff orientation, patient care coordination, and other unit/service/or nursing practice activities. The Senior Level III Registered Nurse may assume an expanded unit role as available and assigned by the Nurse Manager. The Senior Level III Registered Nurse may also identify staff learning and patient safety needs. JOB DUTIES AND RESPONSIBILITIES:

Clinical Practice: Performs ongoing comprehensive assessments that include physiologic, psychosocial, and developmental components. Documents assessments, provision of care, medication administration, patient/family education, patient/family responses and care planning according to unit and service standards. Identifies complex patient problems and collaborates in developing a plan of care based on evidence from the literature, best practice standards, and patient goals. Initiates multidisciplinary care planning. Evaluates the effectiveness of educational plan and revises as indicated. Provides information to update practice standards and activities based on best evidence. Implements age-specific, culturally, and spiritually competent nursing interventions to address patient/family needs and response to procedures, therapies and medications. Recognizes trends or subtle changes in patient/family response to care and responds effectively. Identifies patient safety issues and implements action plans or educational training based on needs. Differentiates unique or complex age specific patient/family learning needs and barriers to learning. Implements an educational plan based on identified needs as well as cultural and spiritual considerations. Monitors staff compliance with unit and service documentation standards.

Service Excellence: Resolves conflict positively and in a timely manner, working directly with co-workers to address issues. Uses conflict management strategies to continuously improve staff relationships/unit operations. Treats patients, family and staff with kindness, courtesy, respect, and trust. Demonstrates respect for diverse viewpoints and cultures. Listens attentively to customers, paying attention to both verbal and non-verbal messages. Communication with customers is clear, courteous, caring and appropriate to the situation. Facilitates opportunities to improve systems and service and assists leadership in implementing changes identified through performance improvement activities and in evidence-based reports.

Professional Development: Demonstrates responsibility for continuous learning to improve self and performance, including progress toward achievement of annual goals. Functions effectively as an expert charge nurse and preceptor for staff and students, provides learning opportunities, and contributes to the orientation of team members and students. Demonstrates good communication, fairness, and support for staff while modeling an approachable, calm, helpful, and efficient demeanor. Accepts and acts on constructive feedback from leadership, peers, and colleagues in a positive manner. Actively participates and encourages peer involvement in group activities and assists with assuring staff are able to attend meetings. Assumes a leadership role in collaborative practice, performance improvement, or other interdisciplinary teams. Serves as a mentor for others needing assistance with developing educational, clinical and/or positive interpersonal skills and effective team member behaviors.

Evidence Based Practice: Reviews and evaluates evidence from the literature and best practice standards for application to patient and unit needs. Assists with the collection of data. Assists leadership to support unit performance improvement activities. Designs and oversees projects intended to address performance improvement needs. Supports others in the generation and testing of research questions (Ex. Supports research fellows, follows through on all clinical trial expectations, etc.). Identifies potential areas for investigation or search for evidence.
Available Positions

QUALIFICATIONS: Bachelor's Degree in Nursing required. 3-5 years as a Registered Nurse working in an acute care setting required or equivalent combination of education and experience. Successful completion of orientation at the unit level required. Achievement of licensure as a Registered Nurse in NYS required. Certification in Nursing Specialty or AHA Technical Certification (Instructor) required. The University of Rochester is committed to fostering, cultivating, and preserving a culture of equity, diversity, and inclusion to advance the University's mission to Learn, Discover, Heal, Create – and Make the World Ever Better. In support of our values and those of our society, the University is committed to not discriminating on the basis of age, color, disability, ethnicity, gender identity or expression, genetic information, marital status, military/veteran status, national origin, race, religion/creed, sex, sexual orientation, citizenship status, or any other status protected by law. This commitment extends to the administration of our policies, admissions, employment, access, and recruitment of candidates from underrepresented populations, veterans, and persons with disabilities consistent with these values and government contractor Affirmative Action obligations.

