Part 1: General Terms & Conditions
(Applies to all Suppliers)

1. Formation of Contract. Supplier's commencement of work or shipment of goods (whichever occurs first) constitutes acceptance of the University's offer to purchase contained in any University Purchase Order (hereinafter referred to as a "PO"). Parts 1 through 5 of this Acceptance Form and Agreement apply to any purchase or other acquisition of goods and/or services from Supplier, including those that are the subject of this PO, by University, any entity owned, directly or indirectly, by the University, any entity managed or controlled by the University, and subsidiaries and divisions of the foregoing unless acquisition is pursuant to a subsequently issued PO of differing terms and conditions. Any proposal for additional or different terms or any attempt by Supplier to vary in any degree any of the terms of this PO in Supplier's acceptance is hereby rejected, but such proposal shall not operate as a rejection of University's offer to purchase set out in the PO. Acceptance of a prior offer by Supplier is limited to the express terms contained in and incorporated by reference into the PO.

2. Cancellation. The University reserves the right at any time for its convenience to cancel this PO as to all or any portion of the goods then not shipped or services then not performed, subject to an equitable adjustment between the parties as to any work or materials (but not to include standard stock) then in progress. Supplier shall not be paid for any amount of lost profits on canceled orders, or for any avoidable costs incurred after receipt of notice of cancellation, including but not limited to any costs incurred by Supplier's suppliers or subcontractors which Supplier could reasonably have avoided. No termination for convenience shall relieve Supplier or University of its obligations as to any goods or services delivered hereunder. Any claim for adjustment hereunder must be asserted within thirty (30) days after the date of Supplier's receipt of notice of cancellation.

3. Termination For Cause. The University may terminate this PO or any part hereof at any time for cause in the event Supplier fails to comply with any of the terms and conditions of this PO, including without limitation, late delivery or performance, the delivery of defective or non-conforming goods or services, or failure to provide the University with reasonable assurances of future performance. In the event of termination for cause, the University shall not be liable to Supplier for any amount, and Supplier shall be liable to University for any and all damages sustained by reason of the default which gave rise to the termination.

4. Warranty. Supplier warrants that all goods and services provided and deliverables under this PO (individually and collectively “goods and services”) will conform to all specifications, applicable standards, laws, and regulations, be free from defects including but not limited to defects in material, workmanship, and title, are works made for hire and to the extent not deemed to be such Supplier hereby assigns, and will cause its employees and agents to assign, all right, title, and interest in and to the foregoing to University unless otherwise agreed in writing signed by University. The goods and services will not violate patent, copyright, trade secret rights, or other intellectual property rights of a third party, will conform in all respects to samples, advertisements, and other Supplier representations, will be merchantable, safe and appropriate for the purposes for which the goods and services are normally used and, if Supplier knows the purpose for which University intends to use the goods and services, such will be fit for that
purpose. Supplier also warrants that its price does not include any tax imposed on Supplier by any taxing authority.

Supplier's warranty obligations shall survive inspection, test, acceptance and use. Supplier's warranty runs to University, its successors, assigns, customers, and users of the goods and services. Supplier, at its expense, will promptly replace or correct defects in any nonconforming goods and services, if University elects to provide Supplier the opportunity to do so. University may at its option make such corrections or replace nonconforming goods and services and charge Supplier the costs incurred in doing so. Supplier’s warranty herein is in addition to any other Supplier warranty and that of the manufacturer of the goods and services.

5. Rebates and Credits. Supplier rebates and credits, including but not limited to those for correction of invoice discrepancies, returned goods, good-faith or performance offsets, and volume/price tier rebates, must be issued in the form of a check made payable to the University of Rochester and sent to Financial Services, Strong Memorial Hospital, P.O. 7. Waiver. The University's delay or failure to enforce any term or condition of this PO shall not operate to waive it. Any such waiver must be expressed by the University in an authorized writing.

8. Delivery. Wherever this PO sets a date or time for the delivery of goods and services, time is of the essence. The University may regard the failure to deliver in a timely manner as a material breach of these terms and conditions, entitling the University to all rights and remedies at law, in equity, and under the specific remedies of this PO. Title and risk of loss or damage to items ordered herein shall remain with Supplier until delivered to and accepted by the University.

