**Lead Lactation Consultant - Level IV (205673)**

FT position available

Women's' and Children's' Service line is looking for an enthusiastic IBCLC to lead our team of lactation consultants in promoting consistent evidenced based practice. Responsibilities of management and administrative tasks, include but are not limited to: coaching and mentoring existing and new staff; leading/overseeing quality improvement initiatives; providing constructive feedback/managing individual/team performance; and following up on recognized resource gaps. Goals of the position include empowering a team to collaborate effectively, allocate resources appropriately, advocate for patient and family centered care in the UR system that facilitates mothers in reaching their breastfeeding goals while maintaining compliance with NYS initiatives. The lead lactation consultant possesses qualities that earn respect and trust of the team through confident decision making skills, staff advocacy, and inherent demonstration of the ICARE (integrity, compassion, accountability, respect, empathy) values. The lead lactation consultant should be holistically knowledgeable across the
Available Positions

spectrum of lactation needs as a clinical expert, accessible to the team, and is eager to resolve challenges with creative and innovative approaches. Excellent communication skills are essential. The position will report to nursing management and the Medical Director of Lactation Services and Programs. RN and IBCLC required.

**OB/GYN Clinical Resource Nurse - Level IV (204235)**

FT position available (40 hours), 4-10 hour nights.

The OB/GYN CRN is vigilantly alert to service needs; directing/assuming tasks in critical moments as well as supporting care needs with challenging assignment loads across the OB/GYN/Newborn Spectrum. The CRN is knowledgeable in all matters of OB, able to play a crucial role in the chain of command, and comfortable with just in time learning for new clinical presentations. Supports and mentors new staff with learning opportunities. Juggles staff assignments and bed placement issues in an impartial manner that keeps the focus on the patient; safety first and quality always. Assigns or fills in a gap for off-service monitoring, fully participates in unanticipated precipitous deliveries and other obstetric emergencies while additional staff resourcing is arranged. The CRN is also vested in regulatory agency expectations, assures that environments of care, SOCs, guidelines, policy and procedures are upheld. Attributes of the CRN include proven excellence in communication skills. Demonstrates initiative and ability to lead projects through completion. Candidates must be self-motivated individual who can look for opportunities to instruct others, lead and/or mentor quality improvement projects. As time permits, CRN contributes to discharge process to assure seamless and appropriate bed movement. The CRN is eager to provide excellence in patient care, and passionate about the OB/GYN service. Experienced candidates have demonstrated expertise in fetal monitoring through either current NCC-EFM qualification or successful completion of the GNOSIS program and PQF exam. Certifications including inpatient obstetrics, maternal-newborn nursing, lactation consultant, and/or clinical nurse leader appreciated. Experience in med/surg, peri-op, PACU, cardiovascular helpful but not necessary.

**Pediatric Nursing**

**6 North - Pediatric Intensive Care Unit - Nurse Mgr (205320)**

FT position available

Seeking an individual dedicated to the delivery of excellent patient care in a fast paced, dynamic, pediatric critical care environment. The PICU is the regional trauma center for pediatric patients and is also the only nationally verified burn center for pediatrics in the Western NY area. The PICU Nurse Manager is responsible for implementing and maintaining standards for quality patient care, managing and developing work-based teams, training new staff and providing leadership to the nursing team. The successful candidate will have excellent communication skills, and be adept at forming collaborative interdisciplinary relationships. Minimum of 5 years demonstrated clinical expertise in intensive care. BSN required, Masters, and CCRN preferred.

**Pediatric Transport Nurse, Lead - Asst Nurse Manager (203979)**

FT position available (40 hours), D/E/N, weekends as needed
Available Positions

The Pediatric Transport Lead, in collaboration with the Medical Director, is responsible for the development, maintenance, and organization of the structure and quality of the transport team's 24/7 operations. Responsibilities include reviewing and revising all transport policies, development and implementation of outreach and quality improvement programs, and reviewing all transports made by the team. The Lead will also be responsible for collection of transport data, equipment selection, and maintenance of equipment. The Pediatric Transport Lead is an experienced pediatric critical care and transport nurse who oversees the day to day activity of the team, manages the human resources of the program, and demonstrates leadership through coaching and performance evaluations. The Lead also coordinates quality initiatives and serves as a liaison between vendors and our referring agencies and facilities. Strong applicants will have at least 3 years of pediatric transport/critical care experience, excellent communication skills, and a BS in Nursing.

Perioperative Nursing

**Assistant Director for Perioperative Nursing (204022)**

FT position available

In collaboration with the Associate Director of Perioperative Nursing and with considerable latitude for exercise of independent judgment: organizes, implements, monitors, controls and evaluates the program of nursing practice of the Operating Room located at Strong Memorial Hospital in accordance with the general nursing practice philosophy and objectives. This is an exciting opportunity to promote change by forming nursing teams focused on the care of patients grouped within specific surgical services. The Assistant Director will have the opportunity to direct the Nurse Managers overseeing each specialty work group to facilitate the scheduling and cross training of staff. The person in this position will have the opportunity to try new approaches in developing cohesive teams, engage surgical teams' participation and establish relationships with ancillary services. RN with Master's Degree in Nursing, MBA or MHA. Five or more year's leadership/management experience in an academic medical center or tertiary setting. Operating Room Nursing required.