Available Positions

the desire to strive for organizational excellence. Must be both flexible and creative in collaborating with other units across the Children’s Hospital. Responsibilities include overseeing nursing care delivery to predominantly pediatric patients (both inpatient and outpatient) receiving care across imaging, anesthesia and sedation services, as well as a small percentage of adult patients requiring specialized imaging exams or imaging-based treatments. Ensuring nursing staff accountability, promoting nursing staff involvement in decision making, and demonstrating a level of approachability that fosters a collaborative environment within a multidisciplinary team are essential. This candidate must possess excellent communication, collaboration and critical thinking skills, with 5 years relevant clinical nursing experience which must include pediatric nursing expertise, BSN and MS in Nursing required. Requires active NYS license.

Neonatal Intensive Care - Asst Nurse Manager (227498)
FT position available, E/N, 8 & 12 hour shifts, holidays and weekends as needed.

Must have neonatal intensive care experience and demonstrate effective group leadership and problem solving skills. Possess strong communication skills including the ability to negotiate conflict. Commitment to customer focused, family centered care. Provide expert patient care, advanced assessment skills and strong clinical knowledge. Support a multidisciplinary, collaborative approach to care. Assist in development of staff to act as unit resources. Must be flexible and able to adapt readily to changing responsibilities and environment. Work in close collaboration with leadership team to ensure quality patient/family centered care. Contribute to performance improvement, program development, and participate in annual performance evaluations of staff.

Pediatric Clinical Resource Nurse (CRN) - Asst Nurse Mgr Inpt (235782)
One 36 or 40 hour position and one 24 hour position available. D/E/N position, 8/12 hour shifts. Every 4th weekend. One winter and one summer holiday per year.

Join a dynamic team of dedicated and professional nurse leaders for the pediatric service that plays an integral role in the day-to-day operations of Golisano Children’s Hospital. The Pediatric CRN role has three main components: Leadership: CRNs are ANMs for the entire pediatric service and assist with situations that arise that require leadership assistance. Bed and Resource Management: Coordinate admissions, transfers and discharges to ensure safe and efficient pediatric throughput and assist in the management of resources for GCH. Clinical Resourcing: Serve as a clinical resource for staff throughout GCH and work collaboratively with other GCH service resources to meet the needs of pediatric patients. Pediatric CRNs have opportunities to become active in service-wide committees, opportunities and initiatives that they’re passionate about. Pediatric CRNs work closely together to support each other’s work-life balance. Requirements: BSN, PALS certification and 3-5 years of recent acute care experience. Excellent interpersonal skills, written and verbal communication skills. Strong ability to problem solve and multi-task. Serve as a role model to staff through consistent ICARE values and as a resource to staff by providing evidence-based nursing care per policy. Orientation plans are customized for each new CRN based on the needs and clinical background of the nurse applying to the Pediatric CRN role.

Wilmot Cancer Institute - Ambulatory - Nurse Practitioner/Physician Assistant (237718)
Full Time, Monday through Friday, daytime hours; 4, 10 hour days a possibility

Great opportunity to work as part of an interdisciplinary team in providing care to oncology patients in the Wilmot Cancer Institute, with a specific focus providing care to patients with thoracic malignancies. Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. Will be working closely with the thoracic / head and neck medical oncology team and involvement in clinical trial accrual. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Excellent communication skills with proven ability in exercising independent judgment and initiative. Must be NYS eligible for NP/PA certification.