9. Indemnification. Supplier shall indemnify, hold harmless, and, if requested, defend, the University and any entity issuing a PO governed by these terms and conditions, their respective trustees, directors, officers, employees, agents, and volunteers (collectively “Indemnitees”) from all claims, demands, judgments, fines, replacement costs if damaged property cannot be repaired, damages, losses, and expenses including without limitation legal costs and attorney's fees, (collectively "Liabilities") arising out of Supplier's and Supplier’s suppliers and subcontractors acts, omissions, or breach of this PO including but not limited to those resulting in personal injury, including death, and/or damage to property except where the Liabilities are due solely to the negligence or wrongful acts of an Indemnitee. Any provision in any agreement between Supplier and University regarding the limitation or exclusion of liability or damages will not apply to any of the rights and obligations of the parties under this Part 5 or breach thereof.

**P2. Permitted or Required Uses and Disclosures of PHI by Supplier.** Except as otherwise and further limited under the PO, Supplier may (a) use and disclose PHI only as reasonably necessary to perform its obligations under the PO, and provided that such use or disclosure would not violate the Rule if done by the University; (b) use PHI for its proper management and administration and to carry out its legal responsibilities; and (c) disclose PHI to a third party for the purpose of Supplier’s proper management and administration or to carry out its legal responsibilities, provided that: (i) the disclosures are required by law; or (ii) Supplier obtains reasonable written assurances from the third party that the PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party, and the third party agrees to notify Supplier of any instances of which it becomes aware in which the confidentiality of the PHI has been breached. If Supplier’s obligation under the PO include provision of data aggregation services to the University, Supplier may use and aggregate PHI for such purposes; Supplier’s use of PHI for any other data aggregation must be approved in writing in advance by the University.

**P3. Restriction on Use or Disclosure of PHI.** Supplier will request, use and disclose the minimum amount of PHI necessary to meet its obligations under the PO. Supplier will not use or disclose PHI other than as permitted or required by the PO or as required by law.

**P4. Safeguards.** Supplier will use appropriate safeguards to prevent use or disclosure of PHI other than as permitted under the PO. Supplier will implement administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of electronic PHI.

**P5. Mitigation.** Supplier will mitigate, to the extent practicable, any harmful effect that is known to Supplier of a use or disclosure of PHI by Supplier in violation of the requirements of the PO.

**P6. Reporting.** Supplier will promptly report to the University any use or disclosure of PHI that is not permitted under the PO, including breaches of unsecured PHI, and any security incident, of which Supplier becomes aware; provided that Supplier is not required to report inconsequential incidents of the nature that occur on a daily basis, such as scans, pings, or other unsuccessful attempts to penetrate computer networks or servers containing electronic PHI maintained by Supplier.

**P7. Breach Notification.** Supplier will notify University of any breach of unsecured PHI, within five (5) days after Supplier’s discovery of such breach. Within thirty (30) days of discovery of the breach, Supplier will provide a written follow-up report to University including: (a) the date of the breach; (b) the date of discovery of the breach; (c) a description of the types of PHI involved; (d) identification of each individual whose PHI has or may have been accessed, acquired or disclosed; and (e) any other details needed to assess the risk of harm to the affected individual(s). Supplier will cooperate in University’s risk assessment and take any steps requested by University to assist University in complying with statutory and regulatory breach notification requirements. University will be responsible for notifying affected individuals, the Secretary of Health and Human Services, and the media of any breach, as required by HITECH; Supplier will not take any such actions except at the express written request of University.
Supplier will pay or reimburse the reasonable actual costs incurred by University for notifying affected persons and for all reasonable mitigation efforts directly related to the breach. Supplier will also investigate the breach, mitigate losses, and protect against future similar breaches, and will provide a written report to University describing its investigation, conclusions, and processes implemented to avoid future breaches within a reasonable timeframe. The foregoing will not limit or bar any other remedies or recourse the University may have against Supplier for damages and expenses resulting from the breach.

