

New Apps Menu for eRecord/ePartner

On July 27, 2019, URMC's MyApps site (myapps2.urmc.rochester.edu) will be upgraded, changing the look and feel of the interface when you log in from outside URMC to access eRecord, ePartner, and other applications.

- **Quicker access to apps... no more folders** – all application icons will appear on the main screen in alphabetical order
- **New Search tool** – locate an app quickly by typing in the Search field (upper right)
- **Icons may look the same, location on your screen may change** – you may have several apps that have similar icons... *check the description of the app before you launch it*