Wilmot Cancer Institute - Genitourinary (GU)/Geri-Oncology Ambulatory - Nurse Practitioner/Physician Assistant (237413)
Full Time position available, daytime hours, Monday through Friday, 4/10 hour shifts

This is an opportunity for a motivated APP to join a unique practice at the Wilmot Cancer Center with the Genitourinary (GU)/Geri-oncology teams. The new GU/geri-oncology APP position offers the APP a blended role of providing ambulatory care to patients with primary GU malignancies (prostate, bladder, kidney, and testicular cancers) and a separate role of caring for the geriatric oncology patient. Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, chemotherapy ordering, diagnostic test interpretation, coordination of services, and patient and family education. Involvement in clinical trial accrual. Will be working collaboratively with the GU and geri-oncology multidisciplinary teams. The Geri-oncology clinic is at Highland Hospital (anticipate one day per week), with the remainder of time at Wilmot URMC. Excellent communication skills with proven ability in exercising independent judgment and initiative. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Must be NYS eligible for NP/PA certification.

Wilmot Cancer Institute - Olean NY - Nurse Practitioner/Physician Assistant (236085)
Full Time position available (40 hours). Monday through Friday, primarily daytime hours
Available Positions

Great opportunity to work as part of a University of Rochester cancer team in the Southern Tier Region in an established ambulatory oncology practice. Wilmot has expanded regional cancer care services all while providing the standardization and high quality care expected at Wilmot Cancer Institute. We are looking for someone interested in rural cancer care, willingness to learn and flexibility. Candidates must have excellent communication skills and be self-motivated to learn. Responsibilities include direct patient care including care of cancer patients, symptom management, infusion center coverage, phone triage, coordination of services and patient/family education. The interested candidate would work closely with the established APP team for a comprehensive orientation. At the end of orientation, the APP will begin to triage patient calls, learn cancer diagnosis, cover infusion center and provide symptom management and education to our patients. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. There would so some travel required to cover vacations, infusions and disabilities at our regional cancer sites. Must be NYS eligible for NP or PA certification.

Wilmot Cancer Institute - WCC5 - Nurse Practitioner/Physician Assistant (233335)

Full Time position (13 hours shifts). Day/Night. Weekend and holidays per unit policy.

WCC5 offers an opportunity for an APP to join an inpatient practice providing direct patient care to oncology patients who have had cancer surgery. Responsibilities include daily management of patient care needs, evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. Opportunities to develop proficiencies in special clinical procedures specific to the patient population. Excellent communication skills with proven ability in exercising independent judgment and initiative. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. NP requirements: New York State Licensure as a NP and eligible for National Certification. PA requirements: NYS licensure and Board Certified as PA.

Wilmot Infusion Center at Highland Hospital - Infusion - Registered Nurse, Level II (237703)

Full time (40hours) position available. Monday through Friday (five days a week) daytime hours

Wilmot Cancer Institute is looking for a Registered Nurse to work at the Infusion Center at Highland Hospital. These dynamic 12 and 8 chair infusion centers specializes in chemotherapy infusions in addition to non-oncology infusions referred in by community providers. This is an exciting opportunity to grow and gain experience in medical oncology with an established infusion team. The candidate must demonstrate the ability to function in a fast paced environment with attention to detail. Excellent follow through skills and the ability to prioritize are critical for success in this role. As a small practice, this candidate must have the ability to work collaboratively with all members of the healthcare team. They must be flexible and adapt readily to changing responsibilities.

Cardiovascular Center

Neuro-Interventional Radiology - Nurse Practitioner/Physician Assistant (236361)

FT position, M-F, 10 hour days possible.

The Neuro-Interventional Radiology Advanced Practice Provider (N-IR APP) is responsible for providing competent medical care in accordance with the professional scope of practice and current State of New York regulatory statutes. As an N-IR APP you will be expected to perform hospital consults and rounds, take patient's history, perform physical examinations, perform radiologic procedures (within scope of practice) under the supervision of a licensed Radiologist, treatment planning within the scope of practice and interpret physical, psychological and preventive health data to determine patient's needs and problems. Able to prescribe medications as allowed by scope of practice and pharmacy formulary. The N-IR APP collaborates with Radiologists in the promotion and provision of healthcare. Essential job functions include (1): Demonstrates personal commitment to staying current in field of knowledge, expanding knowledge and skill, and contributing to organizational success; (2) Displays ability to work in an ever-changing environment and participate constructively in change processes; and (3) attends Neuro-Interventional Radiology meetings when present and or requested; completes education program as requested or approved by MRG. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Neurology - Adult Epilepsy - Nurse Practitioner/Physician Assistant (237423)