**P8. Agents and Subcontractors.** Supplier will ensure that all of its subcontractors and agents that create, receive, maintain or transmit PHI on behalf of the University or Supplier agree, in writing, to essentially the same restrictions, conditions and requirements with respect to the use and/or disclosure of PHI that apply to Supplier, and to implement reasonable and appropriate safeguards to protect such PHI, including monitoring subcontractor compliance.

**P9. Access.** At the request of University, Supplier will provide access to PHI in a designated record set to the University of University’s designee to permit the University to meet the Rules’ access requirements, in the reasonable time and manner specified by the University.

**P10. Amendment of PHI.** At the request of University, Supplier will make amendment(s) to PHI in a designated record set in order to permit the University to meet the Rules’ amendment requirements, in the reasonable time and manner specified by the University.

**P11. Open Books.** Supplier will make its internal practices, policies, procedures, books and records relating to the use and disclosure of PHI available to the Secretary of Health and Human Services in the reasonable time and manner specified by the Secretary, for purposes of the Secretary determining the University’s compliance with the Rules.

**P12. Accounting of Disclosures.** Supplier will document disclosures of PHI and information related to such disclosures as would be required for the University to respond to an individual’s request for an accounting of disclosures of PHI in accordance with the Rules’ requirements; and will provide such information to the University in a reasonable time and manner specified by the University, to permit the University to respond to an individual’s request for an accounting of disclosures of PHI in accordance with the Rule’s requirements.

**P13. Return or Destruction of PHI.** Within thirty (30) days of the termination of the PO, Supplier will return to the University or destroy all PHI in its possession or control, including such PHI that is in the possession of Supplier’s subcontractors and agents, and if feasible, retain no copies of such PHI. If Supplier considers return or destruction of the PHI infeasible, Supplier will notify the University of the conditions that make return or destruction infeasible, and if the University agrees that return or destruction is infeasible, Supplier may retain the PHI, provided that it will extend all protections contained in the PO to its use and/or disclosure of any retained PHI, provided that it will limit any further uses and/or disclosures to the purposes that make the return or destruction of the PHI infeasible.

**P14. Implementation of Safeguards.** Supplier will use appropriate safeguards, and comply with the Security Standards for the Protection of Electronic PHI (ePHI) set forth in Subpart C of 45 CFR Part 164, to prevent Use or Disclosure of PHI other than as provided for by the PO, including but not limited to: (a) ensuring HIPAA-compliant encryption of all data in motion, including but not limited to portable data storage devices (e.g. tape backups, USB Drives, DVD, CD); end user mobile computing devices (e.g. laptops, tablets, and phones), wired and wireless network
transmission; (b) performing an annual HIPAA risk assessment, and sharing corrective action plan items with University at its request; (c) at University’s request, completing the University’s vendor risk assessment questionnaire; (d) completing security scanning for vulnerabilities at least quarterly, promptly remediating identified issues, and sharing results with University at its request; or permitting University to conduct security scanning and penetration testing of Supplier’s systems; and (e) permitting University to audit Supplier’s security program, and remediating any identified compliance violations within a reasonable timeframe; provided that University will not be under any obligation to conduct such audits; and provided further that if Supplier does not remediate any compliance violations to the satisfaction of University, University may terminate the PO.

P15. Remedies. In the event of a material breach of this Part 5 by Supplier, the University may at any time thereafter, and in its sole discretion, either: (a) notify Supplier of the breach in writing, providing an opportunity for Supplier to cure the breach, and terminate the PO if Supplier does not cure the breach within the time specified by the University in such notice; or (b) immediately terminate the PO on written notice to Supplier.

P16. Modifications. Supplier agrees that if University modifies this Part 5 to comply with any changes in the applicable laws and regulations, the modified Part 5 apply to Supplier upon its receipt of notice from the University that such modifications have been made.

P17. Notices. Supplier will send all notices to University under this Part 5 in writing, to: Chief Privacy Officer, University of Rochester, 601 Elmwood Avenue, Box 700, Rochester, New York 14642, or by fax to the Chief Privacy Officer at (585) 784-6163.
