Dear: Friends in the Department of Biochemistry at URMC

Thank you from Golisano Children's Hospital!

Thank you for the wonderful donation of toys and activity items for the children in the hospital. We appreciate your kindness in taking the time to coordinate this donation and deliver it to the hospital. The toys and craft supplies will truly brighten the children who are here this holiday season and gives them something fun to do while in the hospital.

We are honored that you chose the children in the hospital for this donation. We thank you for this thoughtful donation and for thinking of the children in and around this community. Your gift to the children will bring comfort to their stay.

We are deeply grateful for your help in giving the children treated here at UR Medicine's Golisano Children's Hospital more reasons to smile.

Most sincere thanks,
Wendy V. Lane