FT position- Monday- Friday, days. No weekends or holidays

Exciting opportunity to work in a Level 4 Comprehensive Epilepsy Center caring for people with medically intractable epilepsy in the outpatient setting. We are a large, specialized, regional program diagnosing and treating patients with epilepsy that have not fully responded to initial therapy, offering traditional and advanced medication management, epilepsy surgery, device therapy (vagus nerve stimulation (VNS), deep brain stimulation (DBS) and responsive neuro stimulation (RNS), diet therapy (ketogenic diet, Modified Atkins Diet), education, and psychosocial support to patients and families. We use a team-based care model with clerical staff, technologists, nurses, advanced practice providers, epileptologists, neurosurgeons, social workers, psychologists, psychiatrists, other allied disciplines, and community support agencies such as EPI (Epilepsy-Pralid) working together to provide the best outcomes with the highest quality-of-life achievable. The APP will provide direct care in the inpatient and outpatient setting. In the inpatient role, working directly with the Epilepsy team (consisting of an Attending physician and variably fellows, residents, psychologists and other providers), the APP will evaluate and manage new admissions and daily visits of patients on the Epilepsy Monitoring Unit In the outpatient setting, the APP will evaluate and manage follow-up patients during clinic visits (often alternating visits with the epileptologist), including managing antiseizure medications, ordering and interpreting lab studies, neuroimaging study results and EEG results, programming vagus nerve stimulator devices, evaluating efficacy of treatment and adjusting therapy as needed. The APP will also provide indirect care for patients including responding to patient phone calls, MyChart messages, follow up on lab and other test results, prescription renewals, and form completion, with the assistance of a nurse and clerical staff.
Available Positions

There is an extensive comprehensive onboarding process prior to independent function. Onboarding to epilepsy care will be individualized with specialty education primarily provided by the physicians (epileptologists), with support from our other APPs and the rest of the team. Our goal is that the fully trained APP will be able to practice comfortably in an autonomous fashion with input from the physicians whenever needed and especially on a regular basis in complex cases. Requirements: NY State license and certification (or eligible). Previous neurology experience ideal. Previous APP experience preferred, but new graduates with the right attitude and motivation will be considered.

**Pain Management - Neurosurgery - Nurse Practitioner/Physician Assistant (236858)**

FT position available, Monday – Friday, office based practice

Opportunity to join our nationally recognized program which is focused on the treatment of acute and chronic pain in the setting of spinal disorders and neurological disease. This program was named a Clinical Center of Excellence by the American Pain Society in 2013, the only academic medical center program in the nation to earn designation that year. This candidate will join a multidisciplinary team that brings together clinicians from diverse specialties (nursing, neurology, neurosurgery, anesthesiology, radiology). Patients with chronic nerve injury pain due to spinal disease, peripheral nerve trauma, trigeminal neuralgia, and neuropathies are the focus of this rapidly growing collaboration with leading institutions across the region. Experienced APP desired with proven clinical skills. Experience in Pain Management, Neurology and Neurosurgery desired. Practice is based in Rochester. Referral triage, telephone management, and participation in research activities will account for approximately 15% of professional time. Outpatient patient management responsibilities include new and follow up visits including procedures, with a team of Pain Management Specialists. Occasional call for collaborating physician. Candidates must have excellent organizational and communication skills. National Certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Available Positions

Degree in Nursing or Physician Assistant related field and an active New York State license in good standing. BLS/ACLS required.

