

Date	Speaker	Title
September 5	Dr. Christopher Glass (Host, Dr. Abe) <i>(External Speaker)</i>	“Nuclear receptors and inflammation”
September 12	Rosh Hashanah	No Seminar
September 19	Dr. Burns Blaxall	“Heart failure: finding and confirming new targets”
September 26	Dr. Shi Pan	“Glucose 6-phosphate dehydrogenase in endothelial cells”
October 3	Dr. Stephen Schwartz (External Speaker) (Host, Dr. Korshunov)	“A systems biology approach to the vulnerable plaque”
October 10	Dr. John Funder (Host, Dr. Rocco) <i>(External Speaker)</i>	“Aldosterone and Mineralocorticoid Receptors: Evolution and Functional Roles in Nonepithelial Tissues”
October 17	Yi-Jen Chiu (Fujiwara Student)	“Initiation of mechanosignaling in detergent-extracted cell model”
October 24	Move Week	No Seminar
October 31	Dr. Elaine Raines (Host, Dr. Sottile) <i>(External Speaker)</i>	“Do proteases really break atherosclerotic plaques”
November 7	AHA Scientific Sessions	No Seminar
November 14	Fabrice Jaffre (Blaxall Postdoc)	“The role of serotonin 5-HT _{2B} receptors in pathological cardiac hypertrophy”
November 21	Thanksgiving Holiday	No Seminar
November 28	Dr. Kimio Satoh (Berk Postdoc)	“Cyclophilin A mediates vascular remodeling”
December 5	Dr. James Palis	“Ontogeny of hemopoiesis”
December 12	Dr. Ingrid Sarelius	“Inflammation in arterioles”
December 19	Dr. Paul Brookes	“Mitochondrial Cardioprotection by Nitric Oxide”
December 26	Winter Break	No Seminar
January 2	Winter Break	No Seminar
January 9	Dr. Timothy Bushnell	“Cytometry - maximizing your flow potential.”
January 16	Dr. Patricia Sime	“Novel pathways in the control of lung inflammation and fibrosis”
January 23	Dr. Kenneth Gross (Host, Dr. Miano) <i>(External Speaker)</i>	“Renin-expressing Cells and Development of Kidney Vasculature”
January 30	Dr. Jane Sottile	“Mechanisms and Consequences of Extracellular Matrix Remodelling”

February 6	Dr. Richard Waugh	“Mechanochemistry and regulation of Neutrophil-endothelial adhesion”
February 13	Dr. Tetsuro Shishido (Abe Postdoc)	“ERK5 SUMOylation in the failing heart”
February 20	Dr. Zhibo Lu (Xu Postdoc)	“Cardiac voltage-dependent potassium channel phosphorylation: functional and pathophysiological correlates”
February 27	Dr. Lin Gan (Host Dr. Miano)	“Methods in Transgenesis”
March 5	Dr. Pat Delafontaine (Host: Dr. Yan) <i>(External Speaker)</i>	“Insulin-like Growth Factor-1, Oxidant Stress and Atherosclerosis”
March 12	Dr. Zheng-Gen Jin	“Protein kinase D in vascular signaling”
March 19	Dr. Nigel Mackman (Host, Dr. Blaxall) <i>(External Speaker)</i>	“Role of tissue factor in hemostasis, thrombosis and ischemia-reperfusion injury”
March 26	Li Wang (Taubman Grad Student)	TBA
April 2	Dr. Howard A. Rockman (Host, Dr. Blaxall) <i>(External Speaker)</i>	“Biased Signaling by Seven Transmembrane Receptors”
<i>April 9</i>	<i>Experimental Biology</i>	<i>No Seminar</i>
<i>April 16</i>	<i>ATVB</i>	<i>No Seminar</i>
April 23	Dr. Slava Korshunov	TBA
April 30	Dr. Joseph Miano	“Diverse roles for SRF-myocardin in muscle biology”
May 7	Dr. Kathy Griending (Host, Dr. Jin) <i>(External Speaker)</i>	“NADPH Oxidases in Vascular Disease”
May 14	Dr. Mohan Rao (Taubman Postdoc)	“Regulation of EGLN-3 in Muscle Ischemia”
May 21	Dr. Jun-ichi Abe	TBA
May 28	Dr. Karen Hirschi (Host, Dr. Miano) <i>(External Speaker)</i>	
June 4	Dr. Mark Sussman (Host, Dr. Abe) <i>(External Speaker)</i>	“Pim-1 kinase: a missing link in AKT-mediated cardioprotection”
June 11	Dr. Chang-Hoon Woo (Abe Postdoc)	“The role of SUMOylation in endothelial dysfunction”
June 18	Dr. Cameron World (Berk Postdoc)	“Redox-regulated signal transduction in the vasculature”

=	<i>External Speaker</i>	
=	<i>No Seminar</i>	
=	<i>Already presented</i>