**Operating Room - Nurse Mgr (203249)**

FT position available, predominately Monday through Friday with flexibility based on unit needs and expectation to interface with off-shift and weekend staff.

Seeking an energetic individual for OR with demonstrated leadership, clinical and management skills with a desire to work collaboratively with existing Nurse Manager to promote change. Perioperative Nursing Services is embarking on a new approach to patient care in the OR by forming small groups of service specific nursing PODS each managed by its own Nurse Manager. Accountability for nursing budget, staffing, quality of care, and managing practice changes. Work collaboratively with attending surgeons, anesthesiologists and nursing staff in assuring OR patients are properly prepared for surgery. The work is dynamic, with flexibility and adaptability as key attributes for all team members. Must exhibit excellent communication skills, creativity and the ability to focus on teamwork and patient outcomes. Five years of OR/procedural nursing experience preferred. BSN required, MS degree preferred.
Available Positions

Strong Memorial Hospital

**Critical Care Research Nurse Coordinator (205248)**

7:30 AM-4 PM

THIS POSITION HAS A RENEWABLE END DATE. Position Summary The successful candidate will coordinate, manage, and oversee clinical and translational research studies relevant to critically ill patients with the Pulmonary and Critical Care Medicine Division. This is a full-time position with daily hours subject to change according to project requirements, but generally involving Monday-Friday daytime/evening hours. This is a position of independence and singular responsibility, so candidates must demonstrate dedication to meeting the day-to-day goals and metrics of the research, with the ultimate goal of contributing to the understanding, care, and therapy of the critically ill patient. The employee must be consistently eager, enthusiastic, hard-working, team-oriented, and display a positive attitude; must consistently have professional and courteous interactions with, colleagues, staff, coworkers, and staff; must always display sensitivity and compassion when interacting with research subjects, patients, and their family members. Typical Duties Assists with research subject enrollment for multiple clinical studies. These may include enrollments at off-site locations. Coordinates and performs research interventions, sample collection and laboratory analyses. Interacts daily with enrolled and prospective research subjects and their families, physicians, and co-investigators. Coordinates data entry and data management. Collects and tracks study documents and study expenses. Assists with data analysis. Assists with development of study protocols, clinical trial budgets, data collection tools, and consent forms. Requirements Bachelor's degree in nursing preferred. Background clinical experience in critical care environments, enthusiasm/interest in clinical research, and strong work ethic are essential. Candidate must be a flexible, independent thinker who wishes to work as part of a research team. The candidate must be detailed-oriented with strong organizational skills, and possess excellent written and verbal communication skills.

**Infection Preventionist (203368)**

8 AM-4:30 PM

Purpose: Coordinates all activities related to the prevention and control of health care associated infections (HAIs), helps develop standards of care which reduce risk of HAIs among patients and personnel, serves as consultant, educator, researcher and proponent of change in order to provide quality health care. Responsibilities: With latitude for independent action under the general direction of the Associate Quality Officer of Infection Prevention: Serves as a working member of the Infection Prevention Committee, responsible for coordinating, implementing and evaluating the standards of patient care developed by the Committee. Teaches infection prevention theory and procedures to hospital personnel. Supervises and conducts on-going surveillance of HAIs in patients and personnel. Investigates patient and staff exposures to communicable diseases. Compiles and interprets surveillance data on infection. Identifies epidemiological variations in levels of disease and develops appropriate measures for prevention and control. Directs and coordinates initiatives designed to identify, evaluate and implement infection prevention practice which improves patient care. Monitors patient care activities to identify methods, techniques, equipment and products which impact transmission of infection. Directs and coordinates all levels of employees in any department as it is necessary in relation to isolation, detection of evidence of cross infection, control measures, etc. Influences change through membership and participation in a variety of committees and groups. Performs
Available Positions

surveillance of health care associated infections and enter the data into NHSN. Develops and participates in In-Service Education Programs: reviews and disseminates current infection prevention information to appropriate individuals or departments within the hospital. Collaborates with all disciplines and departments in the hospital to incorporate infection prevention principles in policies and procedures in order to provide a safe environment for hospital patients and personnel. Ensures reporting of infections and/or communicable diseases to the appropriate public health authority. Continues self-education by reviewing current literature, attending workshops, seminars, and formal courses. Qualifications: A current registered nursing license and Bachelor's degree in Nursing or Bachelor of Science; a minimum of 2 years of nursing practice or equivalent health care experience; previous experience in Infection Prevention and Certification in Infection Prevention are highly desirable; or an equivalent combination of education and experience.