Program for Mental Health and Gender Wellness in Obstetrics and Gynecology - Division of Collaborative Care and Wellness - Psychiatric Nurse Practitioner (237672)

Part-time (20 hours)

The Psychiatric Nurse Practitioner will work in a highly supportive and collaborative general obstetrics and gynecology practice primarily serving patients with Medicaid insurance as a part of the Program for Mental Health and Gender Wellness (MHGW). A key goal of MHGW is to improve access and reduce health disparities in our community, particularly among patients of color. Our multidisciplinary team works together to provide assessment, education, consultation, and treatment for OB/Gyn patients who have mental health needs. The Psychiatric Nurse Practitioner will be a key member of this team and: provide consultations to ob/gyn providers, primary care physicians, and psychiatrists; prescribe for a small subset of pregnant patients; and conduct e-consults and phone consults. Qualifications: ANCC Board Certification and NYS Licensure as a Psychiatric Nurse Practitioner. Weekly supervision with a psychiatrist with reproductive health expertise will be provided. The individual that occupies this position must have strong interpersonal and organizational skills, a collaborative approach to patient care as well as the desire to contribute to an evolving program. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. The University of Rochester Medical Center is located in a culturally diverse and vibrant community in upstate New York. We are an Affirmative Action/Equal Opportunity University that values diversity. Members of underrepresented groups, including people of color and those with disabilities, are encouraged to apply.

Strong Ties Assertive Community Treatment (ACT) Team - Psychiatric Nurse Practitioner (236524)

FT position available, M-F

Other Opportunities for Nurses

Medical Faculty Group

**Project Nurse, Vascular Quality Initiative (231123)**

Position Summary: The Project Nurse will have the following primary responsibilities: Serves as an internal contact for Vascular Quality Initiative (VQI) Data Management questions, issues or concerns, but not limited to clinical data collection, validation, delivery, reconciliation, and data management activity. Concurrently and retrospectively reviews medical records and data to identify patient care, process, and system issues (hospital and external) related to the care of the vascular surgery patients. Analyzes reports and clinical data to identify trends impacting quality outcomes. Works closely with the Hospital Quality office, the Department of Surgery Quality Team and providers/staff from the Vascular Surgery team to identify opportunities for clinical safety and quality improvement, and works with the team developing initiatives to improve quality outcomes. Responsibilities: Project Nurse/Quality Assurance Liaison 50% Utilizes VQI and other data sources to analyze patient outcomes, identify patterns and trends in care delivery in order to create safety/quality initiatives for vascular surgery patients. Develops project work-plans using Quality Improvement principles. Utilizes evidence-based practice in facilitating ongoing quality improvement efforts to drive better patient outcomes. Participates in multidisciplinary teams on quality improvement initiatives. Regularly reports quality improvement activities and quality outcomes to providers and clinical staff and is responsible for presentation of this work at various Department and Hospital level committees. Participates in root cause analyses and creates required documents as needed. Attends monthly Vascular Surgery Morbidity and Mortality Conference and completes required case reviews. Completes audits on patient records and clinical documentation for quality purposes. Assists with work related to the Quality Collaboratives the Department is involved in. Maintains knowledge of current trends, issues and research in Quality Improvement. Vascular Quality Initiative (VQI) 45% Accurately identifies surgical patients for inclusion in the VQI database through the application of strict inclusion/exclusion criteria and protocols. Performs meticulous chart review and enters clinical data into the vascular surgery quality database to identify opportunities for improved outcomes, reduced cost, improved LOS and best practice utilization of resources. Complete and accurate collection of preoperative, operative and postoperative data through the effective utilization of the EMR and other Hospital databases. Demonstrates appropriate utilization of resources necessary for accurate and timely data entry into the program's database. Demonstrates applicability of the methodology and the reliability of definitions utilized by reviewers within the program through inter-rater reliability, (IIR) testing. Establishes effective working relationships with members of the CV Service Line, Department of Surgery, Nursing, and all other Hospital Departments. Serves as an educational resource on the VQI and Vascular Surgery Quality Program. Identifies areas for streamlining and process improvement in the data collection process.
