

RNA Collaborative

Seminar Series
Presents...

Center for RNA Biology

University of Rochester Medical Center

RNA Collaborative Seminar Series: UR Center for RNA Biology & UMichigan Center for RNA Biomedicine

"Discovery and Therapeutic Applications of RNA "Stitching"'"

Doug Anderson, PhD

Assistant Professor of Medicine, Cardiovascular Research Institute (CVRI)
Member, University of Rochester Center for RNA Biology: From Genome to
Therapeutics

Host: **Eric J. Wagner, PhD**

Professor, Department of Biochemistry and Biophysics
Associate Director, Center for RNA Biology
Wilmot Cancer Institute
University of Rochester School of Medicine and Dentistry

CENTER FOR RNA BIOMEDICINE
UNIVERSITY OF MICHIGAN

Host: **Nils G. Walter, PhD**

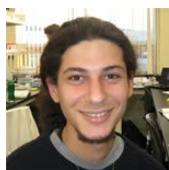

Francis S Collins Collegiate Professor of
Chemistry, Biophysics, and Biological Chemistry
University of Michigan

"High-Throughput Identification of Small Molecule Inhibitors Targeting OncoMiR-181a for Cancer Therapy"'"

Grace McIntyre, PhD Student

Analisa DiFeo laboratory - Department of Pathology, University of Michigan
Center for RNA Biomedicine

"Real-time Monitoring of Ligand Recognition by a Riboswitch during Transcription"'"

Adrien Chauvier, PhD, Research Lab Specialist

Nils Walter laboratory - Department of Chemistry, University of Michigan
Center for RNA Biomedicine

Wednesday, April 9th, 2025

4:00 – 5:00 PM

Virtual Seminar

Zoom Webinar Registration

Sponsored by the **RNA Society**:
<https://www.rnasociety.org/>
